Sociology and the Demystification of the Modern World (RLE Social Theory) John Rex, 2014-08-21 Professor Rex's controversial book concerns not only those who are professional sociologists but all thinking people who live in the modern world One of the objects of sociology is to give power to the people to make a contribution to the understanding of political problems Rex writes from a deep conviction that sociology is a subject whose insights should be made available to the great mass of the people so that they may liberate themselves from the mystification of social reality that is continually and routinely presented to them through the media by those who exercise power and by those who have influence The book is dedicated to St Augustine and Franz Fanon both of whom Rex points out were conscious of living in an age which was embarking on a new barbarism but had the courage to use their intellects to help understand the possibility of a better future Rex continues in this tradition and his
