Ogletree, Austin Sarat, 2006-05 Situates the linkage between race and the death penalty in the history of the U S Since 1976 over forty percent of prisoners executed in American jails have been African American or Hispanic This trend shows little evidence of diminishing and follows a larger pattern of the violent criminalization of African American populations that has marked the country s history of punishment In a bold attempt to tackle the looming question of how and why the connection between race and the death penalty has been so strong throughout American history Ogletree and Sarat headline an interdisciplinary cast of experts in reflecting on this disturbing issue Insightful original essays approach the topic from legal historical cultural and social science perspectives to show the ways that the death penalty is racialized the places in the death penalty process where race makes a difference and the ways that meanings of race in the United States are constructed in and through our practices of capital punishment From Lynch Mobs to the Killing State not only uncovers the ways that race influences capital punishment but also attempts to situate the linkage between race and the death penalty in the history of this country in particular the history of lynching In its probing examination of how and why the connection between race and the death penalty has been so strong throughout American history this book forces us to consider how the death penalty gives meaning to race as well as why the racialization of the death penalty is uniquely American      **Women and Capital Punishment in the United States** David V. Baker, 2015-11-26 The history of the execution of women in the United States has largely been ignored and scholars have given scant attention to gender issues in capital punishment This historical analysis examines the social political and economic contexts in which the justice system has put women to death revealing a pattern of patriarchal domination and female subordination The book includes a discussion of condemned women granted executive clemency and judicial commutations an inquiry into women falsely convicted in potentially capital cases and a profile of the current female death row population      **Encyclopedia of Capital Punishment in the United States, 2d ed.** Louis J. **Race, Racism, and American Law** Derrick Bell, 2004 Bell law New York U in the newest edition of his

work continues his project of explaining the law's role in concretizing racial difference maintaining racial inequality and reifying the status quo. He has updated a significant portion of the material including the first chapter introduced in the last edition on the nomenclature of race which discusses the theoretical underpinnings of the emergence of race and racial meaning in the United States. Among the topics discussed in his treatment of race and American law are the use of color blind constitutionalism to attack affirmative action, the use of history to legitimate American racial legal policy developments in the areas of public accommodations, housing and employment discrimination in the administration of justice including the death penalty, the state of the right to vote and the impact of anti racist and pro racist protest on the law. *White Supremacy and Racism in the Post-civil Rights Era* Eduardo Bonilla-Silva, 2001. Is a racial structure still firmly in place in the United States? White Supremacy and Racism answers that question with an unequivocal yes, describing a contemporary system that operates in a covert, subtle, institutional and superficially nonracial fashion. Assessing the major perspectives that social analysts have relied on to explain race and racial relations, Bonilla-Silva labels the post civil rights ideology as color blind racism, a system of social arrangements that maintain white privilege at all levels. His analysis of racial politics in the United States makes a compelling argument for a new civil rights movement rooted in the race class needs of minority masses, multiracial in character and focused on attaining substantive rather than formal equality.

*Race and Racism in the United States* Charles A. Gallagher, Cameron D. Lippard, 2014-06-24. How is race defined and perceived in America today and how do these definitions and perceptions compare to attitudes 100 years ago or 200 years ago? This four volume set is the definitive source for every topic related to race in the United States. In the 21st century it is easy for some students and readers to believe that racism is a thing of the past; in reality, old wounds have yet to heal and new forms of racism are taking shape. Racism has played a role in American society since the founding of the nation in spite of the words "all men are created equal" within the Declaration of Independence. This set is the largest and most complete of its kind, covering every facet of race relations in the United States while providing information in a user friendly format that allows easy cross referencing of related topics for efficient research and learning. The work serves as an accessible tool for high school researchers, provides important material for undergraduate students enrolled in a variety of humanities and social sciences courses and is an outstanding ready reference for race scholars. The entries provide readers with comprehensive content supplemented by historical backgrounds, relevant examples from primary documents and first hand accounts. Information is presented to interest and appeal to readers but also to support critical inquiry and understanding. A fourth volume of related primary documents supplies additional reading and resources for research.

**The Death Penalty** Megan Manzano, 2017-12-15. Is capital punishment morally justified? Although the issue generates strong opinions, there are no easy answers when it comes to taking the life of a human being. Supporters of the death penalty believe it deters law breaking and is the only punishment strong enough for horrific crimes.

such as child murder and genocide Opponents argue that it violates human rights and point to its finality in the face of judicial system error and unfairness This resource presents a fascinating progression of current viewpoints that reflect the many facets of the death penalty debate      *Racism in Contemporary America* Meyer Weinberg,1996-05-23 Racism in Contemporary America is the largest and most up to date bibliography available on current research on the topic It has been compiled by award winning researcher Meyer Weinberg who has spent many years writing and researching contemporary and historical aspects of racism Almost 15 000 entries to books articles dissertations and other materials are organized under 87 subject headings In addition there are author and ethnic racial indexes Several aids help the researcher access the materials included In addition to the subject organization of the bibliography entries are annotated whenever the title is not self explanatory An author index is followed by an ethnic racial index which makes it convenient to follow a single group through any or all the subject headings This is a source book for the serious study of America s most enduring problem as such it will be of value to students and researchers at all levels and in most disciplines      **Racial Issues in Criminal Justice** Marvin D. Free,2003-09-30 Almost a third of all African American men in their twenties in the United States are in jail or prison or on probation or parole African Americans who comprise approximately 13% of the general population make up about half of the prison population Between 1980 and 2000 38 states added more African American men to their prison systems than were added to their respective systems of higher education However these statistics fail to tell the entire story To understand how the dynamics of disproportionate minority confinement came to exist one must examine the historical and cultural antecedents that affected and continue to affect this group Examining proposed solutions and providing alternative perspectives this volume addresses the overrepresentation of African Americans in the criminal justice system by critically examining the significance of race in American society and criminal justice responses to crime and African Americans Offering a critical examination of the issues this collection begins with a discussion of the marginalization of African Americans in the academic discipline of criminal justice and in the larger society an assessment of the impact of the legacy of slavery on private prisons and mass imprisonment and an empirical examination of the depiction of African Americans in prime time television crime programs Part II looks at racial profiling the underrepresentation of African Americans in hate crime victimization research the impact of race on presentencing the trend toward trying juveniles in adult court and the discriminatory treatment of African Americans in capital eligible cases Finally Part III discusses the impact of African American police officers on the profession analyzes black juror nullification proposes an increase in the presence of African American jurors and assesses the potential ameliorative impact of restorative justice on the current racial imbalance in the criminal justice system      **Ethnicity and Criminal Justice in the Era of Mass Incarceration** Martin Guevara Urbina,Sofía Espinoza Álvarez,2017-02-27 ETHNICITY AND CRIMINAL JUSTICE IN THE ERA OF MASS INCARCERATION A Critical Reader on the Latino Experience is designed as a Latino reader in criminal justice covering a much broader spectrum

of the Latino experience in criminal justice and society while giving readers a broad overview of the Latino experience in a single book Considering the shifting trends in demographics and the current state of the criminal justice system along with the current political climate this book is timely and of critical significance for the academic political and social arena The authors report sound evidence that testifies to a historical legacy of violence brutality manipulation oppression marginalization prejudice discrimination power and control and to white America s continued fear about ethnic and racial minorities a movement that continues in the twenty first century as we have been witnessing during the 2015 2016 presidential race highly charged with anti immigrant and anti Mexican political rhetoric A central objective of this book is to demystify and expose the ways in which ideas of ethnicity race gender and class uphold the functioning and legitimacy of the criminal justice system In this mission rather than attempting to develop a single explanation for the Latino experience in policing the courts and the penal system this book presents a variety of studies and perspectives that illustrate alternative ways of interpreting crime punishment safety equality and justice The findings reveal that race ethnicity gender class and several other variables continue to play a significant role in the legal decision making process With the social control from police brutality to immigration discourse reaching unprecedented levels the book will have broad appeal for students police officers advocates activists attorneys the media and the general public     Routledge Handbook on Capital Punishment

Robert M. Bohm, Gavin Lee, 2017-12-15 Capital punishment is one of the more controversial subjects in the social sciences especially in criminal justice and criminology Over the last decade or so the United States has experienced a significant decline in the number of death sentences and executions Since 2007 eight states have abolished capital punishment bringing the total number of states without the death penalty to 19 plus the District of Columbia and more are likely to follow suit in the near future Nebraska reinstated its death penalty in 2016 Worldwide 70 percent of countries have abolished capital punishment in law or in practice The current trend suggests the eventual demise of capital punishment in all but a few recalcitrant states and countries Within this context a fresh look at capital punishment in the United States and worldwide is warranted The Routledge Handbook on Capital Punishment comprehensively examines the topic of capital punishment from a wide variety of perspectives A thoughtful introductory chapter from experts Bohm and Lee presents a contextual framework for the subject matter and chapters present state of the art analyses of a range of aspects of capital punishment grouped into five sections 1 Capital Punishment History Opinion and Culture 2 Capital Punishment Rationales and Religious Views 3 Capital Punishment and Constitutional Issues 4 The Death Penalty s Administration and 5 The Death Penalty s Consequences This is a key collection for students taking courses in prisons penology criminal justice criminology and related subjects and is also an essential reference for academics and practitioners working in prison service or in related agencies

**African-American Males and the U.S. Justice System of Marginalization: A National Tragedy** Floyd Weatherspoon, 2014-08-06 African American Males and the US Justice System of Marginalization provides an overview of the

economic and social status of African American males in America which continues to deteriorate at an alarming rate Weatherspoon posits that in every American institutional system from birth to death the journey of African American males to achieve racial justice and equity in this country is ignored marginalized and exploited The American justice system in particular has permitted and in some cases sanctioned the marginalization of African American males as full citizens Weatherspoon examines the idea that African American males are disproportionately represented in every aspect of the criminal justice system and that the marginalization of African American males in America has a long and treacherous history that continues to negatively impact their economic political and social status *America Without the Death Penalty* John F. Galliher, Larry W. Koch, David Patrick Keys, Teresa J. Guess, 2005 In 2000 Governor George Ryan of Illinois a Republican and a supporter of the death penalty declared a moratorium on executions in his state In 2003 he commuted the death sentences of all Illinois prisoners on death row Ryan contended that the application of the death penalty in Illinois had been arbitrary and unfair and he ignited a new round of debate over the appropriateness of execution Nationwide surveys indicate that the number of Americans who favor the death penalty is declining As the struggle over capital punishment rages on twelve states and the District of Columbia have taken bold measures to eliminate the practice This landmark study is the first to examine the history and motivations of those jurisdictions that abolished capital punishment and have resisted the move to reinstate death penalty statutes *The Slow Death of the Death Penalty* Todd C. Peppers, Jamie Almallen, Mary Welek Atwell, 2025-07-01 Why the death penalty is in decline across the United States Across the country the death penalty is dying Twenty two states have abandoned state sanctioned executions including nine in the last fifteen years Of the twenty eight states that still have the death penalty eight have not had an execution in over a decade And public support for the death penalty has declined from 80% of the surveyed population in the early 1990s to approximately 50% today As the death penalty slowly withers away Todd C Peppers Jamie Almallen and Mary Welek Atwell bring together a number of distinguished death penalty scholars activists and attorneys to take an accounting of the damage inflicted by the machinery of death Contributors to the book point to a range of different pathologies which have caused politicians and voters to turn against capital punishment from unacceptable rates of false convictions and racially motivated prosecutions to a clemency process poisoned by political factors Essay topics include various dimensions of the death penalty including racial and gender bias economic costs the conviction of juveniles the mentally ill and the factually innocent Supreme Court decisions and the failure of the death penalty to serve as a deterrent against crime This important volume is an up to date accounting of the current state and as the contributors argue the future demise of the death penalty *Killing with Prejudice* R.J. Maratea, 2019-03-26 A history of the McCleskey v Kemp Supreme Court ruling that effectively condoned racism in capital cases In 1978 Warren McCleskey a black man killed a white police officer in Georgia He was convicted by a jury of 11 whites and 1 African American and was sentenced to death Although McCleskey s lawyers were able to prove that Georgia courts applied the

death penalty to blacks who killed whites four times as often as when the victim was black the Supreme Court upheld the death sentence in *McCleskey v Kemp* thus institutionalizing the idea that racial bias was acceptable in the capital punishment system After a thirteen year legal journey McCleskey was executed in 1991 In *Killing with Prejudice* R J Maratea chronicles the entire litigation process which culminated in what has been called the Dred Scott decision of our time Ultimately the Supreme Court chose to overlook compelling empirical evidence that revealed the discriminatory manner in which the assailants of African Americans are systematically undercharged and the aggressors of white victims are far more likely to receive a death sentence He draws a clear line from the lynchings of the Jim Crow era to the contemporary acceptance of the death penalty and the problem of mass incarceration today The McCleskey decision underscores the racial socioeconomic and gender disparities in modern American capital punishment and the case is fundamental to understanding how the death penalty functions for the defendant victims and within the American justice system as a whole
