Race And Politics In Chicago:

Race and Ethnicity in Chicago Politics Dianne Marie Pinderhughes,1987 **Chicago on the Make** Andrew J. Diamond,2017-11-07 Heralded as America s most quintessentially modern city Chicago has attracted the gaze of journalists novelists essayists and scholars as much as any city in the nation And yet few historians have attempted big picture narratives of the city s transformation over the twentieth century Chicago on the Make traces the evolution of the city s politics culture and economy as it grew from an unruly tangle of rail yards slaughterhouses factories tenement houses and fiercely defended ethnic neighborhoods into a truly global urban center Reinterpreting the familiar narrative that Chicago s autocratic machine politics shaped its institutions and public life Andrew J Diamond demonstrates how the grassroots politics of race crippled progressive forces and enabled an alliance of downtown business interests to promote a neoliberal agenda that created stark inequalities Chicago on the Make takes the story into the twenty first century chronicling Chicago s deeply entrenched social and urban problems as the city ascended to the national stage during the Obama years **Fire on the Prairie** Gary Rivlin,1992 Explains how Harold Washington and his associates overcame the Daley political machine and built an administration that crossed racial lines and transformed Chicago politics *Black on the Block* Mary Pattillo,2010-04-02 In *Black on the Block* Mary Pattillo a Newsweek Woman of the 21st Century uses the historic rise alarming fall and equally dramatic renewal of Chicago s North Kenwood Oakland neighborhood to explore the politics of race and class in contemporary urban America There was a time when North Kenwood Oakland was plagued by gangs drugs violence and the font of poverty from which they sprang But in the late 1980s activists rose up to tackle the social problems that had plagued the area for decades *Black on the Block* tells the remarkable story of how these residents laid the groundwork for a revitalized and self consciously black neighborhood that continues to flourish today But theirs is not a tale of easy consensus and political unity and here Pattillo teases out the divergent class interests that have come to define black communities like North Kenwood Oakland She explores the often heated battles between haves and have nots home owners and apartment dwellers and newcomers and old timers as they clash over the social implications of gentrification Along the way Pattillo highlights the conflicted but crucial role that middle class blacks play in transforming such districts as they negotiate between established centers of white economic and political power and the needs of their less fortunate black neighbors A century from now when today s sociologists and journalists are dust and their books are too those who want to understand what the hell happened to Chicago will be finding the answer in this one Chicago Reader To see how diversity creates strange and sometimes awkward bedfellows turn to Mary Pattillo s *Black on the Block* Boston Globe **The Unfinished Politics of Race** Les Back,Michael Keith,Kalbir Shukra,John Solomos,2022-12 A novel history of the politics of race in British society over the past few decades that draws on original research at local and national levels **Race and American Political Development** Joseph E. Lowndes,Julie Novkov,Dorian T. Warren,2012-11-12 Race has been present at every

critical moment in American political development shaping political institutions political discourse public policy and its denizens political identities But because of the nature of race its evolving and dynamic status as a structure of inequality a political organizing principle an ideology and a system of power we must study the politics of race historically institutionally and discursively Covering more than three hundred years of American political history from the founding to the contemporary moment the contributors in this volume make this extended argument Together they provide an understanding of American politics that challenges our conventional disciplinary tools of studying politics and our conservative political moment s dominant narrative of racial progress This volume the first to collect essays on the role of race in American political history and development resituates race in American politics as an issue for sustained and broadened critical attention

Race Politics in Britain and France Erik Bleich, 2003-05-26 Britain and France have developed substantially different policies to manage racial tensions since the 1960s in spite of having similar numbers of post war ethnic minority immigrants This book provides the first detailed historical exploration of race policy development in these two countries In this path breaking work Bleich argues against common wisdom that attributes policy outcomes to the role of powerful interest groups or to the constraints of existing institutions instead emphasizing the importance of frames as widely held ideas that propelled policymaking in different directions British policymakers framing of race and racism principally in North American terms of color discrimination encouraged them to import many policies from across the Atlantic For decades after WWII by contrast French policy leaders framed racism in terms influenced largely by their Vichy past which encouraged policies designed primarily to counter hate speech while avoiding the recognition of race found across the English Channel

Us Versus Them Jan Doering, 2020 Crime and gentrification are hot button issues that easily polarize racially diverse neighborhoods How do residents activists and politicians navigate the thorny politics of race as they fight crime or resist gentrification And do conflicts over competing visions of neighborhood change necessarily divide activists into racially homogeneous camps or can they produce more complex alliances and divisions In *Us versus Them* Jan Doering answers these questions through an in depth study of two Chicago neighborhoods Drawing on three and a half years of ethnographic fieldwork Doering examines how activists and community leaders clashed and collaborated as they launched new initiatives built coalitions appeased critics and discredited opponents At the heart of these political maneuvers he uncovers a ceaseless battle over racial meanings that unfolded as residents strove to make local initiatives and urban change appear racially benign or malignant A thoughtful and clear eyed contribution to the field *Us versus Them* reveals the deep impact that competing racial meanings have on the fabric of community and the direction of neighborhood change

Political Creativity Gerald Berk, Dennis C. Galvan, Victoria Hattam, 2013-11-14 Political Creativity intervenes in the lively debate currently underway in the social sciences on institutional change Editors Gerald Berk Dennis C Galvan and Victoria Hattam along with the contributors to the volume show how institutions inevitably combine order and change because formal rules and roles are always available for

reconfiguration Creative action is not the exception but the very process through which all political formations are built promulgated and changed Drawing on the rich cache of antidualist theoretical traditions from poststructuralism and ecological theory to constructivism and pragmatism a diverse group of scholars probes acts of social innovation in many locations land boards in Botswana Russian labor relations international statistics global supply chains Islamic economics in Algeria Islamic sects and state authority in Senegal and civil rights reform colonization industrial policy and political consulting in the United States These political scientists reconceptualize agency as a relational process that continually reorders the nature and meaning of people and things order as an assemblage that necessitates creative tinkering and interpretation and change as the unruly politics of time that confounds the conventional ordering of past present and future Political Creativity offers analytical tools for reimagining order and change as entangled processes Contributors Stephen Amberg Chris Ansell Gerald Berk Kevin Bruyneel Dennis C Galvan Deborah Harrold Victoria Hattam Yoshiko M Herrera Gary Herrigel Joseph Lowndes Ato Kwamena Onoma Adam Sheingate Rudra Sil Ulrich Voskamp Volker Wittke *A Post-Racial Change Is Gonna Come* J. Wharton, 2013-11-12 This work offers a political and historical analysis of Newark's modern politics since 1950 culminating with Mayor Cory Booker's rise to power and prominence both in the city and in American political consciousness Newark's recent political history offers an interesting case study in mayoral elections community development and coalition building politics While Newark is the quintessential post industrial city Booker has received critical attention for his post racial politics since he frequently bypasses racial and traditional urban politics At the same time relations between the mayor the municipal council and Newark's diverse communities were often so fractious that sustainable coalition building proved to be an elusive goal to resolve longstanding crime education and other social problems Based on original interviews with Cory Booker city council members and other prominent Newark politicians *A Post Racial Change is Gonna Come* is a powerful history of how Newark became the focal point for transformative politics in urban America

Beyond the Boundaries Georgia A. Persons, 2017-09-29 In the past African American aspirations for political office were assumed to be limited to areas with sizeable black population bases By and large black candidates have rarely been successful in statewide or national elections This has been attributed to several factors limited resources available to African American candidates or identification with a black liberationist ideological thrust Other factors have been a relatively small and spatially concentrated primary support base of black voters and the persistent resistance of many white voters to support black candidates For these reasons the possibility of black candidates winning elections to national office was presumably just a dream Conventional wisdom conceded a virtual cap on both the possible number of black elected officials and the level of elective office to which they could ascend But objective political analysis has not always made sufficient allowances for the more universal phenomenon of individual political ambitions The contributors to this volume explore the ways ambitious individuals identified and seized upon strategies that are expanding the boundaries of African American electoral politics

This volume is anchored by a symposium that focuses on new possibilities in African American politics. Both the electoral contests of 2006 and the Barack Obama presidential campaign represent an emergent dynamic in American electoral politics. Analysts are beginning to agree that the contours of social change now make the electoral successes of black candidates who are perceived as ideologically and culturally mainstream increasingly likely. The debate captured in this volume will likely inspire further scholarly inquiry into the changing nature and dimensions of the larger dynamic of race in American politics and the subsequent changing political fortunes of African American candidates. Contours of African American Politics

Georgia A. Persons, 2014-03-31 *Contours of African American Politics* chronicles the systematic study of African American politics and its subsequent recognition as an established field of scholarly inquiry. African American politics emanates from the demands of the prolonged struggle for black liberation and empowerment. Hence the study of African American politics has sought to track, codify and analyze the struggle that has been mounted and to understand the historic and changing political status of African Americans within American society. The notion of a post-racial America is one that was birthed by the election of Barack Obama as the first African American president of the United States. However, another reality is equally compelling: that for some time now many African American aspirants for elective office have run against race-specific issues, putting individual desires to win office above the conventionally defined collective interests of black folk. Clearly the Obama presidential election crystallized a complexity of change that had been underway in America prior to his election. Indeed, did the Obama election signal the end of black politics? Does race remain a useful construct for framing the collective interests of African Americans? Volume III of *Contours of African American Politics* examines all of these questions in an effort to understand the more poignant question of the future of that which we have known as black politics. **American Apartheid**

Douglas S. Massey, Nancy A. Denton, 1998-07-15 This powerful and disturbing book clearly links persistent poverty among blacks in the United States to the unparalleled degree of deliberate segregation they experience in American cities.

Chicano Politics and Society in the Late Twentieth Century David Montejano, 2010-05-28 The various protest movements that together constituted the Chicano Movement of the 1960s and 1970s urged a politics of inclusion to bring Mexican Americans into the mainstream of United States political and social life. This volume of ten specially commissioned essays assesses the post-movement years, asking what went wrong, what went right, and where are we now. Collectively, the essays offer a wide-ranging portrayal of the complex situation of Mexican Americans as the twenty-first century begins. The essays are grouped into community, institutional, and general studies, with an introduction by editor Montejano. Geographically, they point to the importance of Hispanic politics in the Southwest as well as in Chicago wards and in the U.S. Congress, with ramifications in Mexico and Central America. Thematically, they discuss non-traditional politics stemming from gender identity, environmental issues, theatre production, labor organizing, university policymaking, along with the more traditional politics revolving around state and city government, the Congressional Hispanic Caucus, and various advocacy organizations.
