Reality Of Faith The Problem Of Subjecti

Thomas Dean

Reality Of Faith The Problem Of Subject:

The Reconstruction of Religion Jan-Olav Henriksen, 2015-03-13 The Reconstruction of Religion explores the thoughts of three influential philosophers G E Lessing Soren Kierkegaard and Friedrich Nietzsche looking in particular at their influential approaches to the relationship between religion and modernity In a period of a little more than one hundred years Lessing Kierkegaard and Nietzsche each developed a different theory of religion Rejecting the possibility of maintaining religious faith on the old foundation of church tradition these thinkers formulated new ways of understanding religion in response to the challenges of modernity Though the conclusions of each system are different there remain important elements in common between them such as the importance of religious subjectivity Jan Olav Henriksen compares and contrasts the thought of Lessing Kierkegaard and Nietzsche showing that each of these philosophers still has something important to contribute to understanding religion in our own postmodern era For anyone interested in the position of religious belief in today s world these reconstructions of religion are of great value In addition to their place in the history of ideas these three philosophical approaches anticipate some of the recent issues relating to religion in postmodernity Henriksen s perceptive work moves beyond the level of historical analysis to insightful rereadings of Lessing Kierkegaard and Nietzsche that help us better understand the place of religion in our pluralistic society

The Reality of God and Historical Method Samuel V. Adams, 2015-11-09 Samuel Adams engages the classic problem of the relation between faith and history from the perspective of apocalyptic theology in critical dialogue with the work of N T Wright He argues that historical and theological scholars must take into consideration at a methodological level the reality of God that has invaded history in Jesus Christ

Feminist Positions Lynn M. Morgan, Meredith Wilson Michaels, 2016-11-11 Selected as the Most Enduring Edited Collection by the Council on Anthropology and Reproduction Since Roe v Wade there has been increasing public interest in fetuses in part as a result of effective antiabortion propaganda and in part as a result of developments in medicine and technology While feminists have begun to take note of the proliferation of fetal images in various media such as medical journals magazines and motion pictures few have openly addressed the problems that the emergence of the fetal subject poses for feminism Fetal Subjects Feminist Positions foregrounds feminism s effort to focus on the importance of women s reproductive agency and at the same time acknowledges the increasing significance of fetal subjects in public discourse and private experience Essays address the public fascination with the fetal subject and its implications for abortion discourse and feminist commitment to reproductive rights in the United States Contributors include scholars from fields as diverse as anthropology communications political science sociology and philosophy **Exploring the Range of Theology** Theodore

Runyon,2012-01-25 Every human being is a theologian We have a curiosity about the ultimate context in which we exist Theologians help us spell that out and examine what faith is all about The wide ranging issues and questions this book addresses begin with the differences between Christianity and other religions examine the relation between the Bible science and evolution explore the role of religious experience in the birth of faith and consider the contribution theologians like Paul Tillich Friedrich Gogarten Teilhard de Chardin Jurgen Moltmann and John Wesley can make to our thought today The Historical Constitution of St. Bonaventure's Philosophy John Francis Quinn,1973 **Contradictions** José M. Musacchio,2012-05-22 Contradictions is a general interest book that exposes the incompatibility between popular religious beliefs and the scientific view of human nature It begins with a survey of the evolution of religions and their continuing often irrational influences in modern society Then based on his long experience in neuroscience the author takes issue with Decartes about the duality of body and soul He presents case studies of patients with brain diseases and from these deduces that the soul far from being separate and supernatural is no more or less than our way of experiencing our brains and which correspondingly disintegrates when they do Convincing clinical findings and powerful arguments about the universality of truth make this book a bold contribution to the debate about belief and religion in the modern world **What the World Believes** Bertelsmann Stiftung,2010-07-30 In recent years the subject of religion has undergone a dramatic renaissance and attracted considerable media attention At the same time however knowledge about people s individual religiosity and the social characteristics and dynamics of religion has not grown considerably Nonetheless this knowledge has become especially important in a context of growing religious plurality and globalization where interactions between societies with different cultural and religious backgrounds are increasing To expand upon this knowledge the Bertelsmann Stiftung in cooperation with a team of sociologists psychologists theologians and religious studies experts developed the most advanced instrument to date for examining the various dimensions of religiosity in modern society the Religion Monitor A quantitative and representative survey of 21 000 people around the world who represent all of the major religions constitutes the baseline of the Religion Monitor As the scholarly complement to the popular publication this second volume includes original analyses by renowned experts of the Religion Monitor s international survey results Contributors include Jos Casanova Michael N Ebertz Karl Gabriel Hans Joas Volkhard Krech Armin Nassehi Michael von Br ck and Paul M Zulehner *Truth, Faith, and Reason* Kenneth M. Sayre,2022-08-16 John Paul II s Faith and Reason was written against a background of Catholic scholarship focusing notably on the New Testament St Augustine s Confessions St Thomas s De Veritate and the encyclicals of various pre Vatican II popes A detailed textually based critique of these early sources reveals inconsistencies and conceptual errors that are shown to carry over into Faith and Reason John Paul II s treatment of reason in particular turns out to be aberrant to the point of incoherence It is inconceivable how this reason could join with faith in a way that lifts the human spirit to a contemplation of truth as stated in the Preface of the encyclical There is another sense of reason however

which demonstrably is capable of cooperating with faith to achieve this effect This reason is free from the fetters of Neo Scholasticism that keep John Paul II s reason grounded The present study joins forces with the encyclical with a detailed example of this other sense of reason in action In this example new truths come to light regarding the complex relation between the first and the second great commandments **The Claim of God** Ethan A Worthington,2016-01-28 Through close readings of Karl Barth s theological work from 1916 to 1929 this book offers an exposition of Barth s doctrine of sanctification in his earlier theology arguing that from his earliest writings after 1915 the doctrine of sanctification was one of the key theological components used in describing the encounter between God and humanity in a positive and concrete manner This book both fills an important gap in Barthian scholarship and responds to the appeal by other recent interpreters of Barth s theology for a more balanced and careful exposition of his work Throughout the course of this exposition the force of Eduard Thurnyesen s wonderfully insightful comments about Barth show themselves to be fruitfully borne out within his work from early on That is Karl Barth s theological thinking was from the beginning directed to the life of man the life of man on the one side and on the other the Word of God that meets this life lays hold of it and transforms it *Nietzsche's Conscience* Aaron Ridley,1998 Aaron Ridley explores Nietzsche s mature ethical thought as expressed in his masterpiece arranging his book thematically around the six characters who loom largest in that work slave priest philosopher artist scientist and noble SPIRITUAL WARFARE: A Struggle for Truth Russell Sharrock,2007-03-01 Much in the Church is being touted as biblical spiritual warfare even to changing it from being spiritual to be geographical This book critics spiritual warfare teaching comparing it to the Bible and offers a biblically reasoned discussion on spiritual warfare *Truth* Kurt Pritzl,2010 Fresh interpretations of the greatest philosophers on the nature of truth and speculative essays on truth in law the arts and science **The Truth of the Christian Religion** Julius Kaftan,1894 *Topic Bible Studies Addressing Everyday Problems and Questions - Series 1* Dennis G. Mystery Thomas Dean, 2019-07-15 Metaphysics and Mystery The Why Question East and West is a critical analysis comparison and evaluation of philosophical answers Western and Asian to the question Why is there something rather than nothing The question first posed by the 17th C philosopher Leibniz was reintroduced in the 20th C by Heidegger Volume One begins with an introduction that lays out the issues raised by the Why question It then analyzes contemporary Western philosophers who provide either cosmological metaphysical or existential ontological answers to the question It also considers transitional answers that bridge the two Volume Two examines Asian philosophers classical and contemporary who though rejecting the assumptions behind the question put forward nondualist answers that have a direct bearing on it It concludes with an argument for a revised understanding of the Why question that draws on the strengths and weaknesses of these Western and Asian philosophies and explores implications for ethics and religious thought
