Unparalleled catastrophe Rhys Crilley, 2023-09-12 After the first use of nuclear weapons in 1945 Albert Einstein

warned that we thus drift towards unparalleled catastrophe Today we are no longer drifting but racing toward catastrophe at breakneck speed This book analyses recent events that have brought about a dangerous Third Nuclear Age From the collapse of arms control treaties and the development of hypersonic missiles to the pop culture that shapes how we think about nuclear weapons via how nuclear weapons intersect with the global threats posed by pandemics populism climate change corruption militarism and racism this book explores the nuclear zeitgeist of today It presents the case for critical nuclear studies and provides an important intervention into debates about nuclear weapons and international security Today the planet stands on the brink of catastrophe This book tells you why and what we can do about it **Militarization** Roberto J. González, Hugh Gusterson, Gustaaf Houtman, 2019-12-06 Militarization A Reader offers a range of critical perspectives on the dynamics of militarization as a social economic political cultural and environmental phenomenon It portrays militarism as the condition in which military values and frameworks come to dominate state structures and public culture both in foreign relations and in the domestic sphere Featuring short readable essays by anthropologists historians political scientists cultural theorists and media commentators the Reader probes militarism s ideologies including those that valorize warriors armed conflict and weaponry Outlining contemporary militarization processes at work around the world the Reader offers a wide ranging examination of a phenomenon that touches the lives of billions of people In collaboration with Catherine Besteman Andrew Bickford Catherine Lutz Katherine T McCaffrey Austin Miller David H Price David Vine Militarism and the British Left, 1902-1914 M. Johnson, 2013-01-11 Militarism has traditionally been regarded as a phenomenon of the political right As this book demonstrates however various groups on the political left in Britain during the years before the Great War were able to accommodate and even assimilate militaristic ideas sentiments and policies to a remarkable degree *The Geopolitics Reader* Simon Dalby, Paul Routledge, Gearóid Ó Tuathail, 2003-08 The Geopolitics Reader offers an interdisciplinary sourcebook of the most important political geographical historical and sociological readings of geopolitics in the late twentieth century The Reader is divided into five parts which draw on the most illuminating examples of imperial Cold War contemporary geopolitics new environmental themes and multiple resistances to the practices of geopolitics The editors provide comprehensive introductions and critical comment at the beginning of each part and visual geopolitical texts in the form of political cartoons are integrated throughout Encouraging exploration of divergent viewpoints of global conflict and change this invaluable compendium includes readings by Martin Luther King Vaclav Havel and George Bush

Resistance and Theological Ethics Ronald H. Stone, Robert L. Stivers, 2004-08-13 Protestantism at its best grounds both its religious and its social critique in the faith of the prophets and the life and teachings of Jesus Christ as understood and lived by the church Its teachings and desired practice stand in stark contrast to complacent religion that seems to be at ease with imperial greed domination and violence Resistance and Theological Ethics collects the edited and updated essays that emerged from the meeting of the Theological Educators for Presbyterian Social Witness in Geneva Switzerland and

southern France in 1999 Inspired there by the sixteenth century forces of renewal unleashed through resistance to an imperial church and society the writings of these educators and ethicists combine to sound a clarion call for the church to stand in resistance to social economic and political forces that threaten while embracing those that foster social justice peace and human welfare Each author emphasizes a specific call to nonviolent resistance against powers grounded in particular forms of sin religious pride greed violence and domination Divided into three parts the book details social forces to be resisted presents historical and biblical examples of resistance and concludes with theological analysis and advocacy for action in contemporary American society The Handbook of Israel's Political System Itzhak Galnoor,Dana

Blander,2018-07-26 There is growing interest in Israel s political system from all parts of the world This Handbook provides a unique comprehensive presentation of political life in Israel from the formative pre state period to the present The themes covered include political heritage and the unresolved issues that have been left to fester the institutional framework the Knesset government judiciary presidency the state comptroller and commissions of inquiry citizens political participation elections political parties civil society and the media the four issues that have bedevilled Israeli democracy since its establishment security state and religion the status of Israel s Arab citizens and economic inequities with concomitant social gaps and the contours of the political culture and its impact on Israel s democracy The authors skilfully integrate detailed basic data with an analysis of structures and processes making the Handbook accessible to both experts and those with a general interest in Israel **A London Bibliography of the Social Sciences** ,1931 Vols 1 4 include material to June 1

1929 **Heterodox Economics of Military Spending** Adem Yavuz Elveren,2025-04-22 Covering Institutionalist Post Keynesian Marxist and Feminist perspectives Heterodox Economics of Military Spending provides a comprehensive analysis of the effect of military expenditures on the economy The impact of military spending on economic growth has always been a crucial issue for policymakers and academics There exists an extensive body of literature on how military spending affects macroeconomic variables including but not limited to economic growth profit rates income inequality gender inequality and employment Different schools of economic thought have proposed various theoretical approaches to investigate the role of military production in a capitalist economy While some of these approaches are competitive others complement each other Heterodox Economics of Military Spending is the first book to analyze the effects of military spending on various macroeconomic perspectives by considering all major alternative economic schools This book also contributes to the literature by introducing new theoretical models and empirical evidence with a special focus on its impact on economic growth This book will be of great interest to readers in defense and peace economics the history of economic thought Marxist economic theory feminist economics and pluralist approaches to economics Antimilitarism C. Cockburn,2012-04-11 A lively first hand account of the ideas and activities of women and men in anti war anti militarist and peace movements The author looks at the tensions and divergences in and between organizations and their potential for cohering into a powerful

worldwide counter hegemonic movement for violence reduction International Legitimacy and the Politics of Security Alan Craig, 2013-06-20 Delegitimation has become the new battleground for Israel and the critics of Israeli military operations But the Israeli experience reveals a more general engagement where all states act strategically to build legitimacy for their policies and all resist attempts at delegitimation To understand these processes it is necessary to see how politicized moral and legal judgments shape both the use of force by states and our judgments about the means and the outcomes This is a book about legitimacy military lawyers and security More particularly it is about how the legitimacy of Israel s asymmetric military operations cannot be detached from the politics of law and ethics Sometimes it is enough that states respect the laws of armed conflict but at other times they may be held to a higher standard This does not happen in a vacuum Rather it is the product of political engagement in the murky politics of international legitimacy where standards are negotiable and some states get a harder time than others There is a strong theoretical analysis underpinning a discussion that constantly returns to the practical problems of modern armed conflict where combatants hide among civilians and states complain about the unrealistic expectations of human rights NGOs Here the law is unclear and there are choices to be made The book presents new research into the involvement of Israeli military lawyers in operational targeting decision making that has life and death consequences The case studies concern targeted killing during the Second Intifada Israel s 2006 Lebanon War the 2009 Operation Cast Lead in Gaza and finally the 2010 Israeli maritime interception of the Turkish Flotilla to Gaza The investigation identifies a struggle between the proponents of human rights in war and those who promote the rights of states to deploy military force for the security of their citizens But not all parties to a military conflict are held to the same standards In fact the analysis maps a complex political deployment of law and ethics in the strategic calculation of legitimacy costs and the diplomatic processes whereby they are contested with policy implications for those in charge of the design and execution of military operations *War in International Society* Lacy Pejcinovic, 2013-04-12 Is war an institution of international society and how is it constituted as such across the evolution of international society This book is an inquiry into the purpose of war as a social institution as originally put forward by Hedley Bull It offers a comprehensive examination of what is entailed in thinking of war as a social institution and as a mechanism for order Since the terrorist attacks of 9 11 the subject of war has become increasingly relevant with questions about who can wage war against whom the way war is fought and the reasons that lead us to war exposing fundamental inadequacies in our theorisation of war War has long been considered in the discipline of International Relations in the context of the problem of order However the inclusion of war as an institution is problematic for many How can we understand an idea and practice so often associated with coercion destruction and disorder as contributing to order and coexistence This study contends that an understanding of the core elements that establish the character of war as an institution of modern international society will give us important insights into the purpose if any of war in contemporary international relations This ground breaking book will be of strong interest to

students and scholars of international relations international relations theory the English school security studies and warfare

Contemporary Security Studies Alan Collins, 2025 **Dilemmas of Nuclear Strategy** Roman Kolkowicz, 1987

Nuclear strategy and deterrence in their golden age a nostalgically defined period sometime in the mid 1950s to mid 1960s promised to harness and control the nuclear Moloch hopes were high that the civilian strategists flooding into Washington would succeed in designing a new science of war that would safeguard national security provide a stable international environment and develop a rational decision making process for the management of national interests in a hostile nuclear world Three decades later it is a commonplace that the erstwhile promises and pretensions of the nuclear whiz kids and the wizards of Armageddon have not lived up to expectations
