Quilters Women And Domestic Art:

The Quilters Patricia J. Cooper, Norma Bradley Allen, 1999 The quilts are beautiful the faces worn but kind the insights affecting New York Times Book Review The women who speak through the book shared a vision a strength and a spirit that few of us will ever know or understand Christian Science Monitor You can't always change things Sometimes you don't have no control over the way things go Hail ruins the crops or fire burns you out And then you're just given so much to work with in a life and you have to do the best you can with what you've got That's what piecing is The materials is passed on to you or is all you can afford to buy that's just what's given to you Your fate But the way you put them together is your business You can put them in any order you like Mary White from the Introduction First published in 1977 The Quilters chronicles the lives and quilts of pioneer women of Texas and New Mexico at the turn of the twentieth century Compelling black and white portraits of the women accompany their moving oral histories while thirty six color photographs showcase the quilts This award winning book was the basis of the Broadway play Quilters nominated for seven Tony Awards Patricia Cooper taught at the University of California at Berkeley until her death in 1987 Norma Bradley Allen is a freelance writer who lives in Cedar Hill Texas

The Quilters Patricia Cooper, Norma Bradley Allen, 1989 The Alchemy of Illness Kat Duff, 1993 Illness is a universal experience There is no privilege that can make us immune to its touch We are taught to assume health illnesses being just temporary breakdowns in the well oiled machinery of the body But illness has its own geography its own laws and commandments At a time when the attention of the whole nation is focused on health care Kat Duff inquires into the nature and function of illness itself Duff a counselor in private practice in Taos New Mexico wrote this book out of her experience with chronic fatigue syndrome but what she has to say is applicable to every illness and every one of us For those who are sick this book offers solace and recognition For those who care for them either physically or emotionally it offers inspiration and compassion Finally this fresh perspective on healing reveals how every illness is a crucible that tries our mettle tests our limits and provides us with an unparalleled opportunity to integrate its lessons into our lives

Quilt Culture Cheryl B. Torsney, Judy Elsley, 1994 As a blanket a commemorative covering and a work of art the quilt is a nearly universal cultural artifact In recent years it has been recognized as one of our most compelling symbols of cultural diversity and the power of women In this collection Cheryl B Torsney and Judy Elsley bring together eleven provocative essays on the quilt as metaphor in literature history politics and philosophy This interdisciplinary approach makes Quilt Culture an extraordinarily rich exploration of a cultural artifact whose meaning is far more complex than that of a simple bed covering Publishers website

"Women and the Material Culture of Needlework and Textiles, 1750-1950" Maureen Daly Goggin, 2017-07-05 Rejecting traditional notions of what constitutes art this book brings together essays on a variety of fiber arts to recoup women's artistic practices by redefining what counts as art Although scholars over the last

twenty years have turned their attention to fiber arts redefining the conditions practices and products as art there is still much work to be done to deconstruct the stubborn patriarchal art craft binary With essays on a range of fiber art practices including embroidery knitting crocheting machine stitching rug making weaving and quilting this collection contributes to the ongoing scholarly redefinition of women s relationship to creative activity Focusing on women as producers of cultural products and creators of social value the contributors treat women as active subjects and problematize their material practices and artifacts in the complex world of textiles Each essay also examines the ways in which needlework both performs gender and in turn constructs gender Moreover in concentrating on and theorizing material practices of textiles these essays reorient the study of fiber arts towards a focus on process the making of the object including the conditions under which it was made by whom and for what purpose as a way to rethink the fiber arts as social praxis

Stebbins, 1992-04-06 Throughout this project Stebbins has built on the work of Barney Glaser and Anselm Strauss and their notion of grounded theory First Stebbins extensively observed the routine activities of amateurs and professionals in each field studied Then as he became more familiar with the life styles of the participants he conducted lengthy unstructured face to face interviews with in most cases thirty amateur or professional respondents Each field demanded special methods of observation analysis interviewing probing and reporting As much as possible however Stebbins asked similar questions of all respondents in all fields so as to permit generalizations across these diverse fields The result was a substantive grounded theory of each field studied In *Amateurs Professionals and Serious Leisure* Stebbins has developed a formal grounded theory of amateurs and professionals based on the research accumulated in all eight substantive fields By transcending a variety of

contexts he argues one can gain a more enduring appreciation of the elements that affect peoples experiences in work and leisure pursuits A thorough review of the findings across this wide range of activities including his findings and ideas on hobbyists and career volunteers enabled Stebbins to derive better definitions of the main concepts of the project such as amateur the public and serious leisure as well as professional where he distinguishes between client centred and public centred professionals who while sharing numerous ideal typical attributes vary as to the power and control they have over their work in a democratic society He presents inductive conclusions about careers and the costs and rewards in the eight amateur professional fields considered He examines the external world of amateurs and professionals in the light of such issues as family ties relations among amateurs and professionals and among amateurs and their employers public images critics and journalists community contributions and the question of marginality for amateurs who are caught between the work world of the professional and the casual leisure world of the majority of the population He concludes with an exploration of the future role of serious leisure in relation to predictions of greater unemployment and increased leisure time and longevity
