Rebellion In Kildare 1790-1803:

Rebellion in Kildare, 1790-1803 Liam Chambers, 1998 The period from 1790 to 1803 one of upheaval and turbulence has witnessed a surge in historical interest in the past two decades This study examines the politicisation and rebellion in County Kildare During the 1790s a vocal liberal establishment centered on the Duke of Leinster Catholic and reformist politics militant Defenderism and a large United Irish society involving prominent liberals all of which contributed to the politicisation of the Kildare populace Against this background a faction loyal to the Dublin government attempted to stabilize and secure the county with the increasing support of the administration The 1798 rebellion engulfed Kildare lasting two months and involving thousands of rebels After initial success it evolved into a fugitive war centered on the Bog of Allen where rebels held government forces at bay for weeks During the post rebellion period radicalism persisted at a local level and thousands of Kildare men were prepared to participate in Emmet's rebellion in 1803 In examining Kildare in this period the study seeks to contribute to the wider debate on the forces of radicalism and reaction which polarized Irish society in the 1790s Publisher description *The War of Independence in Kildare* James Durney, 2013-07-08 The Kildare IRA was heavily outnumbered by crown forces and had neither the manpower nor weaponry to seriously challenge them With about 300 activists in County Kildare and only about a third of them ready to take to the field at one time they faced nearly 6 000 troops and hundreds of police and Black and Tans However the county was an important axis for intelligence gathering and communications to the south and west and it is here Kildare made its greatest impact The open flat plains of Kildare militated against ambushes while its proximity to the capital also inhibited the Kildare Volunteers Nevertheless there was a strong revolutionary element in the county The book looks at the group of Volunteers who followed the railway track into Dublin to partake in the 1916 Rising and details attacks at Greenhills Maynooth and Barrowhouse The author also examines the Rath internment camp in the Curragh reaction in the county to the Truce and Treaty and the eventual split in the republican movement in the lead up to civil war This comprehensive account will be a valuable addition to literature on this formative period in Ireland's history In the wake of the great rebellion James Patterson, 2013-07-19 On Monday 19 September 1803 the most significant trial in the history of Ireland took place in Dublin At the dock stood a twenty five year old former Trinity College student and doctor's son His name was Robert Emmet and he was standing trial for heading a rebellion on 23 July 1803 The iconic power of Robert Emmet in Irish history cannot be overstated Emmet looms large in narratives of the past yet the rebellion which he led remains to be fully contextualised Patterson's book repairs this omission and explains the complex process of politicisation and revolutionary activity extending into the 1800s He details the radicalisation of the grass roots their para militarism and engagement in secret societies Drawing on an intriguing range of sources Patterson offers a comprehensive insight into a relatively neglected period of history This work is of particular significance to undergraduate and post graduate students and lecturers of Irish history **Rebellion in Wicklow** Joseph Holt, 1998 Published for the first

time this is the account in his own words of one of the most active of all the United Irish military leaders Joseph Holt was about 40 years old at the time of the 1798 rebellion A comfortably off tenant farmer he threw in his lot with the rebels more out of a sense of grievance than for idealistic reasons He came to the fore after the main Wexford battles as captain colonel and general and successfully operated as a guerrilla leader from the shelter of the Wicklow mountains He held out long after the main rebellion had ended before surrendering to the authorities in November 1798 He was deported but eventually returned to Ireland A sanitised version of his memoirs was published in 1838 This new edition is the first full and accurate transcript of the Irish part of his memoirs Publisher description *Southern Irish Loyalism, 1912-1949* Brian Hughes,Conor Morrissey,2020 This book brings together new research on loyalism in the 26 counties that would become the Irish Free State It covers a range of topics and experiences including the Third Home Rule crisis in 1912 the revolutionary period partition independence and Irish participation in the British armed and colonial service up to the declaration of the Republic in 1949 The essays gathered here examine who southern Irish loyalists were what loyalism meant to them how they expressed their loyalism their responses to Irish independence and their experiences afterwards The collection offers fresh insights and new perspectives on the Irish Revolution and the early years of southern independence based on original archival research It addresses issues of particular historiographical and political interest during the ongoing Decade of Centenaries including revolutionary violence sectarianism political allegiance and identity and the Irish border but rather than ceasing its coverage in 1922 or 1923 this book like the lives with which it is concerned continues into the first decades of southern Irish independence List of contributors Frank Barry Elaine Callinan Jonathan Cherry Seamus Cullen Ian d Alton Sean Gannon Katherine Magee Alan McCarthy Pat McCarthy Daniel Purcell Joseph Quinn Brian M Walker Fionnuala Walsh Donald Wood **Footsteps of 'Liberty and Revolt'** Mary-Ann Constantine,Dafydd Johnston,2013-04-15 The late eighteenth century was one of the most exciting and unsettling periods in European history with the shock waves of the French Revolution rippling around the world As this collection of essays by leading scholars shows Wales was no exception From political pamphlets to a Denbighshire folk play from bardic poetry to the remodelling of the Welsh landscape itself responses to the revolutionary ferment of ideas took many forms We see how Welsh poets and preachers negotiated complex London Wales networks of patronage and even more complex issues of national and cultural loyalty and how the landscape itself is reimagined in fiction remodelled la Rousseau while it rapidly emptied as impoverished farming families emigrated to the New World Drawing on a wealth of vibrant material in both Welsh and English much of it unpublished this collection marks another important contribution to four nations criticism and offers new insights into the tensions and flashpoints of Romantic period Wales A Global History of Execution and the Criminal Corpse Richard Ward,2015-09-27 Through studies of beheaded Irish traitors smugglers hung in chains on the English coast suicides subjected to the surgeon s knife in Dresden and the burial of executed Nazi war criminals this volume provides a fresh perspective on the history of capital punishment

Insurgency and Counterinsurgency in the Nineteenth Century Mark Lawrence, 2020-12-17 Insurgency and Counterinsurgency in the Nineteenth Century examines insurgency and counterinsurgency across the globe in the nineteenth century The volume includes chapters from distinguished and rising historians from Europe North and South America and covers irregular wars in Spain Ireland France Latin America China USA Africa Central Asia and Burma The authors explore links between insurgencies and nationalism including learning curves and emulation in counterinsurgency With a special emphasis on non-Western warfare this volume includes case studies such as the Katanga and White Lotus rebellions largely unknown to Western readers The military history of the nineteenth century thus reveals much more than the symmetrical warfare of

Napoleon Grant and Moltke This volume shows the commonalities of responses more than their differences and refracts these through themes which crop up repeatedly in different times and places These themes include common problems and solutions the challenge of commanding local intelligence networks public opinion millenarianism magic and religion technology hearts and minds the legal framework of state violence racial stereotypes and patterns of forgetting and remembering guerrilla conflicts The first recent study to examine Western and non Western warfare in equal measure stressing the prevalence of commonalities between guerrilla warfare and counterinsurgency across the globe *Insurgency and Counterinsurgency in the Nineteenth Century* will be of great interest to scholars of military and strategic studies as well as modern military history It was originally published as a special issue of *Small Wars Insurgencies* *Unrespectable Radicals?* Paul A. Pickering, 2016-02-24 In 1988 Iain McCalman's seminal work *Radical Underworld* unravelled the complex and clandestine revolutionary networks of democrats that operated in London between 1790 and the beginnings of Chartism to reveal an urban underworld of prophets infidels pornographers and rogue preachers where powerful satirical and subversive subcultures were developed This present volume reflects and builds upon the diversity of McCalman's discoveries to present fresh insights into the culture and operation of popular politics in the age of reform It is a coherent and integrated treatment of the subject that offers a window into this unrespectable underworld and questions whether it was a blackguard subculture or a more complex and rich counter culture with powerful literary legal and political implications This book brings together an international team of experienced scholars to explore the concepts and subjects pioneered by McCalman The volume presents a focused and coherent review of popular politics from the meeting rooms of a reform society and the theatre stage to the forum of the courtroom and the depths of prison *The Oxford History of the Irish Book, Volume III* Raymond Gillespie, Andrew Hadfield, 2006-02-02 The Oxford History of the Irish Book is a major new series that charts the development of the book in Ireland from its origins within an early medieval manuscript culture to its current incarnation alongside the rise of digital media in the twenty first century Volume III The Irish Book in English 1550 1800 contains a series of groundbreaking essays that seek to explain the fortunes of printed word from the early Renaissance to the end of the eighteenth century The essays in section one explain the development of print culture in the period from its first incarnation in the small area of the English Pale around Dublin dominated by the interests of the English authorities to the more widespread dispersal of the printing press at the close of the eighteenth century when provincial presses developed their own character and style either alongside or as a challenge to the dominant intellectual culture Section two explains the crucial developments in the structure and technical innovation of the print trade the role played by private and public collections of books and the evidence of changing reading practices throughout the period The third and longest section explores the impact of the rise of print Essays examine the effect that the printed book had on religious and political life in Ireland providing a case study of the impact of the French Revolution on pamphlets and propaganda in Ireland the transformations

illustrated in the history of historical writing as well as in literature and the theatre through the publication of play texts for a wide audience Others explore the impact that print had on the history of science and the production of foreign language books The volume concludes with an authoritative bibliographical essay outlining the sources that exist for the study of the book in early modern Ireland This is an authoritative volume with essays by key scholars that will be the standard guide for many years to come

Ribbon Societies in Nineteenth-century Ireland and Its Diaspora Kyle Hughes (Lecturer in British history), Donald M. MacRaild, 2018 This is the first full length study of Irish Ribbonism tracing the development of the movement from its origins in the Defender movement of the 1790s to the latter part of the century when the remnants of the Ribbon tradition found solace in a new movement the quasi constitutional affinities of the Ancient Order of Hibernians Placing Ribbonism firmly within Ireland's long tradition of collective action and protest this book shows that owing to its diversity and adaptability it shared similarities but also stood apart from the many rural redresser groups of the period and showed remarkable longevity not matched by its contemporaries The book describes the wider context of Catholic struggles for improved standing explores traditions and networks for association and it describes external impressions Drawing on rich archives in the form of state surveillance records show trial proceedings and press reportage the book shows that Ribbonism was a sophisticated and durable underground network drawing together various strands of the rural and urban Catholic populace in Ireland and Britain Ribbon Societies in Nineteenth Century Ireland and its Diaspora is a fascinating study that demonstrates Ribbonism operated more widely than previous studies have revealed

British and Irish Religious Orders in Europe, 1560-1800 Cormac Begadon, James E. Kelly, 2022 Demonstrates how far from being peripheral the stable communities of conventual religious in mainland Europe acted as important centres of religious and secular activity in the aftermath of the Protestant Reformation This collection aims to explore new perspectives on the British and Irish conventual mendicant and monastic movements in mainland Europe and rediscover their roles and wider impact within early modern European Catholicism Building on recent scholarship the book addresses a historiographical imbalance which has led to an over emphasis being placed on the role of the Society of Jesus in the development of British and Irish Catholicism following the Protestant Reformation The stable communities of religious in mainland Europe also acted as important centres of religious and secular activity This volume explores the ways in which British and Irish conventuals and monastics both men and women engaged with the seismic religious and philosophical developments of the early modern period such as the Catholic Reformation and the Enlightenment in mainland Europe as well as important political developments at home exploring the connections between centres and peripheries Building on

recent movements within the field to decentralise the Catholic Reformation and recognize the international nature of Catholicism the volume aims to change the perception that the activities of British and Irish religious were peripheral bringing the islands experience in line with work on their European confreres and the broader global network of the religious orders

Robert Emmet Patrick M. Geoghegan, 2002 Robert Emmet 1778 1803 was one of the most romantic of all Irish revolutionaries His doomed relationship with Sarah Curran his failed rebellion at the age of twenty five and the brilliance of his speech from the dock captured the popular imagination and created a powerful and enduring legend W B Yeats declared that Emmet was the leading saint of Irish Nationalism This book reveals for the first time the complex and ingenious plans that Emmet devised for the rebellion His youthful idealism and military talent proved insufficient however and his attempt to seize Dublin on 23 July 1803 was a dramatic failure Captured soon after Emmet won an unlikely victory with his extraordinary speech from the dock that is rightly considered to be one of the greatest courtroom orations in history He died bravely on the scaffold the next day

Ireland and Medicine in the Seventeenth and Eighteenth Centuries James Kelly, 2016-05-06 The story of early modern medicine with its extremes of scientific brilliance and barbaric practice has long held a fascination for scholars The great discoveries of Harvey and Jenner sit incongruously with the persistence of Galenic theory superstition and blood letting Yet despite continued research into the period as a whole most work has focussed on the metropolitan centres of England Scotland and France ignoring the huge range of national and regional practice This collection aims to go some way to rectifying this situation providing an exploration of the changes and developments in medicine as practised in Ireland and by Irish physicians studying and working abroad during the seventeenth and eighteenth centuries Bringing together research undertaken into the neglected area of Irish medical and social history across a variety of disciplines including history of medicine Colonial Latin American history Irish and French history it builds upon ground breaking work recently published by several of the contributors thereby augmenting our understanding of the role of medicine within early modern Irish society and its broader scientific and intellectual networks By addressing fundamental issues that reach beyond the medical institutions the collection expands our understanding of Irish medicine and throws new light on medical practices and the broader cultural and social issues of early modern Ireland Europe and Latin America Taking a variety of approaches and sources ranging from the use of

epistolary exchange to the study of medical receipt books legislative practice to belief in miracles local professionalization to international networks each essay offers a fascinating insight into a still largely neglected area Furthermore the collection argues for the importance of widening current research to consider the importance and impact of early Irish medical traditions networks and practices and their interaction with related issues such as politics gender economic demand and religious belief
