International expositions, colloquially known as “world’s fairs” or “expos,” provide the opportunity to construct a temporary, physical territory upon which is portrayed all manner of visions of the present, past, and future. These large events, referred to also as mega-events, display the technologies, culture, and politics at particular points in time. In their wake, these events spawn all manner of things: artistic, architectural, social, and political movements; firsthand memories and experiences; remade urban spaces; remnant buildings, public art, and other artifacts; as well as protests and critique. These events are a Victorian cabinet of curiosities and a dog’s breakfast of mass spectacle. They also form a pou sto upon which one may view humanity’s representations of itself. Scholarship has ordered these mega-events into coherent historical narratives and they are utilized as benchmarks with which to measure the qualities of societal change.

Social commentaries abound, from John Ruskin’s critique of the Crystal Palace shortly after its debut at The Great Exhibition of 1851 through Walter Benjamin’s retrospective writings describing world exhibitions as “places of pilgrimage to the commodity fetish . . . the phantasmagoria of capitalist culture attains its most radiant unfolding in the world exhibition of 1867.”¹ Some accounts are celebratory, particularly those in books published around important anniversaries of fairs past; these histories often explore the significance of the event and event memory for host cities.² Other books revisit the zeitgeist of a time and place, such as in Joseph Tirella’s book *Tomorrowland: The 1964-65 World’s Fair and the Transformation of America*, in which the prudish predilections of Robert Moses and whimsical and sanitized sci-fi futures presented within corporate pavilions are contrasted with growing civil rights protests and emerging counterculture.³ In addition, world’s fairs have been lumped together with other mega-events such as

Recasting American and Persian Literatures Amirhossein Vafa, 2016-12-09 Reading literary and cinematic events between and beyond American and Persian literatures this book questions the dominant geography of the East West divide which charts the global circulation of texts as World Literature Beyond the limits of national literary historiography and neocolonial cartography of world literary discourse the minor character Parsee Fedallah in Herman Melville's *Moby Dick* 1851 is a messenger who travels from the margins of the American literature canon to his Persian literary counterparts in contemporary Iranian fiction and film above all the rural woman Mergan in Mahmoud Dowlatabadi's novel *Missing Soluch* 1980 In contention with Eurocentric treatments of world literatures and in recognition of efforts to recast the worldliness of American and Persian literatures this book maintains that aesthetic properties are embedded in their local histories and formative geographies

A World Recast Simon Serfaty, 2012-10-12 The end of the unipolar moment completes the passing of a Western era that was prolonged for half a century when the United States took over for a defeated and exhausted group of European states after World War II Distinguished scholar Simon Serfaty vigorously argues that while it is possible and even desirable to acknowledge the passing of the Western era it is exaggerated to present it as an irreversible decline of the West relative to an irresistible rise of the Rest Rather he shows that the unfolding post Western moment will be messy In addition to the United States and the states of Europe as a Union the new cast of significant powers will involve a dozen or more countries emerging powers like China and India postimperial powers such as Japan and Russia new influentials like Brazil and Turkey pivot states like Egypt and Pakistan nuisance states like Iran failed or failing states like North Korea and Sudan and others Echoes of a Sarajevo moment played out this time in the greater Middle East the new global Balkans for the twenty first century But Serfaty convincingly contends that even during a zero polar moment of geopolitical transition American power remains superior and thus indispensable though no longer decisive Western power stands on top and thus is inescapable though no longer exclusive and even as the Rest gains broadly in stature and reach it is unlikely to achieve preponderance any time soon This powerful and provocative book should be read by all who share a deep concern for the future of America and a recast world

Social Ontology of Whoness Michael Eldred, 2018-10-26 How are core social phenomena to be understood as modes of being This book offers an alternative approach to social ontology Recent interest in social ontology on the part of mainstream philosophy and the social sciences presupposes from the outset that the human being can be cast as a conscious subject whose intentionality can be collective By contrast the present study insistently poses the crucial question of who the human being is and how they sociate as whos Such whoness is a clean cut departure from the venerable tradition of questioning

whatness quidditas essence in philosophical thinking Casting human being hermeneutically as whoness opens up new insights into how human beings sociate in interplays of mutual estimation that are simultaneously social power plays Hitherto the ontology of social power in all its various guises has only ever been implicit This book makes it explicit The kind of social power prevalent in capitalist societies is that of the reified value embodied in commodities money capital co Reified value itself is constituted through an interplay of mutual estimation among things that reflects back on the power interplay among whos In this way a new critique of capitalism becomes possible Grendel Recast in John Gardner's Novel and Beowulf Sandra Hiortdahl, 2022-07-12 This book brings John Gardner s bestselling Grendel to life in the most comprehensive study of the novel to date Using as a guide Gardner s discussions on art his extensive scholarship on Anglo Saxon poetry and his love of stories this chapter by chapter analysis shows Grendel to be much more than an ironic twist on Beowulf It reveals three distinct fights that mirror the poem which solves mysteries that have stymied readers for decades Anyone studying or teaching the novel will find useful analyses of Beowulf a discussion of the novel within Gardner s views on morality and art and an assessment of Grendel as a modern tragic hero and anti hero The monster wants to be human with every ounce of his being even at his death This issue of identity particularly for those who are outcast from society culture and community finds resonance in nearly all of Gardner s works It does so in Grendel as well and importantly so as this work reveals

Contagions of Empire Khary Oronde Polk, 2020-04-17 From 1898 onward the expansion of American militarism and empire abroad increasingly relied on black labor even as policy remained inflected both by scientific racism and by fears of contagion Black men and women were mobilized for service in the Spanish Cuban American War under the War Department s belief that southern blacks carried an immunity against tropical diseases Later in World Wars I and II black troops were stigmatized as members of a contagious venereal race and were subjected to experimental medical treatments meant to curtail their sexual desires By turns feared as contagious and at other times valued for their immunity black men and women played an important part in the U S military s conscription of racial gender and sexual difference even as they exercised their embattled agency at home and abroad By following the scientific medical and cultural history of African American enlistment through the archive of American militarism this book traces the black subjects and agents of empire as they came into contact with a world globalized by warfare Recast Case Lane, 2020-07-22 Recast The Aspiring Entrepreneur s Practical Guide to Getting Started With An Online Business Start Your Online Business Live With Purpose and Achieve Your Dreams You can start an online business from where you are right now You just need the right guide to take you along an actionable path You can become an entrepreneur You do not need a secret sauce magic formula or sparkly dust you only need your ability to implement these TOTALLY ACTIONABLE actions For this incredibly insightful book global writer traveler and entrepreneur Case Lane has read researched studied interacted and worked with aspiring entrepreneurs to unlock the REAL REASON they do not get started and HOW they can get the momentum to move forward Now this information is yours In this
