**Welcoming the Other** N. Susan Laehn, Thomas R. Laehn, 2021-02-15 The modern turn in political philosophy established the ontological primacy of the ego reducing the community to a mere assemblage of individuals and led to the repudiation of natural duties in favor of inherent individual rights The modern project culminated in the work of Friedrich Nietzsche whose emphasis on radical individuation left human beings both liberated and exiled Individuals were free to create and to recreate themselves anew but they were simultaneously uprooted from any larger community Indeed the very possibility of shared meaning let alone shared political life was called into question This volume consists of essays addressing the efforts of philosophers artists caretakers and perhaps most importantly teachers to reestablish a foundation for political life in postmodernity The origins of these efforts are diverse and their modes are varied Individuals seek communion with the divine either with or through others they pursue friendship among strangers and they search for meaningful relationships in both the classroom and the public square Reflecting the various means by which individuals seek communion with others and with the transcendent divine Other the essays contained in this volume explore the modes through which individuals forge relationships with others in an age of isolation

**Camus's The Plague** Peg Brand Weiser, 2023 La Peste in English The Plague originally published in 1947 by the Nobel Prize winning writer Albert Camus chronicles the progression of deadly bubonic plague as it spreads through the quarantined Algerian city of Oran While most discussions of

fictional examples within aesthetics are either historical or hypothetical Camus offers an example of pestilence fiction Camus chose fiction to convey facts about plagues in the past his own bout with tuberculosis at age seventeen living under quarantine away from home for several years and forced separation from his wife who remained in Algiers while he was abroad in Nazi occupied France His own lived experiences undergird an imaginative account of shared human realities with which we can identify vulnerability to the disease isolation fear and finally humanitarianism The Plague teaches us to neither covet nor expect what we so casually took for granted This collection of original essays on philosophical themes in The Plague is of special relevance during and in the aftermath of Covid 19 but also provides reflections that will be of lasting value to those interested in this classic work of literature The novel explores questions of enduring importance Do we collectively meet the threshold of ethical behaviour posed by Camus who wrote What s true of all the evils in the world is true of plague as well It helps men to rise above themselves Or does the absurd undermine the compassionate Do heroes dutifully fight a plague with common decency or does human nature resign itself to the normalization of uncontrollable suffering and death There are myriad ways to approach the novel and this volume encourages readers to ponder human dilemmas in fictional Oran informed by our current pandemic

Albert Camus's "The New Mediterranean Culture" Neil Foxlee,2010 This book was shortlisted for the R H Gapper prize 2011 On 8 February 1937 the 23 year old Albert Camus gave an inaugural lecture for a new Maison de la culture or community arts centre in Algiers Entitled La nouvelle culture m diterran enne The New Mediterranean Culture Camus s lecture has been interpreted in radically different ways while some critics have dismissed it as an incoherent piece of juvenilia others see it as key to understanding his future development as a thinker whether as the first expression of his so called Mediterranean humanism or as an early indication of what is seen as his essentially colonial mentality These various interpretations are based on reading the text of The New Mediterranean

Culture in a single context whether that of Camus's life and work as a whole or of French discourses on the Mediterranean or of colonial Algeria and French discourses on that country. By contrast this study argues that Camus's lecture and in principle any historical text needs to be seen in a multiplicity of contexts discursive and otherwise if readers are to understand properly what its author was doing in writing it. Using Camus's lecture as a case study the book provides a detailed theoretical and practical justification of this multi-contextualist approach.

**Albert Camus's *The Stranger*** Peter Francev, 2014-06-26 Often marginalised on the sidelines of both philosophy and literature the works of Albert Camus have in recent years undergone a renaissance. While most readers in either discipline claim Camus and his works to be theirs the scholars presented in this volume tend to see him and his works in both philosophy and literature. This volume is a collection of critical essays by an international menagerie of Camus experts who despite their interpretive differences see Camus through both lenses. For them he is a novelist essayist who embodies a philosophy that was never fully developed due to his brief life. The essays here examine Camus's first published novel *The Stranger* from a variety of critical and theoretical perspectives each drawing on the author's knowledge to present the first known critical examination in English. As such this volume will shed new light on previous scholarship.

**Sex, Feminism and Lesbian Desire in Women's Magazines** Kate Farhall, 2020-09-14 This book examines evolving pop culture representations of sex and relationships from the 1970s onwards to demonstrate parallels between the strength of the feminist movement and positive portrayals of women's sexuality. In charting changes in the sex and relationship content of women's magazines over time this analysis reveals that despite surface level changes in sexual and relationship content the underlying paradigm of hetero monogamy remains unchanged. Despite a seemingly more diverse empowered and liberated sexuality for women in contemporary magazines in reality such feminist rhetoric masks an enduring model of sexuality which rests on women's sexual and emotional maintenance of male partners and their own self objectification and self surveillance. Where substantive changes can be identified they rise and fall in tandem with feminism. By demonstrating this empirical relationship between cultural products and feminist organising the book validates an assumption that has rarely been tested that a feminist social milieu improves cultural narratives about sexuality for women. *Sex, Feminism and Lesbian Desire* builds on ground breaking feminist texts such as Susan Faludi's *Backlash* to present an empirically focused comprehensive study interrogating changes in content over the lifetime of women's magazines. By charting the representation of sex and relationships in two women's magazines *Cosmopolitan* and *Cleo* since the 1970s through an analysis of over 6 500 magazine pages and 1 500 articles this timely work interrogates and ultimately complicates the apparent linear progression of feminism. This book is suitable for researchers and students in women's and gender studies queer studies LGBT studies media studies cultural studies and sociology.

**Narrating the Everyday** Asta Rau,Jan K. Coetzee,Magdalena Wojciechowska,2019-01-01 The chapters in this book reflect on the practice of using narratives to understand individual and social reality They all reveal dimensions of the same concrete reality contemporary society of Central South Africa Except for two all the chapters originated from research in the program The Narrative Study of Lives situated in the Department of Sociology at the University of the Free State in Bloemfontein South Africa Each chapter opens a window on an aspect of everyday life in Central South Africa Each window displays the capacity of the narrative as a methodological tool in qualitative research to open up better understandings of everyday experience The chapters also reflect on the epistemological journey towards unwrapping and breaking open of meaning Narratives are one of many tools available to sociologists in their quest to understand and interpret meaning But when it comes to deep understanding narratives are particularly effective in opening up more intricate levels of meaning associated with emotions feelings and subjective experiences

*Cross-Cultural Research with Integrity* Linda Miller Cleary,2013-01-16 Drawing on the experience and insights of 70 researchers across 7 countries and from a diverse range of cultures regions and disciplines this book explores the issues and ethics involved in cross cultural research and how such research can be done with integrity

*Eating Disorders and Child Sexual Abuse* Lisa Hodge,2021-03-10 This book takes up the challenge of examining women s understandings of eating disorders and child sexual abuse away from a framework focused on pathology The central argument is that women s distress is an enactment of their engagement with certain discourses and practices rather than a reaction triggered by child sexual abuse Guided by a contemporary feminist

framework and Mikhail Bakhtin's sociological linguistics to substantiate the argument women's own poetry and drawings are used as evidence to develop support and supplement research findings. The book establishes that an eating disorder is an understandable response to sexual trauma and shifts the focus away from a damaged personality. Even more importantly, it demonstrates that women with eating disorders are using their bodies as a form of resistance to express silenced traumas that remain in the silenced female body. This is an active way of making sense of experiences of child sexual abuse. *The Wiley Handbook of Action Research in Education* Craig A. Mertler, 2019-02-06. This volume was first published by Interdisciplinary Press in 2014. Ideas of beauty permeate our lives in ways of which we are often unaware, yet they are indicators of identity, transgression, sartorial codes, and otherness. While contemporary society sees the dominance of Western hegemonic ideals of beauty, when comparing these to ideals in different cultures at different historical periods, attention is drawn to the instability of beauty. The work in this volume considers the ways individuals question, respond to, articulate, reflect, challenge, modify, or accept beauty within their lives to show it can be powerful, destructive, and transformative. They show that beauty is not always what it appears and can challenge common sense preconceptions as to what is beautiful. The range of topics provides an important contribution to ongoing discussions and are testament to both the diversity and complexity of debate, the concept engenders across different disciplines.
