Toxic Diversity Dan Subotnik, 2005-07-01 Toxic Diversity offers an invigorating view of race gender and law in America Analyzing the work of preeminent legal scholars such as Patricia Williams Derrick Bell Lani Guinier and Richard Delgado Dan Subotnik argues that race and gender theorists poison our social and intellectual environment by almost deliberately misinterpreting racial interaction and data and turning white males into victimizers Far from energizing women and minorities Subotnik concludes theorists divert their energies from implementing America's social justice agenda Insisting in the words of James Baldwin that not everything that is faced can be changed but nothing can be changed until it is faced and that thoughtful Americans regardless of race and gender can handle frank conversations about difficult topics Subotnik's critique of race and gender theory pulls no punches as it confronts such inflammatory issues as single parenthood the merit system in academic and business settings gender privilege in the classroom and crime

Racing to the Bottom? Kathryn Harrison, 2011-11-01 The spectre of a race to the bottom is increasingly prominent in debates about globalization and also within federal systems where the mobility of both capital and individuals prompts fears of interjurisdictional competition with respect to taxes and environmental and welfare standards While there has been no shortage of either political rhetoric or academic theorizing on this subject empirical studies have been in shorter supply This volume seeks to fill that gap by asking Are Canadian provinces engaged in a race to the bottom and if so what are the consequences The contributors apply insights from economics and political science to several policy fields What emerges is a theoretical and empirical picture of interprovincial competition that shows it to be more complex than the popular image of a race to the bottom and that also contradicts predictions of an

inexorable downward spiral This timely practical volume will be of interest to public policy practitioners as well as to students and scholars of economics and political science
