levels **Viltis** ,1960 **Afro-Mexico** Anita González,2010-12-01 While Africans and their descendants have lived in Mexico for centuries many Afro Mexicans do not consider themselves to be either black or African For almost a century Mexico has promoted an ideal of its citizens as having a combination of indigenous and European ancestry This obscures the presence of African Asian and other populations that have contributed to the growth of the nation However performance studies of dance music and theatrical events reveal the influence of African people and their cultural productions on Mexican society In this work Anita Gonz lez articulates African ethnicity and artistry within the broader panorama of Mexican culture by featuring dance events that are performed either by Afro Mexicans or by other ethnic Mexican groups about Afro Mexicans She illustrates how dance reflects upon social histories and relationships and documents how residents of some sectors of Mexico construct their histories through performance Festival dances and sometimes professional staged dances point to a continuing negotiation among Native American Spanish African and other ethnic identities within the evolving nation of Mexico These performances embody the mobile histories of ethnic encounters because each dance includes a spectrum of characters based upon local situations and historical memories **Mexicans in Alaska** Sara V.
