**Food in Medieval England** C. M. Woolgar, D. Serjeantson, T. Waldron, 2006-07-06 Food and diet are central to understanding daily life in the middle ages In the last two decades the potential for the study of diet in medieval England has changed markedly historians have addressed sources in new ways material from a wide range of sites has been processed by zooarchaeologists and archaeobotanists and scientific techniques newly applied to the medieval period are opening up possibilities for understanding the cumulative effects of diet on the skeleton In a multi disciplinary approach to the subject this volume written by leading experts in different fields unites analysis of the historical archaeological and scientific record to provide an up to date synthesis The volume covers the whole of the middle ages from the early Saxon period up to c 1540 and while

the focus is on England wider European developments are not ignored The first aim of the book is to establish how much more is now known about patterns of diet nutrition and the use of food in display and social competition its second is to promote interchange between the methodological approaches of historians and archaeologists The text brings together much original research marrying historical and archaeological approaches with analysis from a range of archaeological disciplines including archaeobotany archaeozoology osteoarchaeology and isotopic studies Jews and the Wine Trade in Medieval Europe Haym Soloveitchik,2024-05-03 Although Jews were at the centre of commercial activity in medieval Europe a talmudic ban on any wine touched by a Gentile prevented them from engaging in the lucrative wine trade Wine was consumed in vast quantities in the Middle Ages and the banks of the Rhineland hosted some of the finest vineyards in northern Europe German Jews were until the thirteenth century a merchant class How could they abstain from trading in one of the region s major commodities In time they ruled that it was permissible to accept wine in payment of debt but forbade trading in it and they maintained that ban throughout the Middle Ages Further study in the twelfth century however led Talmudists to discover that Jews were only forbidden to profit from trading in Gentile wine if they dealt with idolaters but that trade with Christians and Muslims was permitted Nevertheless the German community refused to take advantage of this clear licence Using Jewish and Gentile sources this study probes the sources of this powerful taboo In describing the complex ways in which deeply held cultural values affect Jews engagement in the economy of the surrounding society this book also illustrates the law of unintended consequences how the ban on Gentile wine led both to a major Jewish contribution to German viticulture and to the involvement of Jews in moneylending with all its tragic consequences *Mental (Dis)Order in Later Medieval Europe* ,2014-03-13 The boundaries between mental social and physical order and various states of disorder unexpected mood swings fury melancholy stress insomnia and demonic influence form the core of this compilation For medieval men and women religious rituals magic herbs dietary requirements as well as to scholastic medicine were a way to cope with the vagaries of mental wellbeing the focus of the articles is on the interaction and osmosis between lay and elite cultures as well as medical theological and political theories and practical experiences of daily life Time span of the volume is the later Middle Ages c 1300 1500 Geographically it covers Western Europe and the comparison between Mediterranean world and Northern Europe is an important constituent Contributors are Jussi Hanska Gerhard Jaritz Timo Joutsivuo Kirsi Kanerva Sari Katajala Peltomaa Marko Lamberg Iona McCleery Susanna Niiranen Sophie Oosterwijk and Catherine Rider A Cultural History of Food in the Medieval Age Massimo Montanari,2014-05-22 Europe was formed in the Middle Ages The merging of the traditions of Roman Mediterranean societies with the customs of Northern Europe created new political economic social and religious structures and practices Between 500 and 1300 CE food in all its manifestations from agriculture to symbol became ever more complex and integral to Europe s culture and economy The period saw the growth of culinary literature the introduction of new spices and cuisines as a result of trade and war the impact of the Black Death on

Food, Feasting and Table Manners in the Late Middle Ages Guillermo Alvar Nuño, 2023-12-01 This book offers a study of what and how people ate in the Iberian Peninsula between the twelfth and fifteenth centuries It has long been recognized that Mediterranean cultures attach great importance to communal meals and food cooked with great refinement However whilst medieval feasting in England France and Italy has been thoroughly studied Spain and Portugal have both been somewhat neglected in this area of study This volume analyses how medieval men of the Iberian Peninsula questioned themselves about different aspects deemed important in social feasting It investigates the acquisition of table manners and rhetorical skills the interaction between medicine and eating and the presence of food in literature and religion The book also shows how this shared society and culture as well as their attitude towards food connected them to a Western European tradition The book
