A Breed Apart Mike Helm, 2015-06-23 Mike Helm's entertaining behind-the-scenes study *A Breed Apart* takes the dedicated horse player right to the tracks. Readers will find Jack Kaenel who booted Aloma's Ruler to victory in the Preakness and Chuck Jenda who trained Brown Bess to an Eclipse Award. These and many other professionals are by your side as races are analyzed, bets placed, and questions answered about everything from claiming races, turf versus dirt, drugs, fixed races, and more. This informed look at the sport of kings offers information unavailable from any other source. [World's Toughest Races](#) Ali Clarke, 2015-07-09 What do fierljeppen running 156 miles in the Sahara desert and coal carrying all have in common? They're just some of the wackiest, toughest, and most extreme manpower races and challenges dreamed up by the human race. This fact-packed miscellany is bursting with all the details, statistics, and anecdotes of the world's most unusual competitions ever heard of: bog snorkelling and intense endurance contests. Whether you're an armchair thrill seeker or you're wild enough to have an adventure or two under your belt, this book will entertain and inspire. [Race and New Religious Movements in the USA](#) Emily Suzanne Clark, Brad Stoddard, 2019-08-08 Organized in chronological order of the founding of each movement, this documentary reader brings to life new religious movements from the 18th century to the present. It provides students with the tools to understand questions of race, religion, and American religious history. Movements covered include the Church of Jesus Christ of Latter-day Saints, Mormonism, the Native American Church, the Moorish Science Temple, the Nation of Islam, and more. The voices included come from both men and women. Each chapter focuses on a different new religious movement and features an introduction to the movement, including the context of its founding, two to four primary source documents about or from the movement, suggestions for further reading. [Radical Brown](#) Margaret Beale Spencer, Nancy E. Dowd, 2024-05-07 A rallying cry for equitable education informed by a revolutionary re-reading of Brown v. Board of Education on the 70th anniversary of the ruling. **The Races of Europe** Richard McMahon, 2016-11-15 This book explores a vital but neglected chapter in the histories of nationalism, racism, and science. It is the first comprehensive study of the transnational scientific community that in the nineteenth and early twentieth centuries attempted to classify Europe's biological races. Anthropological race classifiers produced parallel geographies, histories, and hierarchies of European peoples that were crucial to the creation of national identities and to the overtly political race discourses of eugenics and popular racist ideologues. They lent nationalism the invaluable prestige of natural science and traced the histories, conflicts, and relationships of national races back into prehistory. Racial national character stereotypes meanwhile supported competing political ideologies. The book examines the interplay between class, gender, and national identity narratives and the tensions and interactions between the scientific and political agendas of classifiers. Within the elaborate transnational networks of scientific communities, for example, they had to reconcile competing national narratives. **Race Defaced** Rodolfo Torres, Christopher Kyriakides, 2012-09-05 From Manifest Destiny to the White Man's Burden, Harold Macmillan to Tony Blair,

and John F Kennedy to Barack Obama the historical development of racial doctrine has been closely connected to the relationship between radical and conservative politics This book compares different forms of racism and anti racism in the United States and Great Britain from the 19th century to today situating the development of racial doctrine within the political movements of the modern capitalist world order In conversation with current debates this work places the treatment of racialized human beings within a wider dynamic of capitalist exploitation It unpacks the influence of anti emancipatory thought on race relations and argues that there is a consensus of thought across the political spectrum underpinned by the contemporary acceptance of the impossibility of human emancipation Ultimately *Race Defaced* is a heretical intervention into questions of race and racism that challenges both conservative and radical orthodoxies
