Race Of The Century:

Nobility and the Making of Race in Eighteenth-Century Britain Tim Mc Inerney, 2023-09-07 Nobility and the Making of Race in Eighteenth Century Britain focuses on 18th century Britain and Ireland at a time when race theory as we know it today was steadily emerging in the realm of natural philosophy to examine the structural relationship between nobility and race This ground breaking book examines texts from the fields of naturalism political philosophy medicine and colonial venture as well as interrogating works of drama and literature in order to track how climate based understandings of human variety at this time became increasingly imbued with noble traditions of genealogical purity and hierarchies of descent This process the book argues allowed British naturalists and wider society to understand global populations according to an already familiar pattern of genealogical inequality and offered the proponents of race theory a ready made model of natural supremacy In this highly original and meticulously researched book Tim McInerney explains why nobility and race developed in the way they did and how the premise of each promoted a certain idea of superiority The result is a necessary in depth understanding of how genealogical exclusivity works as a power strategy vital to students and scholars alike

Race in the 21st Century John Hartigan (Jr.), 2015 What is the state of race relations in the U S Are we making progress toward ending racial discrimination and prejudice What exactly does race mean In Race in the 21st Century Ethnographic Approaches Second Edition John Hartigan Jr takes an anthropological look at such questions by introducing students to the study of race through qualitative methods In the first text to take an explicitly ethnographic approach Hartigan summarizes and explains the current state of social science knowledge on race in the U S motivating students to think through essential questions about race in relation to their own lives In contrast with many texts Race in the 21st Century focuses not on essential differences between racial or ethnic groups but rather on the commonalities Hartigan concentrates on the particular contexts in which people actively engage and respond to racial meanings and identities In this way he encourages readers to think critically about the meaning of race The second edition of Race in the 21st Century features a new chapter Postracial America which examines contentious arguments about whether or how race still matters in the U S today It engages students fully in the important question of what postracial America might mean or look like

Pindar and the Construction of Syracusan Monarchy in the Fifth Century B.C. Kathryn A. Morgan, 2015-01-02 This groundbreaking book attempts a fully contextualized reading of the poetry written by Pindar for Hieron of Syracuse in the 470s BC It argues that the victory odes and other occasional songs composed by Pindar for the Sicilian tyrant were part of an extensive cultural program that included athletic competition coinage architecture sanctuary dedication city foundation and much more In the tumultuous years following the Persian invasion of Greece in 480 elite Greek leaders and their cities struggled to capitalize on the Greek victory and to define themselves as free peoples who triumphed over the threat of Persian monarchy Pindar's victory odes are an important contribution to Hieron's goal of panhellenic pre eminence redescribing contemporary tyranny as an instantiation of golden age kingship and consonant with

best Greek tradition In a delicate process of cultural legitimation the poet's praise deploys athletic victories as a sign of more general preeminence Three initial chapters set the stage by presenting the history and culture of Syracuse under the Deinomenid tyrants exploring issues of performance and patronage and juxtaposing Hieron to rival Greek leaders on the mainland Subsequent chapters examine in turn all Pindar's preserved poetry for Hieron and members of his court and contextualizes this poetry by comparing it to the songs written for Hieron by Pindar's poetic contemporary Bacchylides These odes develop a specifically tyrannical mythology in which a hero from the past enjoys unusual closeness with the gods only to bring ruin on him or herself by failing to manage this closeness appropriately Such negative exemplars counterbalance Hieron's good fortune and present the dangers against which he must and does protect himself by regal virtue The readings that emerge are marked by exceptional integration of literary interpretation with the political historical context W. E. B. Du Bois and the Problems of the Twenty-First Century Reiland Rabaka, 2008-04-29 W E B Du Bois and the Problems of the Twenty First Century utilizes Du Bois's thought and texts to develop an informed critical theory of contemporary society This book broadens the base of critical theory making it more multicultural transethnic transgender and non Western European philosophy focused by placing it in dialogue with theory and phenomena that had been heretofore woefully neglected Taking the preeminent black intellectual of the twentieth century as his primary point of departure Reiland Rabaka identifies and analyzes several key contributions that Du Bois and the black racial tradition offer to those interested in redeveloping and racially revising contemporary critical social theory With chapters on critical race theory postcolonial theory feminism and Marxism this volume builds bridges from Africana Studies to disparate discursive communities accessibly demonstrating Du Bois's and the black radical tradition's contributions to and the potential impact on a wide range of new social scientific research and radical political struggles Encyclopedia of Nineteenth Century Thought Gregory Claeys, 2004-08-02 Encyclopedia of Nineteenth Century Thought provides essential information on and a critical interpretation of nineteenth century thought and nineteenth century thinkers The project takes as its temporal boundary the period 1789 to 1914 Encyclopedia of Nineteenth Century Thought primarily covers social and political thinking but key entries also survey science religion law art concepts of modernity the body and health and so on and thereby take into account all of the key developments in the intellectual history of the period The encyclopedia is alphabetically organized and consists of principal entries divided into ideas 4000 words and persons 2500 words subsidiary entries of 1000 words which are entirely biographical informational entries of 500 words which are also biographical **Educating Immigrant Students in the 21st Century** Xue Lan Rong, Judith Preissle, 2008-09-26 A comprehensive and important examination of the education of immigrant students in the U S Rong and Preissle's focus on cultural and linguistic transformation across four generations is truly unique Stacey J Lee Professor of Educational Policy Studies University of Wisconsin Madison Rong and Preissle's first edition has become a standard reference for the education of immigrant students The evolution and expansion of their

Transatlantic Literature of the Long Eighteenth Century Julie A. Chappell, Kamille Stone

Stanton, 2011-08-08 In 1789 before the abolition of slavery in Great Britain or the United States of America poet William Blake quietly appealed to the public's sense of humanity in Songs of Innocence with the poem The Little Black Boy In that same year a former slave named Olaudah Equiano was catapulted to fame as a sympathetic face for the abolitionist movement with the publication of his autobiography Olaudah Equiano became an internationally sought after public speaker and enjoyed the remarkable success of nine editions of his book within the five year span between 1789 and 1794 making him the wealthiest black man in the English speaking world Transatlantic Literature of the Long Eighteenth Century edited by Kamille Stone Stanton and Julie A Chappell contributes to that growing body of nuanced textual criticism seeking to prove

that the progress of the anti slavery movement was actually no single authored sensation but rather part of a broader transatlantic discourse spanning the entirety of the long eighteenth century
