Regional Disparities In Nigerias Development Lessons And Challenges For The 21st Century:

Regional Disparities in Nigeria's Development Ebenezer O. Aka, 2000-03-29 One of the major concerns in international development today is the effectiveness of programs for promoting widespread socio economic growth in a country In *Regional Disparities in Nigeria s Development* Ebenezer Aka investigates whether planning programs have encouraged or hindered substantial socio economic development throughout Nigeria He provides an overview of the various development programs that have been implemented discussing their objectives strategies and performances as well as their implications for the 21st century He reveals that over time there has actually been a divergence rather than a convergence of regional disparities and inequalities which he meticulously analyzes from socio cultural economic political and administrative perspectives An indispensable resource for Nigerian policy makers this book will also interest social scientists who study international development

Information and Communication Technologies in Nigeria Patience Idaraesit Akpan-Obong, 2009 In recent years information and communication technologies ICTs have been linked with socioeconomic development with the assumption that they can be harnessed for economic growth in developing countries and facilitate integration into the global information society However very few studies in the ICT for development field examine the direct connections between ICTs and socioeconomic growth *Information and Communication Technologies in Nigeria Prospects and Challenges for Development* is a compelling account of the development of ICTs in Nigeria It examines the ICT policy framework and the societal context within which application of the technologies emerged and highlights the potentials of ICTs in socioeconomic development However this book also demonstrates through interviews and case studies that ICTs are not the panacea to underdevelopment constraining factors in different countries can limit their capacity to succeed The author employs a rare multidisciplinary approach that makes the book appealing and accessible to a diverse range of readership

Federalism and Economic Reform Jessica Wallack, Samuel C Park Jr Professor of Economics T N Srinivasan, T. N. Srinivasan, 2006-02-24 This book contains case studies of economic reform in eight developing and industrial federal countries Argentina Australia Brazil Canada China India Mexico and Nigeria It focuses on the way in which the division of authority between levels of government affects the policymaking process as well as how changes such as globalization and market oriented reform affect the way federal governments are organized

African Studies Review, 2004 *Women and Peacebuilding in Africa* Ladan Affi, Liv Tønnessen, Aili Mari Tripp, 2021 Even in the best of circumstances women are all too often excluded from formal peacemaking and peacebuilding processes and relegated to the sidelines as observers or limited to informal peacebuilding strategies Yet there is enormous potential in these strategies as women often strive to build bridges across political ethnic religious clan and other differences through alliances arising from common concerns around violence land access to resources and protection of their families and communities and address sources of conflict at both national and local levels Drawing on cutting edge research by scholars and women s rights activists in South Sudan Sudan

Algeria northern Nigeria and Somalia this book focuses on the consequences of the continuing exclusions of women from peace talks and from post conflict governance structures The case studies reveal how peacebuilding is gendered and why this matters in developing meaningful and sustainable approaches to peacebuilding Examining how women activists have made a difference through informal peacebuilding activities the contributors explore women s efforts to reshape the post conflict context by struggling for legislative and constitutional reforms and by advocating for political representation and political inclusion more generally within peacebuilding processes They also look at how women have pushed back against the conservative Islamist forces that today dominate much armed conflict in Africa Suggesting that women s formal participation in peace negotiations is vital in bringing about an end to conflict and preventing its resumption as well as the one of the most effective strategies this book will be essential reading for scholars and NGOs involved in development conflict resolution and peacebuilding Journal of African Development ,2008 *Nigerian Federalism in Crisis* Eberé Onwudiwe, Rotimi T.

Suberu, 2005 Democracy & Development ,2003 *Journal of Social Development in Africa* ,2000 *Africa and the Third Millennium* George Klay Kieh, 2008 There is a general consensus that Africa entered the 21st century plagued by multifaceted crises of underdevelopment This is evidenced by abject poverty the inadequacy of basic human needs environmental degradation and violent civil conflicts George Klay Kieh Jr argues that in order to reverse the negative effects of Africa s peripheral status the neo colonial state must be democratically reconstituted Once this has happened the foundations can be laid for government policies that address and fulfil basic human needs **International African Bibliography** ,2006

American Book Publishing Record ,2006 *G.K. Hall Interdisciplinary Bibliographic Guide to Black Studies* Schomburg Center for Research in Black Culture, 2000 *Emerging Global Cities* Alejandro Portes, Ariel C.

Armony, 2022-12-27 Certain cities most famously New York London and Tokyo have been identified as global cities whose function in the world economy transcends national borders Without the same fanfare formerly peripheral and secondary cities have been growing in importance emerging as global cities in their own right The striking similarity of the skylines of Dubai Miami and Singapore is no coincidence despite following different historical paths all three have achieved newfound prominence through parallel trends In this groundbreaking book Alejandro Portes and Ariel C Armony demonstrate how the rapid and unexpected rise of these three cities recasts global urban studies They identify the constellation of factors that allow certain urban places to become emerging global cities centers of commerce finance art and culture for entire regions The book traces the transformations of Dubai Miami and Singapore identifying key features common to these emerging global cities It contrasts them with global hopeful cities that at one point or another aspired to become global and analyzes how Hong Kong is threatened with the loss of this status Portes and Armony highlight the importance of climate change to the prospects of emerging global cities showing how the same economic system that propelled their rise now imperils their future *Emerging Global Cities* provides a powerful new framework for understanding the role of peripheral cities in the world

economy and how they compete for and sometimes achieve global standing
