Real Black John L. Jackson Jr., 2005-11-15 New York s urban neighborhoods are full of young would be emcees who aspire to keep it real and restaurants like Sylvia s famous soul food eatery that offer a taste of authentic black culture In these and other venues authenticity is considered the best way to distinguish the real from the phony the genuine from the fake But in Real Black John L. Jackson Jr. proposes a new model for thinking about these issues racial sincerity Jackson argues that authenticity caricatures identity as something imposed on people imprisoning them within stereotypes turning them into racial objects and inanimate things instead of living breathing human beings Contending that such assumptions deny people agency not to mention humanity in their search for identity Jackson counterposes sincerity an internal and more productive analytical model for thinking about race Moving in and around Harlem and Brooklyn Jackson offers a kaleidoscope of subjects and stories that directly and indirectly address how race is negotiated in today s world including tales of name changing hip hop emcees book vending numerologists urban conspiracy theorists corrupt police officers mixed race neo

Blouin, 2016-06-29 This book analyzes how contemporary popular films with fantastic themes including *Candyman* *Frozen* *The Cabin in the Woods* and *The Incredible Burt Wonderstone* cultivate neoliberal subjectivities These films promise dramatic change but they too often deliver more of the same Although proponents maintain the illusion that the militant enforcement of freemarket economics will resolve racism climate change and imperialism their magical thinking actually fuels the crises *Magical Thinking Fantastic Film and the Illusions of Neoliberalism* explores the ways in which the visual economies of Hollywood fantasy compliment this particular political economy

The Limits of Community Policing Luis Daniel Gascón, Aaron Roussell, 2019-07-23 A critical look at the realities of community policing in South Los Angeles *The Limits of Community Policing* addresses conflicts between police and communities Luis Daniel Gascón and Aaron Roussell depart from traditional conceptions arguing that

community policing popularized for decades as a racial panacea is not the solution it seems to be Tracing this policy back to its origins they focus on the Los Angeles Police Department which first introduced community policing after the high profile Rodney King riots Drawing on over sixty interviews with officers residents and stakeholders in South LA s Lakeside precinct they show how police tactics amplified rather than resolved racial tensions complicating partnership efforts crime response and prevention and accountability Gasc n and Roussell shine a new light on the residents of this neighborhood to address the enduring and frequently explosive conflicts between police and communities At a time when these issues have taken center stage this volume offers a critical understanding of how community policing really works [Viewpoints](#) Mary Strong,Laena Wilder,2013-05-01 Early in its history anthropology was a visual as well as verbal discipline But as time passed visually oriented professionals became a minority among their colleagues and most anthropologists used written words rather than audiovisual modes as their professional means of communication Today however contemporary electronic and interactive media once more place visual anthropologists and anthropologically oriented artists within the mainstream Digital media small sized and easy to use equipment and the Internet with its interactive and public forum websites democratize roles once relegated to highly trained professionals alone However having access to a good set of tools does not guarantee accurate and reliable work Visual anthropology involves much more than media alone This book presents visual anthropology as a work in progress open to the myriad innovations that the new audiovisual communications technologies bring to the field It is intended to aid in contextualizing explaining and humanizing the storehouse of visual knowledge that university students and general readers now encounter and to help inform them about how these new media tools can be used for intellectually and socially beneficial purposes Concentrating on documentary photography and ethnographic film as well as lesser known areas of study and presentation including dance painting architecture archaeology and primate research the book s fifteen contributors feature populations living on all of the world s continents as well as within the United States The final chapter gives readers practical advice about how to use the most current digital and interactive technologies to present research findings

Silver, 2020-07-17 Young people are told that college is a place where they will find themselves by engaging with diversity and making friendships that will last a lifetime This vision of an inclusive diverse social experience is a fundamental part of the image colleges sell potential students But what really happens when students arrive on campus and enter this new social world The Cost of Inclusion delves into this rich moment to explore the ways students seek out a sense of belonging and the sacrifices they make to fit in Blake R Silver spent a year immersed in student life at a large public university He trained with the Cardio Club hung out with the Learning Community and hosted service events with the Volunteer Collective Through these day to day interactions he witnessed how students sought belonging and built their social worlds on campus Over time Silver realized that these students only achieved inclusion at significant cost To fit in among new peers they clung to or were pushed into raced and gendered cultural assumptions about behavior becoming the cool guy the nice girl the funny one the leader the intellectual or the mom of the group Instead of developing dynamic identities they crafted and adhered to a cookie cutter self one that was rigid and two dimensional Silver found that these students were ill prepared for the challenges of a diverse college campus and that they had little guidance from their university on how to navigate the trials of social engagement or the pressures to conform While colleges are focused on increasing the diversity of their enrolled student body Silver's findings show that they need to take a hard look at how they are failing to support inclusion once students arrive on campus Imagining Alternative Worlds Christoffer Kølvråa, Bernhard Forchtner, 2024-11-11
