**Mormon Women's History** Rachel Cope, Amy Easton-Flake, Keith A. Erekson, Lisa Olsen Tait, 2017-11-29 Mormon Women's History Beyond Biography demonstrates that the history and experience of Mormon women is central to the history of Mormonism and to histories of American religion politics and culture Yet the study of Mormon women has mostly been confined to biographies family histories and women's periodicals The contributors to Mormon Women's History engage the vast breadth of sources left by Mormon women journals diaries letters family histories and periodicals as well as art poetry material culture theological treatises and genealogical records to read between the lines reconstruct connections recover voices reveal meanings and recast stories Mormon Women's History presents women as incredibly inter connected Familial ties of kinship are multiplied and stretched through the practice and memory of polygamy social ties of community are overlaid with ancestral ethnic connections and local congregational assignments fictive ties are woven through shared interests and collective memories of violence and trauma Conversion to a new faith community unites and exposes the differences among Native Americans Yankees and Scandinavians Lived experiences of marriage motherhood death mourning and widowhood are played out within contexts of expulsion and exile rape and violence transnational immigration establishing civilization in a wilderness and missionizing both to new neighbors and far away peoples Gender defines limits and opens opportunities for private expression public discourse and popular culture Cultural prejudices collide with doctrinal imperatives against backdrops of changing social norms emerging professional identities and developing ritualization and sacralization of lived religion The stories experiences and examples explored in Mormon Women's History are neither comprehensive nor conclusive but rather suggestive of the ways that Mormon women's history can move beyond individual lives to enhance and inform larger historical narratives

*"Women and the Material Culture of Needlework and Textiles, 1750-1950"* Maureen Daly Goggin, 2017-07-05 Rejecting traditional notions of what constitutes art this book brings together essays on a variety of fiber arts to recoup women's artistic practices by redefining what counts as art Although scholars over the last twenty years have turned their attention to fiber arts redefining the conditions practices and products as art there is still much work to be done to deconstruct the stubborn patriarchal art craft binary With essays on a range of fiber art practices including embroidery knitting crocheting machine stitching rug making weaving and quilting this collection contributes to the ongoing scholarly redefinition of women

s relationship to creative activity Focusing on women as producers of cultural products and creators of social value the contributors treat women as active subjects and problematize their material practices and artifacts in the complex world of textiles Each essay also examines the ways in which needlework both performs gender and in turn constructs gender Moreover in concentrating on and theorizing material practices of textiles these essays reorient the study of fiber arts towards a focus on process the making of the object including the conditions under which it was made by whom and for what purpose as a way to rethink the fiber arts as social praxis
