Race to Save the Planet Edward C. Wolf, 1992      Facing the Sea of Sand Barry Cunliffe, 2023 Northern Africa is dominated by the Sahara Desert stretching across the continent from the Atlantic Ocean to the Red Sea This book is about the people who lived around the edges of the Desert and the different ways in which they responded to its challenges establishing networks of communication across its expanse But the Sahara has not always been a desert From about 9000 BC the region began to enjoy a warm humid period allowing vegetation to flourish and wild animals to move in Humans soon followed practising pastoral economies but with the onset of harsher conditions once more around 3000 BC the desert reclaimed its own Since then fluctuations in climate have continued to affect the lives of people living around the desert fringes The communities occupying the North African Coast and in the Nile Valley have come under the influence of the states dominating the Near East and the Mediterranean but those living in in the Sahel to the south of the desert have developed their own distinctive cultures The book tells the story of the growing links between the two worlds showing that Africa played a crucial part in the development of the Old World before it was drawn into the story of the New World ,

**Future Survey Annual 1992** Michael Marien, 1993-01-30      The Routledge Handbook of Environmental Justice Ryan Holifield, Jayajit Chakraborty, Gordon Walker, 2017-09-14 The Routledge Handbook of Environmental Justice presents an extensive and cutting edge introduction to the diverse rapidly growing body of research on pressing issues of environmental justice and injustice With wide ranging discussion of current debates controversies and questions in the history theory and methods of environmental justice research contributed by over 90 leading social scientists natural scientists humanists and scholars from professional disciplines from six continents it is an essential resource both for newcomers to this research and for experienced scholars and practitioners The chapters of this volume examine the roots of environmental justice activism lay out and assess key theories and approaches and consider the many different substantive issues that have been the subject of activism empirical research and policy development throughout the world The Handbook features critical reviews of quantitative qualitative and mixed methodological approaches and explicitly addresses interdisciplinarity transdisciplinarity and engaged research Instead of adopting a narrow regional focus it tackles substantive issues and presents perspectives from political and cultural systems across the world as well as addressing activism for environmental justice at the global scale Its chapters do not simply review the state of the art but also propose new conceptual frameworks and directions for research policy and practice Providing detailed but accessible overviews of the complex varied dimensions of environmental justice and injustice the Handbook is an essential guide and reference not only for researchers engaged with environmental justice but also for undergraduate and graduate teaching and for policymakers and activists      Manpower , 1974
