Racial Attitudes In The 1990s Continuity And Change:

Racial Attitudes in the 1990s Jack Martin, Steven A. Tuch, 1997-10-28 More than half a century has passed since the publication of *An American Dilemma The Negro Problem and Modern Democracy* Gunnar Myrdal's agonizing portrait of the pervasiveness of racially prejudiced attitudes and discriminatory practices in American life Central to Myrdal's work was the paradox posed by the coexistence of race based social economic and political inequality on the one hand and the cherished American cultural values of freedom and equality on the other In the five decades since the publication of this work there has been a dramatic decline in white Americans overt expressions of anti black and anti integrationist sentiments and in many of the inequalities Myrdal highlighted in his monumental work Yet the persistence of racial antipathy is evidence of the continuing dilemma of race in American society This collection of original essays by leading race relations experts focuses on the recent history and current state of racial attitudes in the United States It addresses key issues and debates in the literature and it includes chapters on the racial attitudes of African Americans as well as whites The volume will be of great importance to students and scholars concerned with the sociology and politics of contemporary American race relations

Race, Racial Attitudes and Stratification Beliefs Matthew O. Hunt, George Wilson, 2011-06-09 This book presents readers with a collection of cutting edge studies by leading scholars of inequality and race looking specifically at racial attitudes and stratification beliefs research [Racial Attitudes in America](#) Howard Schuman, 1997 This new edition brings fully up to date a book widely praised for its clear and objective presentation of changes in American racial attitudes during the second half of the twentieth century The book retains the division of racial attitudes into principles of equality government implementation of those principles and social distance but adds questions concerning affirmative action and beliefs about sources of inequality A conceptual section now opens the book evidence on social desirability has been added and a new chapter deals with cohort effects and with the impact of income education and gender In key instances randomized experiments are introduced that test hypotheses more rigorously than is ordinarily possible with survey data Throughout the authors have reconsidered earlier ideas and introduced new thinking **The Changing Terrain of Race**

and Ethnicity Maria Krysan, Amanda E. Lewis, 2004-11-11 The legal institutions of overt racism in the United States have been eliminated but social surveys and investigations of social institutions confirm the continuing significance of race and the enduring presence of negative racial attitudes This shift from codified and explicit racism to more subtle forms comes at a time when the very boundaries of race and ethnicity are being reshaped by immigration and a rising recognition that old systems of racial classification inadequately capture a diverse America In *The Changing Terrain of Race and Ethnicity* editors Maria Krysan and Amanda Lewis bring together leading scholars of racial dynamics to study the evolution of America's racial problem and its consequences for race relations in the future *The Changing Terrain of Race and Ethnicity* opens by attempting to answer a puzzling question how is it that so many whites think racism is no longer a problem but so many

nonwhites disagree Sociologist Lawrence Bobo contends that whites exhibit what he calls laissez faire racism which ignores historical and structural contributions to racial inequality and does nothing to remedy the injustices of the status quo Tyrone Forman makes a similar case in his chapter contending that an emphasis on color blindness allows whites to be comforted by the idea that all races are on a level playing field while not recognizing the advantages they themselves have reaped from years of inequality The book then moves to a discussion of the new ways that Americans view race Eduardo Bonilla Silva and Karen Glover argue that the United States is moving from a black white divide to a tripartite system where certain light skinned non threatening minority groups are considered honorary whites The book s final section reexamines the theoretical underpinnings of scholarship on race and ethnicity Joe Feagin argues that research on racism focuses too heavily on how racial boundaries are formed and needs to concentrate more on how those boundaries are used to maintain privileges for certain groups at the expense of others Manning Marable contends that racism should be addressed at an institutional level to see the prevalence of structural racism deeply entrenched patterns of inequality that are coded by race and justified by stereotypes The Changing Terrain of Race and Ethnicity provides an in depth view of racism in modern America which may be less conspicuous but not necessarily less destructive than its predecessor Jim Crow The book s rich analysis and theoretical insight shed light on how despite many efforts to end America s historic racial problem it has evolved and persisted into the 21st century

Racism Without Racists Eduardo Bonilla-Silva,2010 This edition includes a chapter examining the Obama mystery the election of a black President even though racial progress has stagnated in the country since the 1980s Bonilla Silva argues that this development is not a breakthrough in race relations but a continuation of racial trends in the last 40 years including the sedimentation of color blind racism as the dominant ideology in the nation

Advances in Group Processes Shane R. Thye,Edward J. Lawler,2021-10-27 This volume includes papers that address theoretical and empirical issues related to occupational deference structures emotions generated by social identities racial threat sticky expectations status and response latency race and moral expectations in employment comparison processes and competition and models of intergroup association

Prismatic Metropolis Lawrence D. Bobo,Melvin L. Oliver,Jr. James H. Johnson,Abel, Jr. Valenzuela,2000-11-02 This book cuts through the powerful mythology surrounding Los Angeles to reveal the causes of inequality in a city that has weathered rapid population change economic restructuring and fractious ethnic relations The sources of disadvantage and the means of getting ahead differ greatly among the city s myriad ethnic groups The demand for unskilled labor is stronger here than in other cities allowing Los Angeles s large population of immigrant workers with little education to find work in light manufacturing and low paid service jobs A less beneficial result of this trend is the increased marginalization of the city s low skilled black workers who do not enjoy the extended ethnic networks of many of the new immigrant groups and who must contend with persistent negative racial stereotypes Patterns of residential segregation are also more diffuse in Los Angeles with many once black neighborhoods now split evenly between

blacks Hispanics Asians and other minorities Inequality in Los Angeles cannot be reduced to a simple black white divide Nonetheless in this thoroughly multicultural city race remains a crucial factor shaping economic fortunes A Volume in the Multi City Study of Urban Inequality American Politics and the African American Quest for Universal Freedom Hanes Walton, Jr, Robert C. Smith, Sherri L. Wallace, 2017-03-30 This dynamic and comprehensive text from nationally renowned scholars continues to demonstrate the profound influence African Americans have had and continue to have on American politics Through the use of two interrelated themes the idea of universal freedom and the concept of minority majority coalitions the text demonstrates how the presence of Africans in the United States affected the founding of the Republic and its political institutions and processes The authors show that through the quest for their own freedom in the United States African Americans have universalized and expanded the freedoms of all Americans New to the Eighth Edition A new co author Sherri L Wallace is renowned for her teaching scholarship and participation in APSA's American government textbook assessment for coverage of race ethnicity and gender She is the perfect addition following an election year that included female presidential candidates as well as candidates of color and issues focusing on racial tension and inequality Offers a new Media Integration Guide for the first time Provides the first overall assessment of the Obama administration in relation to domestic and foreign policy and racial politics in particular Updated through the 2016 elections connecting the Obama years with the new administration Looks at candidates Hillary Clinton and Ben Carson in particular in relation to the themes of the book Adds a new section on State Politics and Elections Includes new sections on intersectionality dealing with issues of race gender and sexuality LGBT issues as another manifestation of the struggle for universal freedom a discussion of the Black Lives Matter movement and a new section focusing on the changing character of black ethnicity as result of increased immigration from Africa and the Caribbean Discusses the way in which race contributed to the polarization of American politics the connections to the Tea Party and the Obama Presidency and the 2016 presidential campaign as the most polarized since the advent of polling Previews the impact of the Trump Administration on matters of race and ethnicity

The Enigma of Ethnicity Wilbur Zelinsky, 2001-04 In The Enigma of Ethnicity Wilbur Zelinsky draws upon more than half a century of exploring the cultural and social geography of an ever changing North America to become both biographer and critic of the recent concept of ethnicity In this ambitious and encyclopedic work he examines ethnicity's definition evolution significance implications and entanglements with other phenomena as well as the mysteries of ethnic identity and performance Zelinsky begins by examining the ways in which ethnic groups and ethnicity have been defined his own definitions then become the basis for the rest of his study He next focuses on the concepts of heterolocalism the possibility that an ethnic community can exist without being physically merged and personal identity the relatively recent idea that one can concoct one's own identity In his final chapter which is also his most provocative he concentrates on the multifaceted phenomenon of multiculturalism and its relationship to ethnicity Throughout he includes a close look at African Americans

Hispanics and Jews as well as such less studied groups as suburbanized Japanese Cubans in Washington Koreans Lithuanian immigrants in Chicago Estonians in New Jersey Danish Americans in Seattle and Finns Reasonable nonpolemical and straightforward Zelinsky's text is invaluable for readers wanting an in depth overview of the literature on ethnicity in the United States as well as a well thought out understanding of the meanings and dynamics of ethnic groups ethnicity and multiculturalism

This textbook successfully presents these uniquely by examining how these themes manifest themselves at different levels at the individual, interpersonal, intergroup and institutional levels. It aims to integrate the different approaches to understanding racism and prejudice and to suggest new ways to study these complex issues. This integrated international focus should make it key reading for students in many countries. With contributions from world leading figures, *Understanding Prejudice, Racism and Social Conflict* should prove to be an invaluable teaching resource and an accessible volume for students in social psychology as well as some neighbouring disciplines.

Colorblind Racism Meghan Burke, 2018-11-26. How can colorblindness, the idea that race does not matter, be racist? This illuminating book introduces the paradox of colorblind racism: how dismissing or downplaying the realities of race and racism can perpetuate inequality and violence. Drawing on a range of theoretical approaches and real life examples, Meghan Burke reveals colorblind racism to be an insidious presence in many areas of institutional and everyday life in the United States. She explains what is meant by colorblind racism, uncovers its role in the history of racial discrimination and explores its effects on how we talk about and treat race today. The book also engages with recent critiques of colorblind racism to show the limitations of this framework and how a deeper, more careful study of colorblindness is needed to understand the persistence of racism and how it may be challenged. This accessible book will be an invaluable overview of a key phenomenon for students across the social sciences and its far reaching insights will appeal to all interested in the social life of race and racism.

Fire in the Heart Mark R. Warren, 2010-09-02. *Fire in the Heart* uncovers the dynamic processes through which some white Americans become activists for racial justice. The book reports powerful accounts of the development of racial awareness drawn from in depth interviews with fifty white activists in the fields of community organizing, education and criminal justice reform. Drawing extensively on the rich interview material, Mark Warren shows how white Americans can develop a commitment to racial justice not just because it is the right thing to do but because they embrace the cause as their own. Contrary to much contemporary thinking on racial issues focused on altruism or interests, Warren finds that cognitive and rational processes alone do little to move whites to action. Rather, the motivation to take and sustain action for racial justice is profoundly moral and relational. Warren shows how white activists come to find common cause with people of color when their core values are engaged as they build relationships with people of color that lead to caring and when they develop a vision of a racially just future that they understand to benefit everyone themselves, other whites and people of color. Warren also considers the complex dynamics and dilemmas white people face in working in multiracial organizations committed to systemic change in America's racial order and provides a deeper understanding and appreciation of the role that white people can play in efforts to promote racial justice. The first study of its kind, *Fire in the Heart* brings to light the perspectives of white people who are working day to day to build not a post racial

America but the foundations for a truly multiracial America rooted in a caring human community with equity and justice at its core

Intersections of Race, Gender, and Precarity Stephanie M. Baran, 2022-01-28 In *Intersections of Race Gender and Precarity Navigating Insecurities in an American City* Stephanie Baran argues that when it comes to assistance the United States government often creates more problems than it solves These institutions are not in the business of creating a pathway for people to escape poverty often compounding that poverty instead Through a two year ethnographic study of poverty and insecurity in Milwaukee Wisconsin the author shows how people navigate situations of poverty through interviews with recipients and organizations as well as those working at a local community pantry Consequently research uncovered how local food organizations with connections to the Milwaukee Chapter of the Black Panther Party hide their more radical roots to protect food donations from white donors in essence protecting white fragility People are far closer to experiencing poverty than they realize as shown by the Government Shutdown of 2019 and the ongoing COVID 19 pandemic and typically have incomplete and inaccurate ideas of poverty as well as how people can experience upward mobility *Intersections of Race Gender and Precarity* reveals this gap through a focus on how all these factors show up in Milwaukee Wisconsin

Is It Racist? Is It Sexist? Jessi Streib, Betsy Leondar-Wright, 2025-01-14 How can the judgment calls we make in everyday life create or help eradicate social inequality *Is It Racist Is It Sexist* Two questions that seem simple on their face but which invite a host of tangled responses In this book Jessi Streib and Betsy Leondar Wright offer a new way of understanding how inequalities persist by focusing on the individual judgment calls that lead us to decide what's racist what's sexist and what's not Racism and sexism often seem like optical illusions with some people sure they see them and others sure they're not there but the lines that most consistently divide our decisions might surprise you Indeed white people's views of what's racist and sexist are increasingly up for grabs As the largest racial group in the country and the group that occupies the most and the highest positions of power what they decide is racist and sexist helps determine the contours of inequality By asking white people Southerners and Northerners Republicans and Democrats working class and professional middle class men and women to decide whether specific interactions and institutions are racist sexist or not Streib and Leondar Wright take us on a journey through the decision making processes of white people in America By presenting them with a variety of scenarios the authors are able to distinguish the responses as being characteristic of different patterns of reasoning They produce a framework for understanding these patterns that invites us all to engage with each other in a new way even on topics that might divide us *Is It Racist Is It Sexist* will leave you questioning how you decide whether a joke a hiring decision or a policy change is or isn't racist or sexist and will give you new tools for making more accurate and productive judgment calls
