Torture and Democracy Darius Rejali,2009-06-08 This is the most comprehensive and most comprehensively chilling study of modern torture yet written Darius Rejali one of the world s leading experts on torture takes the reader from the late nineteenth century to the aftermath of Abu Ghraib from slavery and the electric chair to electrocution in American inner cities and from French and British colonial prison cells and the Spanish American War to the fields of Vietnam the wars of the Middle East and the new democracies of Latin America and Europe As Rejali traces the development and application of one torture technique after another in these settings he reaches startling conclusions As the twentieth century progressed he argues democracies not only tortured but set the international pace for torture Dictatorships may have tortured more and more indiscriminately but the United States Britain and France pioneered and exported techniques that have become the lingua franca of modern torture methods that leave no marks Under the watchful eyes of reporters and human rights activists low level authorities in the world s oldest democracies were the first to learn that to scar a victim was to advertise iniquity and invite scandal Long before the CIA even existed police and soldiers turned instead to clean techniques such as torture by electricity ice water noise drugs and stress positions As democracy and human rights spread after World War II so too did these methods Rejali makes this troubling case in fluid arresting prose and on the basis of unprecedented research conducted in multiple languages and on several continents begun years before most of us had ever heard of Osama bin Laden or Abu Ghraib The author of a major study of Iranian torture Rejali also tackles the controversial question of whether torture really works answering the new apologists for torture point by point A brave and disturbing book this is the benchmark against which all future studies of modern torture will be measured *A Brief History of Vampires* M.J. Trow,2013-02-07 A historical journey in pursuit of the history legend and lore of vampires Where do they come from Why do they have so much appeal today As *Twilight* hits the book charts and billboards and *True Blood* is on TV there are vampires in downtown clubs and never has it been more fashionable to be pale M J Trow looks at the story of vampires and charts its origins a long way from the shopping mall in the story of the warrior prince Vlad of Wallachia *The Executioner Always Chops Twice* Geoffrey Abbott,2004-04-03 A morbidly fascinating mixture of bungled executions strange last requests and classic final one liners from medieval times to the present day Sometimes it s hard to be an executioner trying to keep someone from popping up to make a quip when they should have spectacularly sunk without a trace Or to be told that the condemned to the guillotine won t have a last drink for fear of completely losing his head The business of death can be absurd and nothing illustrates this better than these tales of the gruesome and frankly ridiculous ways in which a number of ill fated unfortunates met or failed to meet their maker Did you know When Sir Thomas More was ordered to position his head on the block he said though you have warrant to cut off my head you have none to cut off my beard When the guillotine took three strokes to sever the neck of

Isabeau Herman the mob attempted to stone the executioner to death for cruelty After the English hanged the pirate Captain Kidd they chained his body to a stake on the Thames River as a warning to seafarers From the strange to the gruesome from the weird to the completely unbelievable The Executioner Always Chops Twice is popular history at its best witty lively and wonderfully bizarre Never Again . . . Forever! Patricia Della-Piana,2012-10-13 A book of poetry prose photographs and paintings to honor the sacrifice of those who came before and paid some with their very lives for their different belief appearance capability or livelihood We hope to move you deeply with our words and pictures knowing that as George Santayana famously said Those who cannot remember the past are condemned to repeat it **War, Torture and**

Terrorism Anthony F. Lang, Jr.,Amanda Russell Beattie,2008-10-27 This book seeks to demonstrate how rules not only guide a variety of practices within international politics but also contribute to the chaos and tension on the part of agents in light of the structures they sustain Four central themes practice legitimacy regulation and responsibility reflect different dimensions of a rule governed political order The volume does not provide a single new set of rules for governing an increasingly chaotic international system Instead it provides reflections upon the way in which rules can and cannot deal with practices of violence While many assume that obeying the rules will bring more peaceful outcomes the chapters in this volume demonstrate that this may occur in some cases but more often than not the very nature of a rule governed order will create tensions and stresses that require a constant attention to underlying political dynamics This wide ranging volume will be of great interest to students of International Law International Security and IR theory Pandemonium Gibson

Burrell,1997-02-13 A truly bizarre and sometimes filthy historical canter through abatoirs satyriasis and Noel Edmonds House Party among other things towards a theory of organisation The Times The author pursues a vigorous polemic on organisational development Financial Times In this irreverent and inventive book Gibson Burrell seeks to circumvent the established frameworks which have defined our understanding of organization and organizations He brings us tales from under the edge which enmire us in the nether side of modernist organization By looking backwards deep into the history of Western societies and sideways across the broad domain of social and cultural theory Pandemonium disconcerts and invigorates the domain of the study of organizations Through his experimental device of the two directional text Burrell offers multi layered meanings and a metaphor for the rejection of linearity This is not an organizational behaviour textbook but an exploration that will take organization theory into a new era **Amazing True Stories of Execution Blunders** Geoffrey

Abbott,2005-06-05 The business of death can be seriously absurd and nothing illustrates this better than these gruesome true tales This gory compendium details the frankly ridiculous ways in which a number of ill fated unfortunates met or failed to meet their maker at the hands of lamentably inept executioners With black and white illustrations this book brings together a mixture of bungled executions strange last requests and classic one liners from medieval times to the present day Torture Geoffrey Abbott,2016-07-14 In this classic account of the history of torture Geoffrey Abbott guides us through some of the

worst torture methods known to man from chilli powder punishment to needles under nails with a style both chilling and full of dark humour

Execution Geoffrey Abbott, 2006-04-04 In his own darkly humorous style Geoffrey Abbott describes the instruments used and their effectiveness and reveals the macabre origins of familiar phrases such as gone west or drawn a blank as well as the jargon of the underworld He covers everything from the preparation of the victim to the disposal of the body Execution is everything you ever wanted to know about the ultimate penalty and a lot you never thought to ask It includes such hair raising categories as Cave of Roses A rare Swedish method of execution in which the victim was confined to a cave full of snakes and poisonous reptiles Bastinado Involved the victim being caned gently and rhythmically with a lightweight stick on the soles of the feet until the mental collapse and eventual death of the victim Sewn in an Animal's Belly A living person is sewn into the belly of an animal and left to die The Spanish Donkey This method of torture consisted of seating a victim on top of a wall that resembled an inverted v with weights attached to the ankles the weights slowly increased until the victim's body split in two Iron Chair The victim is tied to an iron armchair and pushed nearer and nearer to a blazing fire Sawn in Half Victims are secured in a standing position pinned between two wide boards fixed between a stake driven deep into the ground while two executioners one on each side would wield a long two handled saw downwards through the boards Execution is a unique fascinating look at the grim and gritty history of sanctioned death

The Psychology of Compassion and Cruelty Thomas G. Plante Ph.D., 2015-03-03 This thoughtful book brings together some of the best psychological and spiritual thinkers to ponder evidence based reflections about the development and nurturance of compassion In an effort to alter behavior scientists have conducted research to better understand the factors that contribute to both caring and cruel behavior among individuals and groups This uplifting volume reviews evidence collected from experts across disciplines and explains how certain psychological spiritual and religious factors spur compassion and deter cruelty The work extols the importance of religion and psychology as tools for better understanding and influencing behavior With deep reflection combined with research based insights the book considers the various avenues for creating kinder human beings Expert contributors examine empirical evidence to learn if engagement in particular activities results in benevolent behavior while chapters present the many ways in which kindness touches all aspects of life from racial harmony to child rearing to work environments Topics include exploring the healing effects of prayers and meditation integrating compassion into higher education and parenting with greater mindfulness and care

Monsters of Contact Mark van de Logt, 2018-06-21 A murderous whirlwind an evil child abducting witch woman a masked cannibal terrifying scalped men a mysterious man slaying flint creature the oral tradition of the Caddoan Indians is alive with monsters Whereas Western historical methods and interpretations relegate such beings to the realms of myth and fantasy Mark van de Logt argues in *Monsters of Contact* that creatures found in the stories of the Caddos Wichitas Pawnees and Arikaras actually embody specific historical events and the negative effects of European contact invasion war death disease enslavement starvation and

colonialism Van de Logt examines specific sites of historical interaction between American Indians and Europeans from the outbreaks and effect of smallpox epidemics on the Arikaras to the violence and enslavement Caddos faced at the hands of Hernando de Soto's expedition and Wichita encounters with Spanish missionaries and French traders in Texas In each case he explains how through Indian metaphor seemingly unrelated stories of supernatural beings and occurrences translate into real people and events that figure prominently in western U S history The result is a peeling away of layers of cultural values that for those invested in Western historical traditions otherwise obscure the meaning of such tales and their monsters Although Western historical methods have become the standard in much of the world van de Logt demonstrates that indigenous forms of history are no less valuable and that oral traditions and myths can be useful sources of historical information A daring interpretation of Caddoan lore *Monsters of Contact* puts oral traditions at the center of historical inquiry and in so doing asks us to reconsider what makes a monster

Blind Memory Marcus Wood, 2000 Throughout this important volume the author provides an invaluable addition to the limited literature now available on the visual images associated with slavery and abolition integrated into a sophisticated analysis of their meaning and legacy today of color images 150 illustrations

Who Killed Kit Marlowe?: A Contract to Murder in Elizabethan England M. J. Trow, Taliesin Trow, 2020-05-21 Kit Marlowe was the bad boy of Elizabethan drama His mighty line of iambic pentameter transformed the miracle plays of the Middle Ages into modern drama and he paved the way for Shakespeare and a dozen other greats who stole his metre and his ideas When he died stabbed through the eye in what appeared to be a tavern brawl in Deptford in May 1593 he was only 29 and many people believed that he had met his just deserts But Marlowe's death was not the result of a brawl And it did not take place in a tavern The facts tell a different story one involving intrigue espionage alchemy and the highest in the land Born the son of a shoemaker in Canterbury Marlowe read Theology at Corpus Christi College Cambridge and was destined for a career in Elizabeth I's new Church of England But in 1583 he moved to London and wrote dazzling new plays like *Dido Queen of Carthage* *Tamburlaine* the *Jew of Malta* and *Doctor Faustus* He was the Muse's darling all fire and air and the crowds flocked to his dramas at the Curtain the Theatre and the Rose But even before he left Cambridge Kit Marlowe was recruited into the dangerous and murky world of espionage perhaps by Nicholas Faunt secretary to the queen's spymaster Francis Walsingham The religious world was split between Catholic and Protestant and there was a price on the queen's head the pope himself had ordered the assassination of the English whore the Jezebel who had betrayed Catholicism Walsingham's efforts and those of intelligencers like Marlowe were all designed to keep the queen and her country safe Marlowe was a maverick a whistle blower with outspoken views on religion the government for which he worked and he was critical of the norms of behaviour Almost certainly homosexual at a time when that meant execution he claimed that Christ had a homosexual relationship with John the Baptist Or did he Was all that merely propaganda invented by the ever growing list of enemies building up by 1593 This book offers a different interpretation to the death in Deptford

Marlowe knew too much about the Privy Council the gang of four who effectively ran England under the queen He openly defied them in his last plays the Massacre at Paris and Edward II And they in turn were keen to destroy him His mouth must be stopped and stopped it was by a trio of agents operating at the highest level The brutal murder of a young playwright at the peak of his powers has intrigued and captivated for over 400 years This compelling journey through the evidence allows us to know for the first time who killed him

Individual Psychological Therapies in Forensic Settings Jason Davies, Claire Nagi, 2017-04-21 From the nothing works maxim of the 1970s to evidence based interventions to challenge recidivism and promote pro social behavior psychological therapy has played an important role in rehabilitation and risk reduction within forensic settings in recent years And yet the typical group therapy model isn't always the appropriate path to take In this important new book the aims and effectiveness of individual therapies within forensic settings both old and new are assessed and discussed Including contributions from authors based in the UK North America Europe Australia and New Zealand a broad range of therapies are covered including Cognitive Behavioural Therapy Mentalisation Based Therapy Schema Therapy Acceptance and Commitment Therapy and Compassion Focussed Therapy Each chapter provides an assessment of the evidence base for effectiveness the adaptations required in a forensic setting whether the therapy is aimed at recidivism or psychological change the client or patient characteristics it is aimed at a case study of the therapy in action The final section of the book looks at ethical issues the relationship between individual and group based treatment therapist supervision and deciding which therapies and therapists to select This book is essential reading for probation staff psychologists criminal justice and liaison workers and specialist treatment staff It will also be a valuable resource for any student of forensic or clinical psychology

Tyburn Alan Brooke, David Brandon, 2005-11-17 Tyburn is synonymous with the idea of execution The authors tell the story of how Tyburn came to be the place of execution and of the rituals and spectacle associated with the deaths of many people They provide a vivid picture of crime and punishment in London mixing martyrs pickpockets traitors and errant aristocrats

Lipstick on the Noose Geoffrey Abbott, 2003 From the Yorkshire Witch who was accused of murder when a potion for good health turned out to be fatal to the woman who survived the gallows and took her empty coffin away with her this book contains macabre true stories of executed women from around the world

The Big Book of Pain Mark P Donnelly, Daniel Diehl, 2012-01-31 For millennia mankind has devised ingenious and diabolical means of inflicting pain on fellow human beings This deplorable but seemingly universal trait has eaten away at mankind's very claim to civilisation Despite how repugnant the practice of torture appears to us today for at least 3 000 years it formed part of most legal codes throughout Europe and the Far East The Big Book of Pain is an exploration of the systematic use throughout the ages of various means of punishment torture coercion and torment It takes the reader into the Ancient Roman Coliseum the medieval dungeon the Inquisitional interrogation the auto da fe the witch trial and the worst of prisons It is a shocking and compelling study of the shameful methods and motives of the torturer and the executioner and of the heinous duty they

have performed through the ages Panopticon Ruxandra Cesereanu, 2006
