The Battle for Authority in European Defence Cooperation Felix Biermann, 2023-10-14 This book addresses one of the most profound transformations in international governance the proliferation of regime complexity Regime complexes can be found wherever state interests clash Thus even in one of the most constitutionalized of institutional environments the European Union EU regime complexity features prominently especially in European defence cooperation where states have created competing institutions overlapping in their mandates to organize armaments cooperation or defence planning The tense relationship between the institutions of the EU s Common Security and Defence Policy CSDP and those of NATO is well known Yet inter institutional conflict is not limited to this dichotomy It extends to institutions beyond these two frameworks such as those of the former Western European Union and regional defence cooperation frameworks such as the Nordic Defence Cooperation NORDEFCO or OCCAR a minilateral armaments agency All these institutions have partially overlapping membership structures and mandates and therefore rival authority claims in the field of European defence This book uncovers the hidden regularities of the ongoing battle for institutional authority among EU member states

French-German Military Cooperation and European Defence Delphine Deschaux-Dutard, 2025-01-29 This book examines the role of French German cooperation within European military cooperation and European defence and particularly the CSDP Common Security and Defence Policy The work explores whether Franco German bilateral leadership is still relevant in European defence and military cooperation at the EU level and analyses the reasons for its difficulties in the current context of the return to conventional warfare on the European continent With an innovative research design that mixes a conceptual framework discursive institutionalism with tools from the sociology of International Relations the book offers both a macro and an actor level perspective The focus on the strategic discourses of both French and German actors and the institutional settings within which these discourses develop also enables to better grasp the complexity of military cooperation and the recurring limits of bilateral leadership by Paris and Berlin Based on extensive fieldwork in Paris Berlin and Brussels over the past two decades including data collected since 2022 the book offers a longitudinal view of the issue as well as the most recent developments since the outbreak of the war in Ukraine This book will be of much interest to students of European security European politics and security studies in general **European Defence Cooperation** Trevor Taylor, 2025-09-12 European Defence Cooperation 1984 considers the varied elements of European defence cooperation and

the obstacles to further development of a European pillar within NATO It argues that closer cooperation would alleviate several problems including differences between the US and Europe public unease about defence policies and constraints on defence expenditure With references to four areas nuclear weapons and strategy arms control conventional forces and out of area activities it discusses the prospects for increased cooperation and makes proposals for changes in policy and in institutional arrangements

Bence Nemeth, 2022-05-23 This timely analysis of security in Europe identifies the factors that enable and hinder the creation of networks of defence cooperation across the continent Going beyond regional arrangements established by NATO and the European Union this book considers the subregional level by focusing on bilateral and minilateral defence collaborations It provides a new conceptual framework to assess the rationales leadership and the complex dynamics within these alliances and highlights how they shape and interact with NATO and EU initiatives

Larivé, 2016-05-13 Dr Lariv questions whether there is such a thing as a European defense and security policy This book analyzes the integration process by clearly illustrating to the reader the two sides of the argument in order to understand the complexity of the problems in the different stages of the creation and implementation of the European defense policy In doing so this study asks the question of why has the process been so halting and of such limited scope Structured in three parts Theories analyzing the theoretical debates raised by the positivist paradigms of neorealism liberalism and constructivism on European security History reflecting on the impacts of the Cold War American foreign policy the 2008 economic crisis and the evolution of European strategy and Actors by looking at the role of European institutions Member States and the CSDP on the transformation of the European defense policy since 1998 Each chapter is composed of sub questions allowing the reader to grasp the different forces explaining the deepening or lack of the deepening process of the CSDP Ultimately this book offers a unique base for fostering discussion understanding and critical thinking on the CSDP
