Horn, or The Counterside of Media Henning Schmidgen, 2021-11-22 We regularly touch and handle media devices At the same time media devices such as body scanners car seat pressure sensors and smart phones scan and touch us In Horn Henning Schmidgen reflects on the bidirectional nature of touch and the ways in which surfaces constitute sites of mediation between interior and exterior Schmidgen uses the concept of horn whether manifested as a rhinoceros horn or a musical instrument to stand for both natural substances and artificial objects as spaces of tactility He enters into creative dialogue with artists scientists and philosophers ranging from Salvador Dalí William Kentridge and Rebecca Horn to Sigmund Freud Walter Benjamin and Marshall McLuhan who plumb the complex interplay between tactility and technological and biological surfaces Whether analyzing how Dalí conceived of images as tactile entities during his rhinoceros phase or examining the problem of tactility in Thomas Pynchon's *The Crying of Lot 49* Schmidgen reconfigures understandings of the dynamic phenomena of touch in media *10 Werke 20 Postkarten* Rebecca Horn, 2005 The first in a planned series of postcard books Rebecca Horn 10 Works 20 Postcards presents works by one of the most highly regarded installation artists active today Ten of Horn's iconic pieces mainly sculptural installations are shown here each captured from two different angles This book can be perceived as a publication in its own right or as a complement to previous publications But of course it also offers itself as a collection of postcards in the classic sense as a thing of beauty to be passed on to others **New York Magazine**, 1986-09-29 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea

Faking it Mia Fineman, National Gallery of Art (U.S.), Museum of Fine Arts, Houston, 2012 It is a long held truism that the camera does not lie Yet as Mia Fineman argues in this illuminating volume that statement contains its own share of untruth While modern technological innovations such as Adobe's Photoshop software have accustomed viewers to more obvious levels of image manipulation the practice of doctoring photographs has in fact existed since the medium was invented In *Faking It* Fineman demonstrates that today's digitally manipulated images are part of a continuum that begins with the earliest years of photography encompassing methods as diverse as overpainting multiple exposure negative retouching combination printing and photomontage Among the book's revelations are previously unknown and never before published images that document the acts of manipulation behind two canonical works of modern photography one blatantly fantastical Yves Klein's *Leap into the Void* of 1960 the other a purportedly unadulterated record of a real place in time Paul Strand's *City Hall Park* of 1915 Featuring 160 captivating pictures created between the 1840s and 1990s in the service of art politics news entertainment and commerce *Faking It* provides an essential counterhistory of photography as an inspired blend of fabricated truths and artful falsehoods Publisher's website

Feminism and Art in Postwar Italy Francesco Ventrella, Giovanna Zapperi, 2020-10-29 A renowned art critic of the 1960s Carla Lonzi abandoned the art world in 1970 to found *Rivolta Femminile* a pioneering feminist collective in Italy Rather than separating the art world luminary from the activist however this book looks at the two together It demonstrates that even as Lonzi refused art she articulated how feminist spaces and communities drew strength from creativity The eleven essays in this book document the artistic and feminist circles of postwar Italy a time characterised both by radical protest and avant garde aesthetics using primary and archival sources never before translated into English They map Lonzi's deep connections to the influential Italian *Arte Povera* movement and explore her complicated relationship with female artists of the time such as Carla Accardi and Suzanne Santoro Carla Lonzi's written work and activism represents a crucial but previously overlooked feminist intervention in traditional art history from beyond the Anglo American canon This book is a timely and urgent addition to our understanding of radical politics separatist feminism and art criticism in the postwar period **New York**, 2009-11 *Making a*

Photographer Rebecca A. Senf, 2020-02-08 An unprecedented and eye opening examination of the early career of one of America's most celebrated photographers One of the most influential photographers of his generation Ansel Adams 1902-1984 is famous for his dramatic photographs of the American West Although many of Adams's images are now iconic his early work has remained largely unknown In this first monograph dedicated to the beginnings of Adams's career Rebecca A Senf argues that these early photographs are crucial to understanding Adams's artistic development and offer new insights into many aspects of the artist's mature oeuvre Drawing on copious archival research Senf traces the first three decades of Adams's photographic practice beginning with an amateur album made during his childhood and culminating with his Guggenheim supported National Parks photography of the 1940s Highlighting the artist's persistence in forging a career

path and his remarkable ability to learn from experience as he sharpened his image making skills this beautifully illustrated volume also looks at the significance of the artist's environmentalism including his involvement with the Sierra Club
