Rd Laing And Anti Psychiatry:

R. D. Laing & Anti-psychiatry Robert Boyers, 1971 **R.D. Laing and the Paths of Anti-psychiatry** Zbigniew Kotowicz, 1997 Zbigniew Kotowicz re examines Laing's work in the context of the anti psychiatry movement. He provides a much needed reassessment of his radical ideas and their significance for psychotherapy and psychiatry today **R. D. Laing & Anti-Psychiatry.** , 1971 The Divided Self R. D. Laing, 2010-01-28 The Divided Self R D Laing's groundbreaking exploration of the nature of madness illuminated the nature of mental illness and made the mysteries of the mind comprehensible to a wide audience. First published in 1960, this watershed work aimed to make madness comprehensible and in doing so revolutionized the way we perceive mental illness. Using case studies of patients he had worked with, psychiatrist R D Laing argued that psychosis is not a medical condition but an outcome of the divided self or the tension between the two personas within us: one our authentic private identity and the other the false, sane self that we present to the world. Laing's radical approach to insanity offered a rich existential analysis of personal alienation and made him a cult figure in the 1960s; yet his work was most significant for its humane attitude, which put the patient back at the centre of treatment. Includes an introduction by Professor Anthony S. David, one of the twentieth century's most influential psychotherapists. Guardian: Laing challenged the psychiatric orthodoxy of his time; an icon of the 1960s counter culture. The Times **Laing and Anti-psychiatry** Joseph Berke, 1975 **Psychiatry and Anti-Psychiatry** David Cooper, 2013-10-11 Tavistock Press was established as a co-operative venture between the Tavistock Institute and Routledge. Kegan Paul RKP in the 1950s to produce a series of major contributions across the social sciences. This volume is part of a 2001 reissue of a selection of those important works which have since gone out of print or are difficult to locate. Published by Routledge, 112 volumes in total are being brought together under the name The International Behavioural and Social Sciences Library Classics from the Tavistock Press. Reproduced here in facsimile, this volume was originally published in 1967 and is available individually. The collection is also available in a number of themed mini sets of between 5 and 13 volumes or as a complete collection.

Portrait of the Psychiatrist as a Young Man Allan Beveridge, 2011-08-25 RD Laing remains one of the most famous psychiatrists of the last 50 years. In the 1960s he enjoyed enormous popularity and received much publicity for his controversial views challenging the psychiatric orthodoxy. He championed the rights of the patient and challenged the often inhumane methods of treating the mentally ill. Based on a wealth of previously unexamined archives relating to his private papers and clinical notes, *Portrait of the Psychiatrist as a Young Man* sheds new light on RD Laing and in particular his early formative years, a crucial but largely overlooked period in his life. The first half of the book considers Laing's intellectual journey through the world of ideas and his development as a psychiatric theorist. An analysis of his notebooks and personal library reveals Laing's engagement not only with psychiatric theory but also with a wide range of other disciplines such as philosophy, literature and religion. This part of the book considers how this shaped Laing's writing about madness and his

evolution as a clinician The second half draws on a rich and completely unexplored collection of Laing's clinical notes which detail his encounters with patients in his early years as a psychiatrist firstly in the British Army subsequently in the psychiatric hospitals of Glasgow and finally in the Tavistock Clinic in London These notes reveal what Laing was actually doing in clinical practice and how theory interacted with therapy The majority of patients who were to appear in Laing's first two books *The Divided Self* and *The Self and Others* have been identified from these records and this volume provides a fascinating account of how the published case histories compare to the original notes There is a considerable mythology surrounding Laing partly created by himself and partly by subsequent commentators By a careful examination of primary sources Allan Beveridge both a psychiatrist and an historian examines the many mythological narratives about Laing and provide a critical but not unsympathetic account of this colourful and contradictory thinker who addressed questions about the nature of madness which are still being asked today This book will be of interest to mental health workers and social historians alike as well as anybody interested in the philosophy of psychiatry R.D. Laing Andrew Collier, 1977 R.D. Laing and Anti-Psychiatry. Or, The Basic Trouble of what it Means to Become a Human Being, 2012 *From Patients to Persons* Janet Vice, 1992 The role of psychiatric theory and practice has become increasingly controversial in contemporary society Both psychiatry's scientific status as a medical specialty and its moral legitimacy as a helping profession have been called into question by outstanding figures within the profession This original study examines the work of three leading critics of psychiatric theory and practice Thomas Szasz R D Laing and Peter Sedgwick from a specifically philosophical perspective The author argues that disagreements over the nature role and failures of psychiatry are traceable to philosophical disagreements over the meanings of personhood and community *From Patients to Persons* identifies the metaphysical and axiological assumptions at the heart of these disagreements In so doing it provides fresh evidence that philosophy plays a key role in the structure and evaluation of our medical social and political practices Laing and Anti-psychiatry Robert Boyers, Robert Orrill, 1973 *Contesting Psychiatry* Nick Crossley, 2006 Building on his extensive research the author explores the key social movements and organisations who have contested psychiatry and mental health in the UK between 1950 and 2000 **Antipsychiatry** Thomas Szasz, 2009-09-08 More than fifty years ago Thomas Szasz showed that the concept of mental illness a disease of the mind is an oxymoron a metaphor a myth Disease in the medical sense affects only the body He also demonstrated that civil commitment and the insanity defense the paradigmatic practices of psychiatry are incompatible with the political values of personal responsibility and individual liberty The psychiatric establishment's rejection of Szasz's critique posed no danger to his work its defense of coercions and excuses as therapy supported his argument regarding the metaphorical nature of mental illness and the transparent immorality of brutal psychiatric control masquerading as humane medical care In the late 1960s the launching of the so called antipsychiatry movement vitiated Szasz's effort to present a precisely formulated conceptual and political critique of the medical identity of

psychiatry Led by the Scottish psychiatrist R D Laing the antipsychiatrists used the term to attract attention to themselves and to deflect attention from what they did which included coercions and excuses based on psychiatric principles and power For this reason Szasz rejected and continues to reject psychiatry and antipsychiatry with equal vigor Subsuming his work under the rubric of antipsychiatry betrays and negates it just as surely and effectively as subsuming it under the rubric of psychiatry In Antipsychiatry Quackery Squared Szasz powerfully argues that his writings belong to neither psychiatry nor antipsychiatry They stem from conceptual analysis social political criticism and common sense **The Crucible of**

Experience Daniel Burston, 2000-05-19 One of the great rebels of psychiatry R D Laing challenged prevailing models of madness and the nature and limits of psychiatric authority In this brief and lucid book Laing's widely praised biographer distills the essence of Laing's vision which was religious and philosophical as well as psychological The Crucible of Experience reveals Laing's philosophical debts to existentialism and phenomenology in his theories of madness and sanity family theory and family therapy Daniel Burston offers the first detailed account of Laing's practice as a therapist and of his relationships often contentious with his friends and sometime disciples Burston carefully differentiates between Laing and Laingians who were often clearer more confident and more simplistic than their teacher While he examines Laing's theories of madness Burston focuses most provocatively on Laing's views of sanity and normality and on his recognition toward the end of his life of the essential place of holiness in human experience In a powerful last chapter Burston shows that Laing foresaw the present commercialization of medicine and asked pointed questions about what the meaning of sanity and the future of psychotherapy in such a world could be In this as in other matters Laing's questions of a generation ago remain questions for our time The Divided Self Ronald David Laing, 1969 Dr Laing's first purpose is to make madness and the

process of going mad comprehensible In this with case studies of schizophrenic patients he succeeds brilliantly but he does more through a vision of sanity and madness as degrees of conjunction and disjunction between two persons where the one is sane by common consent he offers a rich existential analysis of personal alienation The outsider estranged from himself and society cannot experience either himself or others as real He invents a false self and with it he confronts both the outside world and his own despair The disintegration of his real self keeps pace with the growing unreality of his false self until in the extremes of schizophrenic breakdown the whole personality disintegrates The Man Who Closed the Asylums John

Foot, 2023-08-01 When the wind of the 1960s blew through the world of psychiatry In 1961 when Franco Basaglia arrived outside the grim walls of the Gorizia asylum on the Italian border with Yugoslavia it was a place of horror a Bedlam for the mentally sick and excluded redolent of Basaglia's own wartime experience inside a fascist gaol Patients were frequently restrained for long periods and therapy was largely a matter of electric and insulin shocks The corridors stank and for many of the interned the doors were locked for life This was a concentration camp not a hospital Basaglia the new Director was expected to practise all the skills of oppression in which he had been schooled but he would have none of this The place had

to be closed down by opening it up from the inside bringing freedom and democracy to the patients the nurses and the psychiatrists working in that total institution Inspired by the writings of authors such as Primo Levi R D Laing Erving Goffman Michel Foucault and Frantz Fanon and the practices of experimental therapeutic communities in the UK Basaglia's seminal work as a psychiatrist and campaigner in Gorizia Parma and Trieste fed into and substantially contributed to the national and international movement of 1968 In 1978 a law was passed the Basaglia law which sanctioned the closure of the entire Italian asylum system The first comprehensive study of this revolutionary approach to mental health care *The Man Who Closed the Asylums* is a gripping account of one of the most influential movements in twentieth century psychiatry which helped to transform the way we see mental illness Basaglia's work saved countless people from a miserable existence and his legacy persists as an object lesson in the struggle against the brutality and ignorance that the establishment peddles to the public as common sense

Documentary Film and Radical Psychiatry Des O'Rawe, 2024-12-19 This book examines how documentary film responded to the methods and controversies associated with radical psychiatry especially during the long 1960s Broad in scope and comparative in approach it discusses a range of films in terms of how their production histories and visual styles were influenced by wider cultural technological and autobiographical factors The book argues that documentary filmmaking offers both an important critical perspective on psychiatric treatments institutions and attitudes as well as contributing to a critique of how normative modes of being are constructed across mainstream media and popular culture In their negotiations with the politics of psychiatry such films will often question the ethnographic and observational integrity of the documentary or non fiction form itself especially when it adopts diaristic interactive socially engaged and advocacy strategies to represent mental illness and healthcare provision The relationship between documentary film and the constellation of insights arguments communities and individuals associated with the moment of radical psychiatry remains a complex but indispensable legacy of the post war era

A Fragile Revolution Barbara Everett, 2000-06-16 Investigates the complex relationship between ex mental patients the government the mental health system and mental health professionals It also explores how changes in policy have affected that relationship creating new tensions and new opportunities Using qualitative interviews with prominent consumer and survivor activists Everett examines how consumers and survivors define themselves how they define mental illness and how their personal experience has been turned into political action

Basaglia's International Legacy Tom Burns, John Foot, 2020 Basaglia's International Legacy From Asylum to Community provides an overview of current thinking and the international influence of Franco Basaglia Examining his influence in Italy and beyond this book finds lessons in Basaglia's work which can be applied to contemporary international mental health services
