Politically Impossible:

Political Ideas of the Utopian Socialists Keith Taylor, 2013-11-26 First Published in 1982 In this book Taylor has selected for special attention the work of Saint Simon and his disciples the SaintSimonians Owen Fourier Cabet and Weitling those thinkers who made the most important contributions to the development of early socialist theory The author discusses the designation of utopian which entered into the conventional vocabulary of the history of ideas and is now used almost without question This title argues that these thinkers were certainly utopian in the sense that they sought to describe the structure of an ideal future society

Radical Utopianism and Cultural Studies John Storey, 2019-01-25 In Radical Utopianism and Cultural Studies John Storey looks at the concept of utopianism from a cultural studies perspective and argues that radical utopianism can awaken the political promise of cultural studies Between the Preface and the Postscript there are seven chapters that explore different aspects of radical utopianism The book begins with a definition of what radical utopianism means with its productive combination of defamiliarization and desire From there it considers Thomas More s invention of the concept of utopia with its double articulation of what is and what could be Herbert Marcuse s utopian rereading of Sigmund Freud s concept of repression Gerrard Winstanley and the Diggers the Paris Commune and the Haight Ashbury counterculture In the final chapter Storey examines two versions of utopian capitalism retro and post Although the main focus here is on Donald Trump s presidential election campaign and Paul Mason s recent bestseller Postcapitalism the chapter begins with a brief discussion of Karl Marx on capitalism Each chapter in a different way argues that radical utopianism defamiliarizes the

manufactured naturalness of the here and now making it conceivable to believe that another world is possible This book provides an ideal introduction to utopianism for students of cultural studies as well as students within a number of related disciplines such as sociology literature history politics and media studies *Cyclopædia of Political Science, Political Economy, and of the Political History of the United States: East India Company-Nullification* John Joseph Lalor, 1883 *Good* Sean Cubitt, 2025-04-01 What is the good life for me for us for the cosmos Good is an ecocritical enquiry into ethical and political dimensions of aesthetics Following Aristotle's lead it starts with ethics as the question concerning what is the good life for me moving on to politics as the good life for us Like Aristotle between ethics and politics it inserts the question of the good life for you and me the question of love In the end which is where we all live today it goes beyond Aristotle's human centred approach insisting that the good life cannot be thought or lived without including technologies and ecologies A truly cosmopolitan politics is a politics of the cosmos Learning from indigenous cultures it speaks from and with nature and machines in the form of gods and ancestors Packed with examples from banking apps to cave art economic manifestos to cookery passing through music painting poetry and film the book evokes critical traditions from across the world to present a lucid and accessible case for decolonial and ecocritical aesthetics *The Triumph of Broken Promises* Fritz Bartel, 2022-08-09 Communist and capitalist states alike were scarred by the economic shocks of the 1970s Why did only communist governments fall in their wake Fritz Bartel argues that Western democracies were insulated by neoliberalism While austerity was fatal to the legitimacy of communism democratic politicians could win votes by pushing market discipline *Crisis of Global Sustainability* Tapio Kanninen, 2013-01-04 This concise and informative text provides a critical history of the concept of sustainability and the various institutional measures taken to promote implement and enforce sustainable development proposing new organizational solutions to deal with the crisis of sustainability *Crisis of Global Sustainability* provides for the first time a compact insider description of the evolution and impact of the Club of Rome a global think tank that produced a groundbreaking 1972 study *The Limits to Growth* which highlighted the dangers of unrestrained economic growth and possible collapse of global economy during the first decades of the 21st century With recent research confirming the validity of these concerns Kanninen asks whether our overarching concept of thinking on world development today should continue to be global sustainability which implies that we still have enough time to make adjustments in our future policies and action Or should the main paradigm of our thinking shift to global survivability a concept that stresses the absolute necessity of immediate and drastic change both in institutions and policies Many environmentalists green politicians and think tanks are speaking today more loudly than ever about the necessity for a major policy institutional and paradigm change and this work is essential reading for students and scholars alike ***Law and the Politics of Reconciliation*** Scott Veitch, 2016-04-15 This collection of essays by an international group of authors explores the ways in which law and legal institutions are used in countries coming to terms with traumatic pasts and in some cases traumatic presents In putting to

question what is often taken for granted in uncritical calls for reconciliation it critically analyses and frequently challenges the political and legal assumptions underlying discourses of reconciliation Drawing on a broad spectrum of disciplinary and interdisciplinary insights the authors examine how competing conceptions of law time and politics are deployed in social transformations and how pressing demands for reconstruction reconciliation and justice inform and respond to legal categories and their use of time The book is genuinely interdisciplinary drawing on work in politics philosophy theology sociology and law It will appeal to a wide audience of researchers and academics working in these areas *Incentives for Domestic Refining* United States. Congress. Senate. Committee on Finance. Subcommittee on Energy and Agricultural Taxation,1981 The authors argue that in spite of decades of racial progress and the pervasiveness of multicultural rhetoric racial judgments are often based not just on skin color but on how a person conforms to behavior stereotypically associated with a certain race Specifically racial minorities are judged on how they perform their race the clothes they wear the way they style their hair the institutions with which they affiliate their racial politics the people they befriend date or marry where they live how they speak and their outward mannerisms and demeanor **Low-level Nuclear Waste Burial Grounds** United States.
