New Perspectives on the Art of Ceramics in China George Kuwayama, 1992 **Science and Civilisation in China** Joseph Needham, Rose Kerr, Nigel Wood, 2004 **The Cambridge History of China: Volume 5, Sung China, 960-1279 AD, Part 2** John W. Chaffee, Denis Twitchett, 2015-03-05 This is the second of two volumes on the Sung Dynasty which together provide a comprehensive history of China from the fall of the Tang Dynasty in 907 to the Mongol conquest of the Southern Sung in 1279 With contributions from leading historians in the field Volume 5 Part Two paints a complex portrait of a dynasty beset by problems and contradictions but one which despite its military and geopolitical weakness was nevertheless economically powerful culturally brilliant socially fluid and the most populous of any empire in global history to that point In this much anticipated addition to the series the authors survey key themes across ten chapters including government economy society religion and thought to provide an authoritative and topical treatment of a profound and significant period in Chinese history *The Bloomsbury Research Handbook of Chinese Aesthetics and Philosophy of Art* Marcello Ghilardi, Hans-Georg Moeller, 2021-07-15 For anyone working in aesthetics interested in understanding the richness of the Chinese aesthetic tradition this handbook is the place to start Comprised of general introductory overviews critical reflections and contextual analysis it covers everything from the origins of aesthetics in China to the role of aesthetics in philosophy today Beginning in early China 1st millennium BCE it traces the Chinese aesthetic tradition exploring the import of the term aesthetics into Chinese thought via Japan around the end of the 19th century It looks back to early practices of art and craftsmanship showing how the history of Chinese thought provides a multitude of artefacts and texts that give rise to a wide range of aesthetic creations and notions Introducing various perspectives on traditional arts in China including painting ceramics calligraphy poetry music and theatre it explores those aesthetic traditions not included in canonic art forms such as martial arts rock gardening and ritual performance Written by Chinese European and American theoreticians and practitioners this authoritative research resource enhances contemporary aesthetics by revealing the possibilities of a Chinese philosophy of art *Southeast Asian Ceramics* John N. Miksic, 2009 Southeast Asia is known to many as a region teeming with tourist destinations economic opportunities and ex colonies but a lesser known facet is its colourful and myriad cultures in which ceramics form an integral part of the social fabric Focusing primarily on the Classical Period 800 1500 CE this book views ancient Southeast Asian culture through the lens of ceramic production and trade influenced but not completely overshadowed by its powerful neighbour China In this landmark publication noted archaeologist and scholar John N Miksic constructs a vivid picture of the development of Southeast Asia's unique ceramics Along with three contributing authors Pamela M Watkins Dawn F Rooney and Michael Flecker he summarizes the fruits of their research over the last forty years beginning in Singapore with the founding of the Southeast Asian Ceramic Society in 1969 The result is a comprehensive and insightful overview of the technology aesthetics and organization both economic and political of

seemingly diverse territories in pre colonial Southeast Asia It is essential reading for all those with an interest in the economic history of the region and also for anyone who seeks a better understanding of the brilliant but too often underestimated material culture of Southeast Asia **Heaven and Earth Seen Within** Lisa E. Rotondo-McCord, New Orleans Museum of Art, 2000 A spectacular catalog of Song Dynasty ceramics in one of the most notable collections *The Malay Peninsula* Michel Jacq-Hergoualc'h, 2018-12-24 This book attempts to evaluate the role of the Malay Peninsula as a crossroads in the great wave of commercial relationships along the maritime Silk Road from the first centuries of the Christian era to the 14th century Through these exchanges representatives of all the civilizations of Asia entered into contact along its shores They left in this place a part of themselves as can be seen in the great stylistic diversity of the religious and commercial artefacts which have been found in the area These artefacts have been analysed and categorized afresh in the light of more precise information provided in Chinese texts concerning the nature of the political entities developing at the time often dynamic city states or more modest chiefdoms **Monks in Glaze** Eileen Hsiang-ling Hsu, 2016-11-21 Monks in Glaze is a complete reassessment of the famous group of large glazed ceramic sculptures known as the Yixian Luohans Drawing upon hitherto unknown epigraphic documents Eileen Hsiang ling Hsu proposes a new date 1511 1519 for the group s production and for the first time identifies the kiln centre near Beijing as its birthplace Removed more than one hundred years ago from a massive grotto in northern China the group s provenance disappeared after its dispersal between 1913 and 1933 Delving into the social and economic issues of religious patronage imperial workshop practice and nuanced style of post Yuan Buddhist art Hsu convincingly shows that such a large group of masterworks were products of well developed commercial economy of the Ming dynasty The Qing Dynasty and Traditional Chinese Culture Richard J. Smith, 2015-10-23 The Qing dynasty 1636 1912 a crucial bridge between traditional and modern China was remarkable for its expansiveness and cultural sophistication This engaging and insightful history of Qing political social and cultural life traces the complex interaction between the Inner Asian traditions of the Manchus who conquered China in 1644 and indigenous Chinese cultural traditions Noted historian Richard J Smith argues that the pragmatic Qing emperors presented a Chinese face to their subjects who lived south of the Great Wall and other ethnic faces particularly Manchu Mongolian Central Asian and Tibetan to subjects in other parts of their vast multicultural empire They were attracted by many aspects of Chinese culture but far from being completely sinicized as many scholars argue they were also proud of their own cultural traditions and interested in other cultures as well Setting Qing dynasty culture in historical and global perspective Smith shows how the Chinese of the era viewed the world how their outlook was expressed in their institutions material culture and customs and how China s preoccupation with order unity and harmony contributed to the civilization s remarkable cohesiveness and continuity Nuanced and wide ranging his authoritative book provides an essential introduction to late imperial Chinese culture and society **The Pilgrim Art** Robert Finlay, 2010-02-17 Illuminating one thousand years of history The Pilgrim Art explores
