Brodsky, H. O'Neal Smitherman, 2013-06-29 In contrast to the great diversity of other crime and delinquency research measures those drawn from the CPI and the MMPI have much in common They are taken from standardized instruments administered under controlled conditions with known stimulus properties and validity indicators The CPI and MMPI measures will frequently be instruments of choice in research on personality and psychodynamics of offenders CHAPTER 6 Law Enforcement and Police This chapter encompasses a variety of scales that refer to law enforcement or police agencies Unfortunately in the case of many scales these terms are used simply with the assumption that the respondents understand the concepts and use them in the same way as researchers In other cases however specific policing functions are identified and described As noted in Chapter 3 a standard order of scale presentation is followed First the attitudes scales are presented followed by the behavior ratings per sonality measures milieu ratings prediction measures and finally the very broad category of description After the reviews are completed within each subcategory other scales in that category are listed See Chapter 2 for a description of the criteria that were used in deciding upon whether a scale would be reviewed or simply listed Listed scales are presented by title and bibliographic reference followed by a very brief description *Legal Histories of the British Empire* Shaunnagh Dorsett, John McLaren, 2014-04-24 This book is a major contribution to our understanding of the role played by law s in the British Empire Using a variety of interdisciplinary approaches the authors provide in depth analyses which shine new light on the role of law in creating the people and places of the British Empire Ranging from the United States through Calcutta across Australasia to the Gold Coast these essays seek to investigate law s central place in the British Empire and the role of its agents in embedding British rule and culture in colonial territories One of the first collections to provide a sustained engagement with the legal histories of the British Empire in particular beyond the settler colonies this work aims to encourage further scholarship and new approaches to the writing of the histories of that Empire *Legal Histories of the British*

Greep, H.A.J. Lemmens, D.B. Roos, H.C. Urschel, 2012-12-06 The shoulder hand syndrome or pain in the shoulder or arm is an extremely vital subject for the multi disciplinary approach and usually requires more than one speciality for complete evaluation The proceedings of this symposium organized by the department of general surgery of the University of Limburg cover the field thoroughly with contributions from outstanding specialists from all over the world Rheumatological neuro surgical orthopedic and traumatological aspects are covered Vascular surgeons considering both venous and arterial problems entwine with thoracic surgeons to review the thoracic outlet problem Establishing a diagnosis in this multi disciplinary field is extremely important and encompasses a combination of disciplines including neurology orthopedics surgery and physical medicine Likewise the role of each contributing factor must be assessed when multiple sources were responsible for pain In addition to adequate diagnosis it is important to institute the appropriate therapy and to establish the proper priority and timing of such therapies The follow up techniques particularly regarding thoracic outlet syndrome are extremely important to provide an objective basis for evaluation Although many advances have been made in the field of objective diagnosis and therapy there still is a great deal of overlap and confusion which has to be clarified Professor Greep and his organizing committee have done a wonderful job in composing a program covering all aspects of this field They are to be congratulated on bringing us a timely current status report on pain in the shoulder and arm FCI Research Report Federal Correctional Institution (Tallahassee, Fla.).
