McCusker, Russell R. Menard, 2014-01-01 By the American Revolution the farmers and city dwellers of British America had achieved individually and collectively considerable prosperity The nature and extent of that success are still unfolding In this first comprehensive assessment of where research on prerevolutionary economy stands what it seeks to achieve and how it might best proceed the authors discuss those areas in which traditional work remains to be done and address new possibilities for a new economic history **A Companion to African American History** Alton Hornsby, Jr., 2008-04-15 A Companion to African American History is a collection of original and authoritative essays arranged thematically and topically covering a wide range of subjects from the seventeenth century to the present day Analyzes the major sources and the most influential books and articles in the field Includes discussions of globalization region migration gender class and social forces that make up the broad cultural fabric of African American history **Children of Fire** Thomas C. Holt, 2011-09-27 Simply brilliant The first survey of African American history to rival John Hope Franklin and Evelyn Brooks Higginbotham's *From Slavery to Freedom* Henry Louis Gates Jr Ordinary people don't experience history as it is taught by historians The same people who lived through the Civil War and the eradication of slavery also dealt with the hardships of Reconstruction so why do we almost always treat them separately In *Children of Fire* renowned historian Thomas C Holt challenges this form to tell the story of generations of African Americans through the lived experience of the

subjects themselves with all of the nuances ironies contradictions and complexities one might expect Holt captures the entire African American experience from the moment the first twenty African slaves were sold at Jamestown in 1619 Each chapter focuses on a generation of individuals who shaped the course of American history hoping for a better life for their children but often confronting the ebb and flow of their civil rights and status within society Many familiar faces grace these pages Frederick Douglass W E B DuBois Martin Luther King and Barack Obama but also some overlooked ones Figures like Anthony Johnson a slave who bought his freedom in late seventeenth century Virginia and built a sizable plantation only to have it stolen away from his children by an increasingly racist court system Or Frank Moore a WWI veteran and sharecropper who sued his landlord for unfair practices but found himself charged with murder after fighting off an angry white posse Taken together their stories tell how African Americans fashioned a culture and identity amid the turmoil of four centuries of American history Provocative readable passionate Publishers Weekly *The Loyalist Problem in Revolutionary New England* Thomas N. Ingersoll, 2016-10-24 The Loyalist Problem in Revolutionary New England begins with a snapshot of the region on the eve of the Boston Tea Party The colonists Republican tradition helped them spark the Revolution but their special history also threatened the unity of the United States throughout the Revolutionary War for Loyalists tried to discredit New Englanders as a naturally rebellious people Yet Ingersoll shows that the rebels never sought to drive the dissenters out of the new nation and accorded them a remarkable degree of liberal toleration with the great majority of Loyalists ultimately becoming citizens of the new states **Political Poetry as Discourse** Angela M. Leonard, 2010-01-01 Political Poetry as Discourse examines the works of the political poets John Greenleaf Whittier and Ebenezer Elliott drawing comparisons to contemporary hip hoppers who take their words from local newspapers and other discursive sources that they read hear and observe Local presses and news vehicles stand as cultural material forms that supply poets with words particularly words that congeal into patterns of language allowing the creation of a poetic discourse As readers of these poets apply techniques and theories of discourse analysis they reveal how poets borrow lift hijack or resituate words from one or more different genres to use as tools of political change Leonard engages with the critical toolboxes of content analysis semiosis and deconstruction to demonstrate how to critically investigate and interrogate the images sounds and words not just of politically engaged poets but also of any disseminator of culture and news Moving beyond theory into praxis this book becomes a model of its own transgressive premise by thinking analyzing writing and teaching against the grain Its focus on language as unbounded discourse makes this book a relevant and insightful demonstration in democratic pedagogy and in teaching for transformation *Empires of the Atlantic World* J. In The Company Of Black Men Craig Steven

Wilder,2002-02-01 Traces the development of African American community traditions over three centuries From the subaltern assemblies of the enslaved in colonial New York City to the benevolent New York African Society of the early national era to the formation of the African Blood Brotherhood in twentieth century Harlem voluntary associations have been a fixture of African American communities In the Company of Black Men examines New York City over three centuries to show that enslaved Africans provided the institutional foundation upon which African American religious political and social culture could flourish Arguing that the universality of the voluntary tradition in African American communities has its basis in collectivism a behavioral and rhetorical tendency to privilege the group over the individual it explores the institutions that arose as enslaved Africans exploited the potential for group action and mass resistance Craig Steven Wilder s research is particularly exciting in its assertion that Africans entered the Americas equipped with intellectual traditions and sociological models that facilitated a communitarian response to oppression Presenting a dramatic shift from previous work which has viewed African American male associations as derivative and imitative of white male counterparts In the Company of Black Men provides a ground breaking template for investigating antebellum black institutions

Marshalling historical materials to make a descriptive argument in social theory this wide ranging book compares the liberal revolution in France to the liberal revolutions in England and America and argues that the causes and outcomes of these upheavals were decisive in shaping later patterns of politics Conflict is the stuff of politics writes Anne Sa'adah and liberal politics because of its emphasis on the individual and its legitimation of self interest complicates the task of creating political community in a particularly interesting way In England and America the tension between conflict and community was resolved in a manner consistent with political stability In France the tension

produced an instability that has surfaced periodically throughout subsequent French history Why this is so is the subject of a work that treats the making of the modern political world in an unusually systematic way In France England and America the relationship of the state to society under the prerevolutionary regime limited revolutionary options Sa adah focuses on how this relationship created a politics of exclusion in France while allowing a politics of transaction in England and America Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Sojourners, Sultans, and Slaves** Gunja
