Reason Truth And Self Getting To Know Truth About Postmodernism:

Reason, Truth and Self Michael Luntley, 2002-09-11 Michael Luntley provides a lively introduction to the debate over postmodernism. Sympathisers of the postmodernist critique of absolute knowledge have jettisoned concepts of reason, truth and self; this abandonment has fuelled their opponents' case against postmodernism. This has led them to ignore the very real problems raised by the postmodernists. Luntley offers a clear and careful exposition of how rational debate survives despite the Enlightenment's failings. **Reason Truth and Self** covers many of the key questions of our age: How rational is science? Can we really know the truth about ourselves and the world? What is the nature of the mind? Can we know the difference between right and wrong? **Reason Truth and Self** is ideal for courses in philosophy and the social sciences. **On Transhumanism**

Stefan Lorenz Sorgner, 2020-12-15 Transhumanism is widely misunderstood in part because the media have exaggerated current technologies and branded the movement as dangerous, leading many to believe that hybrid humans may soon walk among us and that immortality achieved by means of mind uploading is imminent. In this essential and clarifying volume, Stefan Lorenz Sorgner debunks widespread myths about transhumanism and tackles the most pressing ethical issues in the debate over technologically assisted human enhancement. **On Transhumanism** is a vital primer on the subject, written by a world-renowned expert. In this book, Sorgner presents an overview of the movement's history, capably summarizing the twelve pillars of transhumanist discourse and explaining the great diversity of transhumanist responses to each individual topic. He highlights the urgent ethical challenges related to the latest technological developments, inventions and innovations, and compares the unique cultural standing of transhumanism to other cultural movements, placing it within the broader context of the Enlightenment, modernity, postmodernity and the philosophical writings of Nietzsche. Engagingly written and translated, and featuring an introduction for North American readers, this comprehensive overview of the cultural and philosophical movement of transhumanism will be required reading for students of posthumanist philosophy and for general audiences interested in learning about the transhumanist movement. **Reasons for Our Hope** H. Wayne House, Dennis W.

Jowers, 2011-10 A sophisticated yet accessible introductory guide to an articulate and well-informed defense of the Christian faith. **Reasons for Faith (Foreword by Lee Strobel)** Norman L. Geisler, Chad V. Meister, 2007-10-26 Many Christians want to witness for their faith, but they are afraid they will not be able to answer questions that others may ask of them. First Peter 3:15 reminds believers to always be prepared to make a defense to anyone who asks you for a reason for the hope that is in you. Norman Geisler and Chad Meister realize the fear of facing questions about the Christian faith. Their book **Reasons for Faith** gives believers grounded biblical apologetics to help them defend their faith. By covering the importance of apologetics and then applying apologetics to popular culture and theological issues, these authors give all Christians the tools they need to stand firm in their faith and to be able to share that faith in today's society. **Postmodernism and Youth**
