Fiduciary Management A. van Nunen, 2011-08-10 Fiduciary Management offers an in depth explanation of every facet of this fast growing approach to organizing the management of an institutional investment portfolio Expert author Anton van Nunen begins by outlining the historic shift that has brought this strategy to the attention of the investment community and quickly moves on to illustrate fiduciary management in practice giving advice in terms of asset liability modeling and financial markets constructing portfolios selecting and overseeing investment managers benchmarking and performance measurement and reporting

Integrating Information Technology into the Teacher Education Curriculum Nancy Wentworth, Rodney Earle, Michael Connell, 2013-01-11 As teaching evolves teacher education must keep up This book examines systemic reforms that incorporate new technology to improve any teacher education program While there are books that address the integration of technology into teaching curricula very few address the process for teacher education faculty and the systemic reform of a teacher education program Integrating Information Technology into the Teacher Education Curriculum Process and Products of Change provides practical examples and suggestions for teacher education departments striving to integrate new technologies into their curriculum It will help in the effort to motivate faculty to make utilizing new technology a natural strategy for the teachers they are educating It describes the creation of Design Teams at Brigham Young University's McKay School of Education funded by a PT3 grant and how these teams worked to successfully reconfigure the school's teacher preparation curricula Integrating Information Technology into the Teacher Education Curriculum examines how to compose and create a curriculum design team including both teacher education and content specific methods instructors training and collaboration opportunities that focus on the infusion of technology how to facilitate alignment among a university cooperating school districts the State Office of Education and other available teacher preparation programs specific case examples of the redevelopment of teacher education courses by the instructors who teach them the process of changing a technology course required by the teacher education program the process of extending grant activities to the university's partner school districts and the State Office of Education From the editors Preparing tomorrow's teachers to use technology in schools is a complex endeavor requiring the infusion of technology into curriculum and instructional practices at all levels of the pre service program In many early teacher education programs prospective teachers took a computer literacy class separate from content methods classes and rarely engaged in real collaboration on how schoolteachers could integrate technology into authentic learning experiences By focusing merely on how to use computers technology training failed by not addressing how to teach students more effectively

using a variety of technological tools What teachers need to know most is how to teach content more effectively Technology integration should cause teachers to develop different perspectives through rethinking teaching and learning Teaching with technology causes teachers to confront their established beliefs about instruction and their traditional roles as classroom teachers

The WIPO Academy Portfolio of Education, Training and Skills Development Programs 2023 World Intellectual Property Organization,2023-01-10 This Portfolio serves as a catalogue of all the training opportunities to be offered by the WIPO Academy in 2023 and outlines the content of each course It gives information to potential participants on eligibility criteria application formalities timelines selection procedures travel and other relevant necessary information

Meeting the Challenges to Measurement in an Era of Accountability Henry Braun,2016-01-29 Under pressure and support from the federal government states have increasingly turned to indicators based on student test scores to evaluate teachers and schools as well as students themselves The focus thus far has been on test scores in those subject areas where there is a sequence of consecutive tests such as in mathematics or English language arts with a focus on grades 4 8 Teachers in these subject areas however constitute less than thirty percent of the teacher workforce in a district Comparatively little has been written about the measurement of achievement in the other grades and subjects This volume seeks to remedy this imbalance by focusing on the assessment of student achievement in a broad range of grade levels and subject areas with particular attention to their use in the evaluation of teachers and schools in all It addresses traditional end of course tests as well as alternative measures such as portfolios exhibitions and student learning objectives In each case issues related to design and development psychometric considerations and validity challenges are covered from both a generic and a content specific perspective The NCME Applications of Educational Measurement and Assessment series includes edited volumes designed to inform research based applications of educational measurement and assessment Edited by leading experts these books are comprehensive and practical resources on the latest developments in the field The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Creativity in the Classroom Alane Jordan Starko,2017-08-16 Creativity in the Classroom sixth edition helps teachers link creativity research and theory to the everyday activities of classroom teaching This foundational textbook is relevant for any course dealing wholly or partially with creativity and teaching The sixth edition has been revised and updated throughout informed by cutting edge research on neurobiology curiosity and imaginative play questioning and motivation particularly the relationships among creativity intrinsic motivation and motivation to learn

Resources in Education ,2001-04 Assessment of the National Science Foundation's 2015 Geospace Portfolio Review National Academies of Sciences, Engineering, and Medicine,Division on Engineering and Physical Sciences,Space Studies Board,Committee on Assessment of the National Science Foundation's 2015 Geospace Portfolio Review,2017-04-28 At the request of the Advisory Committee for Geosciences of the National Science Foundation NSF a review of the Geospace

Section of the NSF Division of Atmospheric and Geospace Sciences was undertaken in 2015 The Portfolio Review Committee was charged with reviewing the portfolio of facilities research programs and activities funded by Geospace Section and to recommend critical capabilities and the balance of investments needed to enable the science program articulated in the 2013 NRC decadal survey Solar and Space Physics A Science for a Technological Society The Portfolio Review Committee's report Investments in Critical Capabilities for Geospace Science 2016 to 2025 ICCGS was accepted by the Advisory Committee for Geosciences in April 2016 Assessment of the National Science Foundation's 2015 Geospace Portfolio Review provides an independent assessment of the ICCGS report This publication assesses how well the ICCGS provides a clear set of findings conclusions and recommendations for Geospace Section that align with the science priorities of the NRC decadal survey and adequately take into account issues such as the current budget outlook and the science needs of the community Additionally this study makes recommendations focused on options and considerations for NSF's implementation of the ICCGS recommendations

Advances in Portfolio Construction and Implementation Alan Scowcroft, 2003-06-25 Modern Portfolio Theory explores how risk averse investors construct portfolios in order to optimize market risk against expected returns The theory quantifies the benefits of diversification Modern Portfolio Theory provides a broad context for understanding the interactions of systematic risk and reward It has profoundly shaped how institutional portfolios are managed and has motivated the use of passive investment management techniques and the mathematics of MPT is used extensively in financial risk management *Advances in Portfolio Construction and Implementation* offers practical guidance in addition to the theory and is therefore ideal for Risk Managers Actuaries Investment Managers and Consultants worldwide Issues are covered from a global perspective and all the recent developments of financial risk management are presented Although not designed as an academic text it should be useful to graduate students in finance Provides practical guidance on financial risk management Covers the latest developments in investment portfolio construction Full coverage of the latest cutting edge research on measuring portfolio risk alternatives to mean variance analysis expected returns forecasting the construction of global portfolios and hedge portfolios funds *The Future of Ubiquitous Learning* Begoña Gros, Kinshuk, Marcelo

Maina, 2015-07-28 This book explores emerging pedagogical perspectives based on the design of new learning spaces supported by digital technologies and brings together some of the best research in this field The book is divided into three themes foundations of emerging pedagogies learning designs for emerging pedagogies and adaptive and personalized learning The chapters provide up to date information about new pedagogical proposals and examples for acquiring the requisite skills to both design and support learning opportunities that improve the potential of available technologies
