

The background of the book cover is a photograph of a sunset or sunrise over a mountain range. The sky is a gradient of orange, red, and purple, with the sun visible as a bright yellow-orange disk on the left side. The mountains in the foreground are dark and silhouetted against the bright sky, while the mountains in the distance are lighter and more hazy.

Reason And Value:

Reason and Value R. Jay Wallace, 2004 Reason and Value collects fifteen brand new papers by leading contemporary philosophers on themes from the moral philosophy of Joseph Raz The subtlety and power of Raz's reflections on ethical topics including especially his explorations of the connections between practical reason and the theory of value make his writings a fertile source for anyone working in this area The volume honours Raz's accomplishments in the area of ethical theorizing and will contribute to an enhanced appreciation of the significance of his work for the subject *Engaging Reason* Joseph Raz, 2000-01-13 Engaging Reason offers a penetrating examination of a set of fundamental questions about human thought and action In these tightly argued and interconnected essays Joseph Raz examines the nature of normativity reason and the will the justification of reason and the objectivity of value He argues for the centrality but also demonstrates the limits of reason in action and belief He suggests that our life is most truly our own when our various emotions hopes desires intentions and actions are guided by reason He explores the universality of value and of principles of reason on one side and on the other side their dependence on social practices and their susceptibility to change and improvement He concludes with an illuminating explanation of self interest and its relation to impersonal values in general and to morality in particular Joseph Raz has been since the 1970s a prominent original and widely admired contributor to the study of norms values and reasons not just in philosophy but in political and legal theory This volume displays the power and unity of his thought on these subjects and will be essential reading for all who work on them *Reason and Value* E. Human Communication as Narration Walter R. Fisher,2021-06-03 This book addresses questions that have concerned rhetoricians literary theorists and philosophers since the time of the pre Socratics and the Sophists How do people come to believe and to act on the basis of communicative experiences What is the nature of reason and rationality in these experiences What is the role of values in human decision making and action How can reason and values be assessed In answering these questions Professor Fisher proposes a reconceptualization of humankind as homo narrans that all forms of human communication need to be seen as

A STUDY OF VALUES OF SECONDARY SCHOOL TEACHERS IN RELATION TO THEIR

COMPETENCE, ATTITUDE TOWARDS PROFESSION AND PERSONALITY Prin. Dr. Shivakumar S. Ganapur, 2019-06-06

Value is something which pervades everything. It determines the meaning of the world as a whole as well as the meaning of every person, every event and every action. Even the smallest change introduced into the world by an agent has a value and is undertaken only on the ground and for the sake of some value. Moments of everything that exists and even everything that may exist or in any way belong to the composition of the world is of such nature that it not only exists but also contains within itself either the justification or condemnation of its being. It can be said of everything that is either good or bad; it can be said whether it must or must not be, or that it ought not to exist; that its existence is right or wrong, not in the judicial sense. This is the view expressed by Lossky and Marshall in the year 1935 in presenting the broad view of values. *Essays on Derek Parfit's On What Matters* Jussi Suikkanen, John Cottingham, 2010-01-15. In *Essays on Derek Parfit's On What Matters*, seven leading moral philosophers offer critical evaluations of the central ideas presented in a greatly anticipated new work by world-renowned moral philosopher Derek Parfit. Presents critical assessments of what promises to be one of the key moral philosophy texts of our time. Features essays by a team of leading philosophers including Princeton's Michael Smith, one of the world's leading meta-ethicists. Addresses Parfit's central thesis that the main ethical theories can agree on what matters as well as his defense of moral realism. *The Light of Reason* Abraham Benjamin Franklin, 1899.
