PERSPECTIVES tackles diversity issues from both the American and global perspective offering an in depth exploration of today's globally diverse world. The text's expansive coverage of race and ethnic relations across the globe highlights major points of difference and similarity between the United States and a number of other societies. **Our Social World** Dr Jeanne H. Ballantine, Keith A. Roberts, 2011-04-25. The Third Edition of *Our Social World: Introduction to Sociology* is truly a coherent textbook that inspires students to develop their sociological imaginations to see the world and personal events from a new perspective and to confront sociological issues on a day to day basis. Key Features: Offers a strong global focus. A global perspective is integrated into each chapter to encourage students to think of global society as a logical extension of their own micro world. Illustrates the practical side of sociology. Boxes highlight careers and volunteer opportunities for those with a background in sociology as well as policy issues that sociologists influence. Encourages critical thinking. Provides various research strategies and illustrates concrete examples of the method being used to help students develop a more sophisticated epistemology. Presents The Social World Model in each chapter. This visually compelling organizing framework opens each chapter and helps students understand the interrelatedness of core concepts. New to the Third Edition: Thirty new boxed features including the innovative Engaging Sociology and Applied Sociologists at Work features. Three substantially reorganised chapters: 2 Examining the Social World, 3 Society and Culture, and 13 Politics and Economics. 315 entirely new references and 120 new photos.

Race and Ethnic Relations Martin N. Marger, 1990-10-01. *Becoming Critical Researchers* Ernest Morrell, 2004. *Becoming Critical Researchers* analyzes the findings of a two year ethnographic study of the apprenticeship of urban youth as critical researchers of popular culture. Drawing on new literacy studies, critical pedagogy, and sociocultural learning theory, this book documents the changes in student participation within a critical research focused community of practice. These changes include the acquisition and development of academic and critical literacies and the resulting translations of these literacies into increased academic performance, greater access to college, and commitment to social action. This book inserts critical and postmodern theory into the conception and evaluation of classroom practice, and its findings suggest that programs centering on the lived experiences of teens can indeed achieve the goals of critical education while also promoting academic achievement in urban schools.

Systemic Racism in the United States Robbie W.C. Tourse, Johnnie Hamilton-Mason, Nancy J. Wewiorski, 2018-05-22. Tourse, Hamilton-Mason, and Wewiorski discuss major concepts that help explicate the systemic nature of institutionalized racism in the U.S. with a focus on social construction, oppression, scaffolding, and institutional web, providing insight into racist thought and behavior that construct and mark people of color as a problem. I highly recommend this book for those who are engaged in working to combat domination and racism at the local, national, and global levels. Gary Bailey, DHL, MSW, ACSW, Professor of Practice, Director of Urban Leadership Program, Simmons College School of Social Work. This important volume provides a powerful overview of racism in the United States: what it is, how it works, and the social, cultural, and institutional structures that have evolved to

keep it in place It dissects the rise of legalized discrimination against four major racial groups First Nations Africans Mexicans and Chinese and its perpetuation as it affects these groups and new immigrants today The book s scaffolding framework which takes in institutions from the government to our educational systems explains why racism remains in place despite waves of social change At the same time authors describe social justice responses being used to erode racism in its most familiar forms and at its roots This timely resource Examines the sociology of discrimination as a constant in daily life Traces the history of the legalization of racism in the United States Locates key manifestations of racism in the American psyche Links racism to other forms of discrimination Identifies the interlocking components of institutionalized racism Offers contemporary examples of resistance to racism A forceful synthesis of history and social theory Systemic Racism in the United States is vital reading for practitioners and other professionals in fields related to human rights social policy and psychology And as a classroom text it challenges its readers to deepen their understanding of both historical process and current developments

The Family in America Joseph M. Hawes,Elizabeth F. Shores,2002-05-22 An incisive multidisciplinary look at the American family over the past 200 years written by respected scholars and researchers Family in America offers two powerful antidotes to popular misconceptions about American family life historical perspective and scientific objectivity When we look back at our early history we discover that the idealized 1950s family characterized by a rising birthrate a stable divorce rate and a declining age of marriage was a historical aberration out of line with long term historical trends Working mothers we learn are not a 20th century invention most families throughout American history have needed more than one breadwinner In the exciting new scholarship described here readers will learn precisely what is new in American family life and what is not and acquire the perspective they need to appreciate both the genuine improvements and the losses that come with change
