Race Ing Moral Formation:

Race-ing Moral Formation Vanessa Siddle Walker, John R. Snarey, 2004 In this volume the editors incorporate the experiences of African Americans into the discourse on moral development theory and moral education By citing historical developments from the days of slavery to the present the authors provide a framework through which one can interpret the way morality has been cultivated amongst Black minorities Presenting intriguing essays of well known African American scholars the editors discuss both the psychology of moral formation among African American children adolescents and adults and the practical implications of this knowledge

How Journalists Engage Sue Robinson, 2023-04-18 A unique theory of trust building in engagement journalism that proposes journalists move to an ethic of care as they prioritize listening and learning within communities instead of propping up problematic institutions In *How Journalists Engage* Sue Robinson explores how journalists of different identities especially racial enact trusting relationships with their audiences Drawing from case studies community work interviews and focus groups she documents a growing built environment around trust building and engagement journalism that represents the first major paradigm shift of the press s core values in more than a century As Robinson shows journalists are being trained to take on new roles and skillsets around listening and learning in addition to normative routines related to being a watchdog and storyteller She demonstrates how this movement mobilizes the nurturing of personal organizational and institutional relationships that people have with information sources news brands journalists and each other Developing a new theory of trust building Robinson calls for journalists to grapple actively with their own identities especially the privileges biases and marginalization attached to them and those of their communities resulting in a more intentional and effective moral voice focused on justice and equity through the news practice of an ethic of care

Handbook of Research on Educational Leadership for Equity and Diversity Linda C. Tillman, James Joseph Scheurich, 2013-08-21 The rapid growth of diversity within U S schooling and the heightened attention to the lack of equity in student achievement school completion and postsecondary attendance has made equity and diversity two of the principle issues in education educational leadership and educational leadership research The Handbook of Research on Educational Leadership for Equity and Diversity is the first research based handbook that comprehensively addresses the broad diversity in U S schools by race ethnicity culture language gender disability sexual identity and class The Handbook both highly values the critically important strengths and assets that diversity brings to the United States and its schools yet at the same time candidly critiques the destructive deficit thinking biases and prejudices that undermine school success for many groups of students Well known chapter authors explore diversity and related inequities in schools and the achievement problems these issues present to school leaders Each chapter reviews theoretical and empirical evidence of these inequities and provides research based recommendations for practice and for future research Celebrating the broad diversity in U S schools the Handbook of Research on Educational Leadership for Equity and Diversity critiques the inequities connected to that diversity and provides evidence based practices to promote student success for all children

School Leadership in a Diverse Society Carlos R. McCray, Floyd D. Beachum, Phyllis F. Reggio, 2021-09-01 With the increasing amount of diversity taking place in the United States and in our K 12 schools this book will help school leaders become prepared It is the school principal who sets the tone for the school culture and provides the vision as to the direction of the organization Therefore school principals will ultimately have a great impact in promoting cultural and social diversity School Leadership in a Diverse Society Helping Schools Prepare all Students for Success 2nd Edition will help scholars and practitioners have a better understanding of the increasing amount of diversity that is occurring in American society This book will give them the tools needed to lead schools to ensure that all students regardless of their life circumstances and status are provided a school experience that promotes high academic achievement and a sense of belonging Today multiculturalism and diversity preparation are needed in our society seemingly more so than when schools first made an earnest effort to integrate twenty years after Brown V Board of Education Just as it seemed the United States was making significant progress dealing with issues that have plagued this country for hundreds of years recently there has been a surge in diversity related issues the killing of unarmed African Americans the unwarranted attacks on Asians immigration debates the recent rise of groups that

support white supremacy blackface incidents increasing wealth divide between the ultra rich and the poor religious backlash etc These issues should remind us that the struggle for social equity continues into the present moment Communities must work together to help fight rising intolerance and prejudice within our country and schools

Applying Nonideal Theory to Bioethics Elizabeth Victor, Laura K. Guidry-Grimes, 2021-08-03 This book offers new essays exploring concepts and applications of nonideal theory in bioethics Nonideal theory refers to an analytic approach to moral and political philosophy especially in relation to justice according to which we should not assume that there will be perfect compliance with principles that there will be favorable circumstances for just institutions and right action or that reasoners are capable of being impartial Nonideal theory takes the world as it actually is in all of its imperfections Bioethicists have called for greater attention to how nonideal theory can serve as a guide in the messy realities they face daily Although many bioethicists implicitly assume nonideal theory in their work there is the need for more explicit engagement with this theoretical outlook A nonideal approach to bioethics would start by examining the sociopolitical realities of healthcare and the embeddedness of moral actors in those realities How are bioethicists to navigate systemic injustices when completing research giving guidance for patient care and contributing to medical and public health policies When there are no good options and when moral agents are enmeshed in their sociopolitical viewpoints how should moral theorizing proceed What do bioethical issues and principles look like from the perspective of historically marginalized persons These are just a few of the questions that motivate nonideal theory within bioethics This book begins in Part I with an overview of the foundational tenets of nonideal theory what nonideal theory can offer bioethics and why it may be preferable to ideal theory in addressing moral dilemmas in the clinic and beyond In Part II authors discuss applications of nonideal theory in many areas of bioethics including reflections on environmental harms racism and minority health healthcare injustices during incarceration and detention and other vulnerabilities experienced by patients from clinical and public health perspectives The chapters within each section demonstrate the breadth in scope that nonideal theory encompasses bringing together diverse theorists and approaches into one collection

Anti-Racist School Leadership Jeffrey S. Brooks, Noelle Witherspoon-Arnold, 2013-03-01 Since the passing of Brown versus Board of Education to the election of the first Black president of the United States there has been much discussion on how far we have come as a nation on issues of race Some continue to assert that Barack Obama's election ushered in a new era making the US a post racial society But this argument is either a political contrivance borne of ignorance or a bold faced lie There is no recent data on school inequities or inequity in society for that matter that suggests we have arrived at Dr King's dream that his four children will one day live in a nation where they will not be judged by the color of their skin but by the content of their character Children today are instead still judged by the color of their skin and this inequitable practice is manifest in today's schools for students of color in the form of disproportionate student discipline referrals achievement and opportunity gaps pushout rates overrepresentation in special education and underrepresentation

in advanced coursework among other indicators Brooks 2012 Though issues of race in the public education system may take an overt or covert form racial injustice in public schools is still pervasive complex and cumulative For example many students of color year after year do not have access to good teachers experience low staff expectations and are subject to new and improved forms of tracking Brooks Arnold Brooks in press The authors in this book explore various ways that racism are manifest in the American school system Through a plurality of perspectives they deconstruct challenge and reconstruct an educational leadership committed to equity and excellence for marginalized students and educators **Only in New**

Orleans Luis Mirón, Brian R. Beabout, Joseph L. Boselovic, 2015-07-22 With 2015 marking the 10th commemoration of Hurricane Katrina education reform in New Orleans continues to garner substantial local national and international attention Advocates and critics alike have continued to cite test scores new school providers and different theories of governance in making multiple arguments for and against how contemporary education policy is shaping public education and its role in the rebuilding of the city Rather than trying to provide a single unified account of education reform in New Orleans the chapters in this volume provide multiple ways of approaching some of the most significant questions around school choice and educational equity that have arisen in the years since Katrina This collection of research articles essays and journalistic accounts of education reform in New Orleans collectively argues that the extreme makeover of the city's public schools toward a new market based model was shaped by many local historically specific conditions In consequence while the city's schools have been both heralded as a model for other cities and derided as a lesson in the limits of market based reform the experience of education reform that has taken place in the city and its impacts on the lives of students families and educators could have happened only in New Orleans **Love in the Time of Self-Publishing** Christine M. Lessons in creative labor solidarity and inclusion under precarious economic conditions As writers musicians online content creators and other independent workers fight for better labor terms romance authors offer a powerful example and a cautionary tale about self organization and mutual aid in the digital economy In *Love in the Time of Self Publishing* Christine Larson traces the forty year history of Romancelandia a sprawling network of romance authors readers editors and others who formed a unique community based on openness and collective support Empowered by solidarity American romance writers once disparaged literary outcasts became digital publishing's most innovative and successful authors Meanwhile a new surge of social media activism called attention to Romancelandia's historic exclusion of romance authors of color and LGBTQ writers forcing a long overdue cultural reckoning Drawing on the largest known survey of any literary genre as well as interviews and archival research Larson shows how romance writers became the only authors in America to make money from the rise of ebooks increasing their median income by 73 percent while other authors plunged by 40 percent The success of romance writers Larson argues demonstrates the power of alternative forms of organizing influenced by gendered working patterns It also shows how networks of relationships can amplify or mute certain voices Romancelandia's experience Larson

says offers crucial lessons about solidarity for creators and other isolated workers in an increasingly risky employment world Romancelandia's rise and near meltdown shows that gaining fair treatment from platforms depends on creator solidarity but creator solidarity in turn depends on fair treatment of all members

Teacher Education and Black Communities Chance W. Lewis, Yolanda Sealey-Ruiz, Ivory Toldson, 2014-05-01 The field of education has been and will continue to be essential to the survival and sustainability of the Black community Unfortunately over the past five decades two major trends have become clearly evident in the Black community a the decline of the academic achievement levels of Black students and b the disappearance of Black teachers particularly Black males Today of the 3.5 million teachers in America's classrooms AACTE 2010 only 8% are Black teachers and approximately 2% of these teachers are Black males NCES 2010 Over the past few decades the Black teaching force in the U.S. has dropped significantly Lewis 2006 Lewis Bonner Byrd Milner Howard 2004 and this educational crisis shows no signs of ending in the near future As the population of Black students in K-12 schools in the U.S. continue to rise currently over 16% of students in America's schools are Black NCES 2010 there is an urgent need to increase the presence of Black educators The overall purpose of this edited volume is to stimulate thought and discussion among diverse audiences e.g. policymakers practitioners and educational researchers who are concerned about the performance of Black students in our nation's schools and to provide evidence-based strategies to expand our nation's pool of Black teachers To this end it is our hope that this book will contribute to the teacher education literature and will inform the teacher education policy and
