Popular Politics Renewing Democracy In A Sustainable World:

Popular Politics George W. Shepherd, 1998-07-30 George Shepherd provides a popular democratic theory and strategy for democratic transition in the world. He demonstrates how popular democratic ideas have created universal human rights uprisings and popular movements and he shows how real opposition is building to elite rule. Building on the old liberal and new associative rights of the democratic tradition of the Western world from Harold Laski and Jacques Maritain in Europe to the moral realism of Martin Luther King Jr, John Rawls and David Brower in America, Professor Shepherd proposes numerous reforms in the economic and political systems that can occur through popular politics and participatory economics. Of considerable interest to activists, concerned citizens and scholars involved in the debates over democracy and current economic political policies.

Human Rights Albert A. Zinnos, 2007 Human rights refers to the concept of human beings as having universal rights or status regardless of legal jurisdiction and likewise other localising factors such as ethnicity and nationality. For many, the concept of human rights is based in religious principles. However, because a formal concept of human rights has not been universally accepted, the term has some degree of variance between its use in different local jurisdictions. Difference in both meaningful substance as well as in protocols for and styles of application. Ultimately, the most general meaning of the term is one which can only apply universally and hence the term human rights is often itself an appeal to such transcended principles without basing such on existing legal concepts. The term humanism refers to the developing doctrine of such universally applicable values and it is on the basic concept that human beings have innate rights that more specific local legal concepts are often based. Within particular societies, human rights refers to standards of behaviour as accepted within their respective legal systems regarding 1. the well being of individuals, 2. the freedom and autonomy of individuals and 3. the representation of the human interest in government. These rights commonly include the right to life, the right to an adequate standard of living, the prohibition of genocide, freedom from torture and other mistreatment, freedom of expression, freedom of movement, the right to self-determination, the right to education and the right to participation in cultural and political life. These norms are based on the legal and political traditions of United Nations member states and are incorporated into international human rights instruments. This new book brings together the latest book literature centred on this crucial topic. *American Book Publishing Record*, 2003.

in India analyzes one of the most important cases of developmental change in the twentieth century namely Kerala in southern India and begs the question of whether insurgency among the marginalized poor can use formal representative democracy to create better life chances Going back to pre independence colonial India Manali Desai takes a long historical view of Kerala and compares it with the state of West Bengal which like Kerala has been ruled by leftists but has not had the same degree of success in raising equal access to welfare literacy and basic subsistence This comparison brings the role of left party formation and its mode of insertion in civil society to the fore raising the question of what kinds of parties can effect the most substantive anti poverty reforms within a vibrant democracy This book offers a new historically based explanation for Kerala s post independence political and economic direction Multicultural Challenges and Sustainable Democracy in Europe and East Asia N. Kim,2014-10-29 This collection examines the current stage of multicultural challenges and their influence on democracy in 12 countries of Europe and East Asia Contributors draw out the differences between European and East Asian approaches to universalizing locality and localizing global norms regarding human rights and democratic individuality Sociological Abstracts Leo P.
