Reasonable Faith The Scientific Case For Christianity:

Reasonable Faith Jay L. Wile, 1997 Reasonable Faith: The Scientific Case for Christianity Audio CD, 2006-08-09 In this CD Dr Wile lays out a complete argument for the validity of the Christian faith He begins with the scientific evidence that demonstrates the existence of God Based on his arguments the listener will quickly realize that science unerringly points to the existence of a supernatural creator He then uses medical science and historical science to demonstrate quite clearly that the Creator is the God of the Bible after listening to this tape you will understand that the Christian faith can be backed up with scientific evidence This is a recorded presentation based on the book Reasonable Faith it is NOT the book on CD

Reasonable Faith William Lane Craig, 2008 This updated edition by one of the world's leading apologists presents a systematic positive case for Christianity that reflects the latest work in the contemporary hard sciences and humanities Brilliant and accessible **Reasonable Faith** Americo Tulipano, 2019-10-24 Christians and non Christians alike are troubled by powerful questions Why do innocent people suffer Why isn't spiritual truth objectively provable How can evolution be reconciled with belief in God What is a soul What is moral truth How much hard history do the gospels contain What did Jesus mean when he spoke of perfection What is evil Clear concise answers to these and 265 other questions are offered in Reasonable Faith Backed by many years of inquiry and research this book takes on questions that have been avoided or given terse treatment by other Christian answer books In the process of facing such questions this work provides an honest and reasonable basis for compassionate Christian faith Like a breath of fresh air wonderful Dr Francis Collins Director of the National Institute of Health Author of The Language of God A masterpiece Brother Aelred Reid Benedictine Monk St John's Abbey Collegeville Minnesota Beautifully written and diligently researched Reverend Richard A Santella Retired United Methodist Minister Wonderful Joan Roughgarden Professor of biology Stanford University Author of Evolution and Christian Faith **The Study of Science and Religion** Carl Reinhold Brakenhielm, 2018-06-06 The main aim of this book is to contribute to the relationship between science and religion This book aims to do constructive theological work out of a particular cultural context The point of departure is contemporary Swedish religion and worldviews One focus is the process of biologization i.e. how the worldviews of the general public in Sweden are shaped by biological science Is there a gap between Swedes in general and the perceptions of Swedish clergy The answer is based on sociological studies on science and religion in Sweden and the United States Furthermore the book contains a study of Swedish theologians from Nathan Soderblom to the present Archbishop Antje Jackelen and their shifting understanding of the relation between science and religion The philosophical aspects of this relation are given special consideration What models of the relation inform the contemporary scholarly discussion Are science and religion in conflict separate or in mutual creative interaction **A Reasonable Faith** Anthony Campolo, 1985-11 **Behold the Man** Peter S. Williams, 2024-06-18 After a substantial new essay examining the nature of a properly skeptical historical inquiry into Jesus of Nazareth in the context of contemporary

worldviews from pre modernism to meta modernism Behold the Man presents revised essays on an eclectic range of issues from how the Epistle of James treats Jesus as Divine within decades of the crucifixion and an evaluation of recent arguments about the dating of the Fourth Gospel to debunking claims about Jesus and ancient aliens and furthering debate about the resurrection With a foreword by eminent New Testament scholar Craig L Blomberg and extensive recommended resources Behold the Man Essays on the Historical Jesus represents a wide ranging interdisciplinary engagement with historical Jesus studies

Coming to Faith Through Dawkins Alister McGrath, Denis Alexander, 2023-08-29 Richard Dawkins Christian evangelist Editors Denis Alexander and Alister McGrath gather other intelligent minds from around the world to share their startling commonality Richard Dawkins and his fellow New Atheists were instrumental in their conversions to Christianity Despite a wide range of backgrounds and cultures all are united in the fact that they were first enthusiasts for the claims and writings of the New Atheists But each became disillusioned by the arguments and conclusions of Dawkins causing them to look deeper and with more objectivity at religious faith The fallacies of Christianity Dawkins warns of simply don't exist Spending time in this fascinating and powerful book is like being invited to the most interesting dinner party you've ever attended Listen as twelve men and women from five different countries across a variety of professions philosophers artists historians engineers scientists and more explain their journeys from atheism to faith In the end you may come away having reached the same conclusion authentic Christian faith is in fact more intellectually convincing and rational than New Atheism Lucid as well as exhilarating and wide ranging Rupert Shortt Von Hgel Institute University of Cambridge and author of God Is No Thing Many people including nonbelievers like me have found Dawkins's strident atheism upsetting to the point of offensive I would never have thought that as Coming to Faith Through Dawkins shows in wonderful detail for some Dawkins's rantings were the spur to Christian faith Michael Ruse Professor of Philosophy Emeritus University of Guelph Ontario This is a novel book real life stories of people who have actually come to faith not in spite of but through Richard Dawkins It must be his own worst nightmare William Lane Craig Houston Christian University

Unreasonable Faith James Fodor, 2022-06-29 He has written or edited more than 30 books his arguments for God and Jesus are frequently cited by Christian apologists around the world and he has severely overstated his case through a series of blatant mischaracterizations and philosophical blunders You may have heard of William Lane Craig a professor of philosophy at Talbot School of Theology who is known for debating atheists but even if you haven't you have probably heard his arguments through followers and fans He is known for painting faith as the reasonable road and falsely claiming that he can prove the validity of his religion From his work attempting to show evidence for Jesus resurrection to his development of the Kalam cosmological argument for the existence of God Craig is respected among his peers on the Christian side of the religious spectrum But is that deserved What's at the core of these arguments Are they philosophically sound More importantly is this Unreasonable Faith an excellent destruction of W L Craig's entire apologetics Cogently argued and factually accurate this is required reading for anyone keen to question

the soundness of anything W L Craig has argued over the decades Which makes it an invaluable resource for refuting Christian apologetics generally Richard Carrier author on the historicity of Jesus This book should be required reading for anyone who is proposing to debate William Lane Craig on the existence of God It should also be something that those who debate Craig on that topic advertise this book gives an accurate idea of the amount of material that needs to be provided to begin to address the usual panoply of arguments that Craig puts forward in a debate Professor Graham Oppy Monash James Fodor has a graduate degree in physics at the University of Melbourne and is a research assistant in structural biology at Monash University With a keen interest in philosophy he writes for the Rationalist magazine on various subjects in religion and epistemology As president of the University of Melbourne Secular Society he has engaged in numerous discussions and public debates concerning religion with a focus on secular morality and the evidence for the resurrection of Jesus He also has a keen interest in effective altruism and computational neuroscience **WHY I CAN'T BE: Atheist** Bryce

Neuberger,2025-03-31 This short book explores the compelling reasons to believe in the existence of God and the truth of Christianity through a series of philosophical and historical arguments In this concise 25 page book Bryce Neuberger examines the improbability of atheistic naturalism the reliability of the Bible the evidence for Jesus life death and resurrection and why belief in God is rational Whether you re new to apologetics or looking to strengthen your faith this book offers clear logical arguments for the Christian worldview in a short digestible format **Faith Isn'T Blind** Patrick

Ford,2016-02-17 Popular culture constantly bombards us with the idea that modern scientific knowledge has rendered Christianity obsolete The common conception is that those who believe in God do so through blind faith a faith that is devoid of proof and in contrast with scientific knowledge However despite this perception there are multiple independent scholarly arguments that point toward the existence of a Christian God including the weakness of naturalism as an explanation for our world the congruency of God and modern science including evolution the cosmological argument and the beginning of the universe the intelligent design of our universe the existence of an objective moral law the secular sources that confirm the life and events of Jesus Christ the credibility of the New Testament and the historical evidence for the death and resurrection of Jesus Christ While belief in God is not an academic conclusion God did not leave us without any indications of his existence These independent arguments build a cumulative case that leads to the logical conclusion that God really does exist and therefore Faith Isn't Blind **The Case Against Theism** Raphael Lataster,2018-06-14 This monograph offers a critique of

arguments for the existence of a specifically Christian God advanced by prominent scholar William Lane Craig The discussion incorporates philosophical mathematical scientific historical and sociological approaches The author does not seek to criticize religion in general or Christianity specifically Rather he examines the modern and relatively sophisticated evidential case for Christian theism Scholars have been arguing for theism or naturalism for centuries and there seems little to add to the discussion especially from the theistic side However to assume that either theism or naturalism obtains is a false

dichotomy There are alternatives to both that merit consideration Employing a probabilistic approach the author advances this discussion His work uniquely utilizes not only naturalistic hypotheses to argue against theism It also presents supernaturalistic hypotheses This leaves no question that theism is almost certainly false even if some form of divine reality exists This project seeks not to argue that Christianity or any other faith or religion is undesirable but only to critically examine evidentialist claims posited by Christianity's learned apologists In fact a major secondary aim is to consider alternative god conceptions such as polytheism and pantheism This work aims to highlight that Christian theism is often granted special privileges by theistic philosophers of religion which seems doubly inappropriate when certain alternative god conceptions may even prove to be more plausible *The Christian Century*, 1925 [The Case for Heaven](#) Lee Strobel, 2021-09-14 Bestselling and award winning author Lee Strobel interviews experts about the evidence for the afterlife and offers credible answers to the most provocative questions about what happens when we die near death experiences heaven and hell We all want to know what awaits us on the other side of death but is there any reliable evidence that there is life after death Investigative author Lee Strobel offers a lively and compelling study into one of the most provocative topics of our day Through fascinating conversations with respected scholars and experts a neuroscientist from Cambridge University a researcher who analyzed a thousand accounts of near death experiences and an atheist turned Christian philosopher Strobel offers compelling reasons for why death is not the end of our existence but a transition to an exciting world to come Looking at biblical accounts Strobel unfolds what awaits us after we take our last breath and answers questions like Is there an afterlife What is heaven like How will we spend our time there And what does it mean to see God face to face With a balanced approach Strobel examines the alternative of Hell and the logic of damnation and gives a careful look at reincarnation universalism the exclusivity claims of Christ and other issues related to the topic of life after death With vulnerability Strobel shares the experience of how he nearly died years ago and how the reality of death can shape our lives and faith Follow Strobel on this journey of discovery of the entirely credible believable and exhilarating life to come

Evidence of God Nick Hawkes, 2012-03-23 Nick Hawkes has written a book on science and Christian faith that is attractive intelligent and accessible to general readers It shows clearly that Christian faith and science are not opposed to each other but in need of each other This book will be of great interest not only to committed Christians seeking to see how their biblical faith relates to contemporary science but also to all those searching for an authentic Christian spirituality for the twenty first century Denis Edwards Flinders University Nick Hawkes looks at arguments for and against the existence for God and comes to the conclusion that faith can no more dispense with science than science can dispense with God Both complete one another He knows the terrain well and is able to explain complex ideas in ordinary language Dr Hawkes concludes by saying that Christian theology rather than undermining science actually provides science with a solid ground of meaning on which to stand Mark Worthing Tabor College Adelaide This book should have a prominent position on the shelves

of pastors church leaders teachers and anyone who is interested in proclaiming Christianity in our secular society Dr Hawkes uses modern science to put forward a reasoned defense of orthodox Christianity Ken Smith The University of Queensland

Case for Christ/Case for Faith SC Compilation Ltd Lee Strobel,2006 Using the dramatic scenario of an investigative journalist pursuing his story and leads Lee Strobel uses his experience as a reporter for the Chicago Tribune to interview experts about the evidence for Christ from the fields of science philosophy and history Winner of the Gold Medallion Book Award and twice nominated for the Christian Book of the Year Award The Case For Faith is the anticipated sequel to Lee Strobel s best selling The Case for Christ finds the author investigating the nettlesome issues and doubts of the heart that threaten faith Eight major topics are addressed including doubt the problem of pain and the existence of evil **A Theology of Religious Change** David Zehnder,2011-06-08 A Theology of Religious Change asks a simple question with a complicated answer Why do people change religious faiths The study invites its readers on a trek through sociological and psychological literature that suggests many causes of religious change Moving beyond a mere catalogue of motives for conversion the author explores how a theological account of conversion and the doctrine of election can be broadened strengthened and reformulated in light of the complexity of faith s human side This book seeks to guide pastors church workers and theologians in their task of communicating the message of good news effectively by drawing attention to the diverse factors influencing religious change A Reasonable Faith Rubens Ruba,2011-03-18 Christians are often accused of having blind faith Looking at various questions relating to apologetics the author attempts to make the case that Christianity is unique and stands the test of rational and reasonable arguments There is no conflict between faith and reason He answers objections relating from Science the reliability of the Bible to the arrogant accusation that Christ is the only way Whether you are investigating Christianity for the first time or whether youre a Christian whos wondering how to respond to objections skeptical friends raise this book gives helpful guidance Everyday Apologetics Paul Chamberlain,Chris Price,2020-05-06 Objections to the Christian faith are not new The ability to boldly proclaim the old faith to a post Christian culture is In an era where access to objections and arguments is easier than ever everyday Christians need to be prepared with strong clear responses In Everyday Apologetics readers will be equipped with answers to some of Christianity s most difficult objections Why is the God of the Old Testament so violent Are science and faith in fundamental conflict with one another The contributors take up these questions and more helping Christians be strengthened in their faith while also providing powerful answers to opponents of the Christian faith With a clear inviting winsome style Everyday Apologetics is for everyone Christians skeptics seekers and everyone in between **Faith Has Its Reasons** Kenneth Boa,Robert M.
