Pettigrew, 1973      *The Social Life of Emotions* Larissa Z. Tiedens, Colin Wayne Leach, 2004-09-27 This book showcases new research and theory about the way in which the social environment shapes and is shaped by emotion The book has three sections each of which addresses a different level of sociality interpersonal intragroup and intergroup The first section refers to the links between specific individuals the second to categories that define multiple individuals as an entity and the final to the boundaries between groups Emotions are found in each of these levels and the dynamics involved in these types of relationship are part of what it is to experience emotion The chapters show how all three types of social relationships generate and are generated by emotions In doing so this book locates emotional experiences in the larger social context      *Racial Encounter* Kevin Durrheim, John Dixon, 2013-05-13 The political and legislative changes which took place in South Africa during the 1990s with the dissolution of apartheid created a unique set of social conditions As official policies of segregation were abolished people of both black and white racial groups began to experience new forms of social contact and intimacy By examining these emerging processes of intergroup contact in South Africa and evaluating related evidence from the US *Racial Encounter* offers a social psychological account of desegregation It begins with a critical analysis of the traditional theories and research models used to understand desegregation the contact hypothesis and race attitude theory It then analyzes every day discourse about desegregation in South Africa showing how discourse shapes individuals conception and management of their changing relationships and acts as a site of ideological resistance to social change The connection between place identity and re creation of racial boundaries emerge as a central theme of this analysis This book will be of interest to social psychologists students of intergroup relations and all those interested in post apartheid South Africa      *Black Separatism and Social Reality* Raymond L. Hall, 2013-10-22 *Black Separatism and Social Reality* Rhetoric and Reason deals with the contemporary debate over black separatism in America It brings together for the first time many of the perspectives ideas orientations and ideologies that all directly or indirectly address the question of black separatism pro and con from the vantage point of their own realities It raises fundamental issues that have recurred throughout the last century and continue unabated today such as whether black Americans should seek their political destiny apart from white Americans or whether economic growth within the black community can eventually lead to true black power This book is comprised of 31 chapters and begins with a historical overview and social reality of black separatism in America how and why black separatist movements emerge and why separatism appeals to some individuals and not to others The next section explores the similarities of white racist assumptions and black separatism as well as the arguments for and against separatism The prospects of black separatism are analyzed along with Pan Africanism and black studies A comprehensive review of the history of separatist thought and a

bibliography concerning the relation of Afro Americans with Africa are presented The possibility of a violent confrontation between whites and blacks is also considered Finally the book ponders the question of whether there is a need for a distinct black social science This monograph will appeal to sociologists social scientists political scientists politicians blacks and scholars of black studies     The Caste and Class Controversy on Race and Poverty Charles Vert Willie,1989 To find more information about Rowman and Littlefield titles please visit [www rowmanlittlefield com](http://www.rowmanlittlefield.com)     *Race, Economics, and the Politics of Educational Change* John M. Amis,Paul M. Wright,2024-01-12 The 2010 national midterm elections produced Republican majorities in Tennessee for the first time since Reconstruction In the wake of that election leaders of the Shelby County Schools SCS school district began legislative maneuvering to advance a long cherished goal granting their schools special school district status a move that would permanently sever the relationship between the SCS and the other school district in the county Memphis City Schools MCS Leaders of MCS realized this action would deprive it of funding from a significant part of the county s tax base So they made a stunning move of their own they renounced the MCS charter Ironically under Tennessee law this action required SCS to take over the running of Memphis s schools SCS would actually be forced to merge with MCS Thus began the largest school district consolidation in the history of the United States *Race Economics and the Politics of Educational Change* progresses through nine chapters that examine the MCS SCS merger from a variety of disciplinary perspectives Historical sociological political legal institutional urban planning media studies and educational analyses of the consolidation render John M Amis and Paul M Wright s volume a valuable tool for researchers students policy makers and educators alike The investigations in this work reveal deeply entrenched inequalities that have thwarted education particularly for poor minority students throughout the region s history This text presents insight into factors that have shaped not just the school system in Shelby County but similar systems across the United States A model for other urban areas that face similar challenges this volume will serve as a significant resource for those seeking to understand the trajectory of large scale educational transformations     *Episcopalians & Race* Gardiner H. Shattuck,2021-03-17 Superb The first comprehensive history of modern race relations within the Episcopal Church and as such a model of its kind *Journal of American History* Meeting at an African American college in North Carolina in 1959 a group of black and white Episcopalians organized the Episcopal Society for Cultural and Racial Unity and pledged to oppose all distinctions based on race ethnicity and social class They adopted a motto derived from Psalm 133 Behold how good and joyful a thing it is for brethren to dwell together in unity Though the spiritual intentions of these individuals were positive the reality of the association between blacks and whites in the church was much more complicated *Episcopalians and Race* examines the often ambivalent relationship between black communities and the predominantly white leadership of the Episcopal Church since the Civil War Paying special attention to the 1950s and 60s Gardiner Shattuck analyzes the impact of the civil rights movement on church life especially in southern states offering an insider s history of Episcopalians efforts both successful and unsuccessful to

come to terms with race and racism since the Civil War A model of how good this kind of history can be when it is well researched and centers on the difficult choices faced and made by people who share institutional and faith commitments in settings that call those commitments into question American Historical Review Will be of considerable benefit to scholars students church members of all denominations and anyone concerned with issues of racial justice in the American context Choice An essential addition to the history of race and the modern South Journal of Southern History *Racism* Ellis Cashmore, Ernest Cashmore, James Jennings, 2001 Chronological anthology of 38 essays that demonstrate the long and complex intellectual history of racism as an idea and show how powerful groups have utilized racism to advance social economic or cultural interests *Race, Masculinity And Schooling* Archer, Louise, 2003-12-01 This work explores the complex interplay between race ethnicity religion masculinity and social class within Muslim boys lives Attention is also given to the role of the teacher researcher in relation to the boys constructions of Muslim masculinities **Racial Identity Theory** Chalmer E. Thompson, Robert T. Carter, 2013-04-15 Racial identity theories have been in the psychological literature for nearly thirty years Unlike most references to racial identity however Thompson and Carter demonstrate the value of integrating RACE and IDENTITY as systematic components of human functioning The editors and their contributors show how the infusion of racial identity theory with other psychological models can successfully yield more holistic considerations of client functioning and well being Fully respecting the mutual influence of personal and environmental factors to explanations of individual and group functioning they apply complex theoretical notions to real life cases in psychological practice These authors contend that race is a pervasive and formidable force in society that affects the development and functioning of individuals and groups In a recursive fashion individuals and groups influence and indeed nurture the notion of race and societal racism Arguing that mental health practitioners are in key influential positions to pierce this cycle the authors provide evidence of how meaningful change can occur when racial identity theory is integrated into interventions that attempt to diminish the distress people experience in their lives The interventions illustrated in this volume are applied in various contexts including psychotherapy and counseling supervision family therapy support groups and organizational and institutional environments This book can serve the needs and interests of advanced level students and professionals in all mental health fields as well as researchers and scholars in such disciplines as organizational management and forensic psychology It can also be of value to anyone interested in the systematic implementation of strategies to overcome problems of race **Race in the Marketplace** Guillaume D. Richardson Journal of American History      **Methodists and the Crucible of Race, 1930-1975** Peter C. Murray, 2004 In *Methodists and the Crucible of Race 1930 1975* Peter C Murray contributes to the history of American Christianity and the Civil Rights movement by examining a national institution the Methodist Church after 1968 the United Methodist Church and how it dealt with the racial conflict centered in the South Murray begins his study by tracing American Methodism from its beginnings to the secession of many African Americans from the church and the establishment of separate northern and southern denominations in the nineteenth century He then details the reconciliation and compromise of many of these segments in 1939 that led to the unification of the church This compromise created the racially segregated church that Methodists struggled to eliminate over the next thirty years During the Civil Rights movement American churches confronted issues of racism that they had previously ignored No church experienced this confrontation more sharply than the Methodist Church When Methodists reunited their northern and southern halves in 1939 their new church constitution created a segregated church structure that posed significant issues for Methodists during the Civil Rights movement Of the six jurisdictional conferences that made up the Methodist Church only one was not based on a geographic region the Central Jurisdiction a separate conference for all Negro annual conferences This Jim Crow arrangement humiliated African American Methodists and embarrassed their liberal white allies within the church The Supreme Court s *Brown v Board of Education* decision awakened many white Methodists from their complacent belief that the church could conform to the norms of the South without consequences among its national membership Murray places the struggle of the Methodist Church within the broader context of the history of race relations in the United States He shows how the effort to destroy the barriers in the church were mirrored in the work being done by society to end segregation Immensely readable and free of jargon *Methodists and the Crucible of Race 1930 1975* will be of interest to a broad audience including those interested in the Civil Rights movement and American church history      **Race and Racism in the United States** Charles A. Gallagher, Cameron D. **African Americans and Race Relations in San Antonio, Texas, 1867-1937** Kenneth Mason,1998 This is a study of how paternal race relations in San Antonio contributed to the rise of accommodation minded African American leaders whose successful manipulation of the political and ethnic divisions provided goods services and sustained voting rights during a period when African Americans throughout the South had lost such privileges The unique demography of Mexican German Anglo and African Americans a service based economy of hotels restaurants and saloons and campaigns by white civic leaders to make San Antonio the premier commercial and vacation center of the Southwest nurtured a political machine that intended to keep blacks in their place This resulted in an assortment of Jim Crow laws restrictive employment opportunities and segregated schools parks and municipal services albeit without mob lynching and racial violence This paternal brand of racism resulted in the rise of one of the most powerful black political bosses of his time Charles Bellinger Challenges from conservative white reformers and disgruntled black civil rights advocates failed to dislodge the hold Bellinger s machine had on the black community and the city until the Great Depression By examining employment education politics and socio cultural activities that contributed to the city s unique race relations the study takes a hard look at whether separate but equal ever become a reality in San Antonio      Racist America Joe R. Feagin,2014-01-21 This third edition of Joe R Feagin s

Racist America is significantly revised and updated with an eye toward racism issues arising regularly in our contemporary era. This edition incorporates more than two hundred recent research studies and reports on U.S. racial issues that update and enhance all the last edition's chapters.
