Racialization Of America:

The Racialization of America Yehudi O. Webster, 1992 A comprehensive analysis of race class and ethnicity in America challenges the notions of classification put forward by government and academics and argues that to describe black white relations based on color violates basic logic Race and Racialization Tania Das Gupta, 2007 This provocative volume will influence the way people think of race and racialization It provides a thorough examination of these complex and intriguing subjects with historical comparative and international contributions Edited as a theoretically strong cohesive whole this book unites a remarkable ensemble of academic thinkers and writers from a diversity of backgrounds Themes of ethnocentrism cultural genocide conquest and colonization disease and pandemics slavery and the social construction of racism run throughout Asian American Racialization and the Politics of U.S. Education Wayne Au, 2024-08-01 Asian American Racialization and the Politics of U S Education explores issues surrounding Asian American education in the United States and how they relate to educational theory policy and practice The book challenges stereotypes and assumptions that pervade U S education restores absent histories of Asian American people in this context and provides concrete examples of educational actions and policies that enable anti racist educational work to go on It argues that understanding Asian American racialization in the U S is essential to fighting white supremacy in schools and communities Utilizing frameworks from Asian American Studies and Cultural Studies this book will be important reading for those interested in doing anti racist liberatory and abolitionist educational work In particular it will be relevant for those working or researching in the fields of Asian American Education Multicultural Education Social Justice Education and Critical Education *The Melancholy of Race* Anne Anlin Cheng, 2001 Cheng proposes that racial identification is itself already a melancholic act a social category that is imaginatively supported through a dynamic of loss and compensation by which the racial other is at once rejected and retained Using psychoanalytic theories on mourning and melancholia as inroads into her subject Cheng offers a closely observed and carefully reasoned account of the minority experience as expressed in works of art by and about Asian Americans and African Americans She argues that the racial minority and dominant American culture both suffer from racial melancholia and that this insight is crucial to a productive reimagining of progressive politics **Race and Identity in Hispanic America** Patricia Reid-Merritt, Michael S. Rodriguez, 2020-04-03 This book offers a historical and comparative overview of the evolution of racial classifications in the United States Latin America and the Caribbean The Hispanicization of America is precipitating a paradigm shift in racial thinking in which race is no longer defined by distinct characteristics but rather is becoming synonymous with ethnic cultural identity Traditionally assimilation has been conceived of as a unidirectional and racialized phenomenon Newly arrived immigrant groups or longstanding minority indigenous populations were Americanized in confining their racial and ethnic natures to the private sphere and adopting in the public sphere the cultural mores norms and values of the dominant cultural racial group In contrast the Hispanicization of America entails the

horizontal assimilation of various groups from Spanish speaking countries throughout the Western Hemisphere and Caribbean into a pan ethnic Hispanic Latino identity that also challenges the privileged position of whiteness as the primary and exclusive referent for American identity Instead of focusing on one Hispanic group ethnic identity or region this book chronicles the development of racial identity across the largest Hispanic groups throughout the United States *Race, Ethnicity, and Place in a Changing America* John W. Frazier,Eugene Tettey-Fio,2006 *Race, Ethnicity, and Place in a Changing America, Third Edition* John W. Frazier,Eugene L. Tettey-Fio,Norah F. Henry,2017-01-12 This book examines major Hispanic African and Asian diasporas in the continental United States and Puerto Rico from the nineteenth century to the present with particular attention on the diverse ways in which these immigrant groups have shaped and reshaped American places and landscapes Through both historical and contemporary case studies the contributors examine how race and ethnicity affect the places we live work and visit illustrating along the way the behaviors and concepts that comprise the modern ethnic and racial geography of immigrant and minority groups While primarily addressed to students and scholars in the fields of racial and ethnic geography these case studies will be accessible to anyone interested in race place connections race ethnicity boundaries the development of racialization and the complexity of human settlement patterns and landscapes that make up the United States and Puerto Rico Taken together they show how individuals and culture groups through their ideologies social organization and social institutions reflect both local and regional processes of place making and place remaking that occur within and beyond the continental United States *Race and Arab Americans Before and After 9/11* Amaney Jamal,Nadine Naber,2008-02-27 Bringing the rich terrain of Arab American histories to bear on conceptualizations of race in the United States this groundbreaking volume fills a critical gap in the field of U S racial and ethnic studies The articles collected here highlight emergent discourses on the distinct ways that race matters to the study of Arab American histories and experiences and asks essential questions What is the relationship between U S imperialism in Arab homelands and anti Arab racism in the United States In what ways have the axes of nation religion class and gender intersected with Arab American racial formations What is the significance of whiteness studies to Arab American studies Transcending multiculturalist discourses that have simply added on the category Arab American to the landscape of U S racial and ethnic studies after the attacks of September 11 2001 this volume locates September 11 as a turning point rather than as a beginning in Arab Americans **Race, Class, and the State in Contemporary Sociology** Jack Niemonen,2002 Situating Wilson s work on race and class in the overall contexts of sociology and radical politics this book considers the contribution of and the debate surrounding each of his major works including *The Declining Significance of Race* *The Truly Disadvantaged* and *When Work Disappears* The crucial place of segregation in the critiques of Wilson s theory is emphasized and the role of the state is considered Annotation copyrighted by Book News Inc Portland OR **American History, Race and the Struggle for Equality** Masaki Kawashima,2016-12-16 Powerfully synthesizing major currents in the field this book

addresses the issue of inequality across American politics and society using race as a lens for the exploration of major themes in American history. It considers the concept of race as a social construction against the background of the historical struggles for fairness in a society based on the framework of democracy whose principle is that majority's consent be necessary for the fulfillment of justice. Foregrounding problems of race capital and political economy, it particularly examines the connections between race and class, the relationship of slavery and national politics, and the distinctive intellectual framework that Americans have developed to discuss race. Offering a detailed account of civil rights legislation, an overview of immigration law and policy, and comprehensive overviews of debates about affirmative action, immigration, and the causes and solutions to racialized urban poverty, this book emphasizes what is distinctive about the United States and offers a unique comparative framework for thinking about America's racial past.

From publisher description:

Race, Rights, and the Asian American Experience Angelo N. Ancheta, 2006

In *Race Rights and the Asian American Experience*, Angelo N. Ancheta demonstrates how United States civil rights laws have been framed by a black-white model of race that typically ignores the experiences of other groups, including Asian Americans. When racial discourse is limited to antagonisms between black and white, Asian Americans often find themselves in a racial limbo, marginalized or unrecognized as full participants. A skillful mixture of legal theories, court cases, historical events, and personal insights, this revised edition brings fresh insights to U.S. civil rights from an Asian American perspective.

The Oxford Handbook of Religion and Race in American History Kathryn Gin Lum, Paul Harvey, 2018-03-01

The *Oxford Handbook of Religion and Race in American History* brings together a number of established scholars as well as younger scholars on the rise to provide a scholarly overview for those interested in the role of religion and race in American history. The volume addresses the religious experience, social realities, theologies, and sociologies of racialized groups in American religious history, as well as the ways that religious myths, institutions, and practices contributed to their racialization. Part One begins with a broad introductory survey outlining some of the major

terms and explaining the intersections of race and religions in various traditions and cultures across time Part Two provides chronologically arranged accounts of specific historical periods that follow a narrative of religion and race through four plus centuries Taken together The Oxford Handbook of Religion and Race in American History provides a reliable scholarly text and resource to summarize and guide work in this subject and to help make sense of contemporary issues and dilemmas
