precisely in not aiming at the clarity of God's existence and they failed in this because of a faulty view of the goal of Christian life. If the blessed life is to be attained in a direct vision of God in heaven then there is little to no reason to ask for more than the bare minimum required to get into heaven justification. Furthermore if the highest blessing is this direct vision then the glory of God revealed in his work is considered as less important and even set aside. By way of contrast if God's eternal power and divine nature are clearly revealed in his works and the blessing comes in knowing God then it is of the utmost importance for Christianity to demonstrate the clarity of God's existence. *The Philosophical Theology of St. Thomas Aquinas* Leo Elders, 1990-01-01

The philosophical theology of St Thomas Aquinas is the crowning piece of his metaphysics. Leo J Elders studies it against the background of the attempts of the great philosophers of the past to penetrate deeper into the knowledge of God. While the Introduction treats the nature of philosophical theology according to Aquinas Chapter One presents a concise history of the idea of God in Western philosophical thinking Chapters Two and Three deal with the question of the cognoscibility of God and the Five Ways of St Thomas. New solutions are proposed of some difficulties in the Third and Fourth Ways. The attributes of God are studied in the order of the *Summa theologiae*. Chapter Seven considers the grammar of God language. The following chapters examine divine knowledge foreknowledge of future events divine will and providence as well as creation. The last chapter deals with the problem of the co-existence of God and finite creatures. This study shows that the philosophical theology of St Thomas Aquinas is a coherent whole of impressive depth and beauty. It has its basis in our daily experience of the world and the general principles of being but its conclusions reach the summits of negative theology. **Aristotle's Theory of Practical Cognition** Takatsura Andō, 2013-12-11

A Church for a Secular World Marinus De Jong, 2025-09-25 The relationship between the Church and the world has been a subject of debate since the Church's earliest days. Stanley Hauerwas with his emphasis on the Church as polis has made a significant contemporary contribution one that has also faced strong criticism. This study examines the distinctive insights of second generation neo-Calvinist theologian Klaas Schilder 1890-1952 on this issue. Neo-Calvinism is renowned for its development of Reformed theology particularly in this area and Schilder builds on this tradition with a critical eye. Engaging with the increasing secularity of the twentieth century he carefully interacts with Karl Barth's writings while refining his own perspective. In doing so Schilder's position comes close to the Anabaptist stance of Hauerwas yet remains firmly rooted in the Reformed understanding of creation. **Philosophy of Religion** Keith E. Yandell, 2002-01-22

In this lucid introduction to the philosophy of religion Keith Yandell covers central issues and figures as well as representative views from Judaism Christianity Islam Hinduism Buddhism and Jainism. The Law of God Rémi Brague, 2024-05-31 The law of God these words conjure an image of Moses breaking the tablets at Mount Sinai but the history of the alliance between law and divinity is so much longer and its scope so much broader than a single Judeo-Christian scene can possibly suggest. In his stunningly ambitious new history Rémi Brague goes back three thousand years to trace this idea of divine law in the West from

prehistoric religions to modern times giving new depth to today's discussions about the role of God in worldly affairs Brague masterfully describes the differing conceptions of divine law in Judaic Islamic and Christian traditions and illuminates these ideas with a wide range of philosophical political and religious sources In conclusion he addresses the recent break in the alliance between law and divinity when modern societies far from connecting the two started to think of law simply as the rule human community gives itself Exploring what this disconnection means for the contemporary world Brague powerfully expanding on the project he began with *The Wisdom of the World* re engages readers in a millennia long intellectual tradition ultimately arriving at a better comprehension of our own modernity Brague's sense of intellectual adventure is what makes his work genuinely exciting to read *The Law of God* offers a challenge that anyone concerned with today's religious struggles ought to take up Adam Kirsch New York Sun Scholars and students of contemporary world events to the extent that these may be viewed as a clash of rival fundamentalisms will have much to gain from Brague's study Ideally in that case the book seems to be both an obvious primer and launching pad for further scholarship Times Higher Education Supplement [A Fundamental Practical Theology](#) Don S. Autonomy and Food Biotechnology in Theological Ethics Cathriona Russell,2009 What does autonomy mean from a Christian perspective What could a Christian environmental ethics bring to the debate about genetically modified food This book investigates conflicting claims in the public realm about food biotechnology It critically evaluates the contribution such technologies make to sustainable agricultural production and environmental stewardship Challenging the received wisdom in popular environmental theology the book defends the role of the human person as steward of creation and presents a human centred Christian environmental ethics rooted in the Kantian tradition of moral philosophy From this vantage point the author critiques the partiality of many contemporary environmental theologies which argue for a return to the technological simplicity of an idealised past or emphasise virtue while taking little account of the role that institutional issues play in

framing and defining policy and good practice In this context the author examines whether or not under current conditions transgenic food can contribute to sustainable agricultural production Law as a Leap of Faith John Gardner, 2012-09-06 In a series of essays John Gardner has developed distinctive and engaging answers to the central questions of legal philosophy cutting through the technicalities of the subject to clarify and reinvigorate the main arguments about the nature of law This volume collects that work to provide a major contribution to the literature on jurisprudence **Discourses Upon the Existence and Attributes of God** Stephen Charnock, 1859
