Political Violence And Trauma In Argentina:

Political Violence and Trauma in Argentina Antonius C. G. M. Robben, 2010-11-24 For decades Argentina's population was subject to human rights violations ranging from the merely disruptive to the abominable. Violence pervaded Argentine social and cultural life in the repression of protest crowds, a ruthless counterinsurgency campaign, massive numbers of abductions, instances of torture, and innumerable assassinations. Despite continued repression, thousands of parents searched for their disappeared children, staging street protests that eventually marshaled international support. Challenging the notion that violence simply breeds more violence, Antonius C. G. M. Robben's provocative study argues that in Argentina, violence led to trauma, and that trauma bred more violence. In this work of superior scholarship, Robben analyzes the historical dynamic through which Argentina became entangled in a web of violence spun out of repeated traumatization of political adversaries. This violence-trauma-violence cycle culminated in a cultural war that disappeared more than ten thousand people and caused millions to live in fear. **Political Violence and Trauma in Argentina** demonstrates through a groundbreaking multilevel analysis the process by which different historical strands of violence coalesced during the 1970s into an all-out military assault on Argentine society and culture. Combining history and anthropology, this compelling book rests on thorough archival research, participant observation of mass demonstrations, exhumations, and reburials, gripping interviews with military officers, guerrilla commanders, human rights leaders, and former disappeared captives. Robben's penetrating analysis of the trauma of Argentine society is of great importance for our understanding of other societies undergoing similar crimes against humanity.

Iraq at a Distance Antonius C. G. M. Robben, 2010 **Iraq at a Distance** describes the plight of the Iraqi people caught since 2003 in the carnage between U.S. troops and Iraqi insurgents. This provocative book is a bold attempt by five distinguished anthropologists to study an inaccessible war zone through groundbreaking comparisons with armed conflicts around the world.

Dictatorships in the Hispanic World Patricia Swier, Julia Riordan-Goncalves, 2013-07-18 This book broaches a comparative and interdisciplinary approach in its exploration of the phenomenon of the dictatorship in the Hispanic World in the twentieth century. Some of the themes explored through a transatlantic perspective include testimonial accounts of violence and resistance in prisons, hunger, and repression; exile, silence, and intertextuality; *bildungsroman* and the modification of gender roles; and the role of trauma and memory within the genres of the novel, autobiography, testimonial literature, the essay, documentaries, puppet theater, poetry, and visual art. By looking at the similarities and differences of dictatorships represented in the diverse landscapes of Latin America and Spain, the authors hope to provide a more panoramic view of the dictatorship that moves beyond historiographical accounts of oppression and engages actively in a more broad dialectics of resistance and a politics of memory.

Lucretia Martell Kleber Mendonça Filho Bong Joon Ho Nuri Bilge Ceylan Hirokazu Koreeda Jia Zhangke Andrey Zvyagintsev and Lee Chang-dong How is crime represented in art cinema And how can this be understood in the context of global sociopolitical and film industrial trends Arthouse crime scenes draw on variable combinations of elements associated with art cinema and crime genres Crime might be shown or lurk only at the edges It might be left unresolved or unexplained Crime can be petty and small scale or raise big questions associated with the arthouse sector political issues the nature of humanity truth and knowability In this book close textual analysis is combined with focus on social and industrial contexts A recurring theme is the situation of arthouse crime films within differing manifestations of broader processes of late modern neoliberal globalization and cultural hybridity Approaches examined range from the oblique to social realism and other mixtures of crime and arthouse tendencies *Disappearances and Police Killings in Contemporary Brazil* Sabrina Villenave, 2021-12-24

The book offers an interdisciplinary qualitative study of the history of policing in Brazil and its colonial underpinnings providing theoretical accounts of the relationship between biopolitics space and race and post colonial decolonial work on the state violence and the production of disposable political subjects Focused empirically on contemporary 1985 2015 police killings and disappearances in favelas particularly in Rio de Janeiro the book argues that the invisibility of this phenomenon is the product of a colonial mindset one that has persisted throughout Brazil's experience of both dictatorship and re-democratisation and is traceable to the legacies of the Portuguese empire and the plantation system implemented Analysing the development of the police as a colonial mechanism of social control Villenave shows how the war on drugs reproduces this same colonial logic and renders some overwhelmingly black lives disposable and thus vulnerable to unchecked police brutality and death It will be of interest to students and scholars of international politics and also contributes to critical security studies postcolonial and decolonial thought global politics the politics of Latin America and political geography

Argentine Jews in the Age of Revolt Beatrice D. Gurwitz, 2016-11-21 *Argentine Jews in the Age of Revolt* traces the ongoing efforts among Argentine Jews to rethink the Argentine nation Jewish membership in it and the nature of Jewishness itself from 1955 to 1983 Beginning with the celebrations around the supposed triumph of the liberal nation after the overthrow of Juan Perón this study examines Jewish activists' discourse through years of rapid transitions between civil and military rule massive social protest escalating violence and finally the brutal military dictatorship of 1976 to 1983 It argues that these were crucial years in which Jewish activists forcefully discarded previous understandings of the nation and pioneered novel definitions of Jewishness and Zionism designed to resonate in a Latin America upended by revolutionary ferment **Seeking Meaning, Seeking Justice in a Post-Cold War World** Judith Keene, Elizabeth

Rechniewski, 2018-03-27 The challenge for historians as for individuals and nations has been to make sense of the Cold War past without recourse to the obsolete frameworks of a dichotomous world The editors of *Seeking Meaning Seeking Justice in the Post Cold War World* Judith Keene and Elizabeth Rechniewski have brought together contributions that address the

diverse modes by which the Cold War is being assessed with a major focus on countries on the periphery of the Cold War confrontation. These approaches include developments in historiography as new intellectual and cultural frame are applied to old debates. Authors also consider the universal principles and moral discourses including that of human rights on which judgements have been based and judicial processes instigated and the forms of memorialisation that have sought to come to terms and perhaps achieve reconciliation with a Cold War past. Contributors are Ann Curthoys, Philip Deery, Katherine Hite, Michael Humphrey, Su Kyong Hwang, Perry Johansson, Judith Keene, Betty O'Neill, Peter Read, Elizabeth Rechniewski, Estela Valverde, Adrian Vickers and Marivic Wyndham.

Posttraumatic Culture in Spanish and Latin American Theater Henry James Morello, 2025-01-18. In the twentieth century Argentina, Chile and Spain suffered dictatorships marked by disappearances, torture and murder which left wounds that in some cases have yet to heal. Moving these public wounds into the realm of performance, many playwrights sought to address these national traumas by creating what I call posttraumatic theater. This book argues that these plays attempt to represent national crises by taking on stylistic features that mimic the symptoms of posttraumatic stress disorder. Drawing on trauma studies, clinical psychology and neuroscience, *Masking the Past* examines the commonalities in posttraumatic theater to create a coherent theoretical foundation by which we can explore other cultural products that arise in response to traumatic events.

Argentina's Missing Bones James P. Brennan, 2018-03-30. Argentina's missing bones revisiting the history of the dirty war examines the history of state terrorism during Argentina's 1976-83 military dictatorship in a single place, the industrial city of Córdoba, Argentina's second largest city and the site of some of the dirty war's greatest crimes. It examines the city's previous history of social protest, working class militancy and leftist activism as an explanation for the particular nature of the dirty war there. Argentina's missing bones examines both national and transnational influences on the counter-revolutionary war in Córdoba. The book also considers the legacy of this period and examines the role of the state in constructing a public memory of the violence and holding those responsible accountable through the most extensive trials for crimes against humanity to take place anywhere in Latin America. In Mapping Memory Kaitlin M Murphy investigates the use of memory as a means of contemporary sociopolitical intervention Mapping Memory focuses specifically on visual case studies including documentary film photography performance new media and physical places of memory from sites ranging from the Southern Cone to Central America and the U S Mexican borderlands Murphy develops new frameworks for analyzing how visual culture performs as an embodied agent of memory and witnessing arguing that visibility is inherently performative By analyzing the performative elements or strategies of visual texts such as embodiment reenactment haunting and the performance of material objects and places Murphy elucidates how memory is both anchored in and extracted from specific bodies objects and places Drawing together diverse theoretical strands Murphy originates the theory of memory mapping which tends to the ways in which memory is strategically deployed in order to challenge official narratives that often neglect or designate as transgressive certain memories or experiences Ultimately Murphy argues memory mapping is a visual strategy to ask and to challenge why certain lives are rendered visible and thus grievable and others not Mexico's Rebellious Afterlives Olof Kjell Oscar Ohlson, 2022-07-12

Mexico's Rebellious Afterlives Armed Uprisings and Activism in the Narco War examines nonviolent activism and armed uprisings in the narco war Olof Kjell Oscar Ohlson argues that relatives of Mexico's many victims of violence often without earlier experiences of human rights advocacy become activists protesting violence or form self armed citizens police to resist state capitalist and criminal violence Ohlson develops innovative theories on political afterlives and rituals of rebellion demonstrating how political street protests transform over time to become annual commemorative events at new memorial sites for the disappeared **Victims of International Crimes: An Interdisciplinary Discourse** Thorsten Bonacker, Christoph Safferling, 2013-07-09

In international law victims issues have gained more and more attention over the last decades In particular in transitional justice processes the victim is being given high priority It is to be seen in this context that the Rome Statute for the International Criminal Court foresees a rather excessive victim participation concept in criminal prosecution In this volume issue is taken at first with the definition of victims and secondly with the role of the victim as a witness and as a participant Several chapters address this matter with a view to the International Criminal Court ICC the Extraordinary Chambers in the Courts of Cambodia ECCC and the Trial against Demjanjuk in Germany In a third part the interests of the victims outside the criminal trial are being discussed In the final part the role of civil society actors are being tackled This volume thus gives an overview of the role of victims in transitional justice processes from an interdisciplinary angle combining academic research and practical experience Apocalypse Against Empire Anthea Portier-Young, 2014-01-09

The year 167 B C E marked the beginning of a period of intense persecution for the people of Judea as Seleucid emperor Antiochus IV Epiphanes attempted forcibly and brutally to eradicate traditional Jewish religious practices In Apocalypse against Empire Anthea Portier Young reconstructs the historical events and key players in this

traumatic episode in Jewish history and provides a sophisticated treatment of resistance in early Judaism Building on a solid contextual foundation Portier Young argues that the first Jewish apocalypses emerged as a literature of resistance to Hellenistic imperial rule In particular Portier Young contends the book of Daniel the Apocalypse of Weeks and the Book of Dreams were written to supply an oppressed people with a potent antidote to the destructive propaganda of the empire renewing their faith in the God of the covenant and answering state terror with radical visions of hope
