Rector, PhD Rn-C, Kristine Warner, Kristine Warner, PhD MS MPH RN, 2013-04-26 Community Public Health Nursing is designed to provide students a basic grounding in public health nursing principles while emphasizing aggregate level nursing. While weaving in meaningful examples from practice throughout the text, the authors coach students on how to navigate between conceptualizing about a population focus while also continuing to advocate and care for individuals, families, and aggregates. This student-friendly, highly illustrated text engages students and, by doing so, eases students into readily applying public health principles along with evidence-based practice, nursing science, and skills that promote health, prevent disease, as well as protect at-risk populations. What the 8th edition of this text does best is assist students in broadening the base of their knowledge and skills that they can employ in both the community and acute care settings, while the newly enhanced ancillary resources offers interactive tools that allow students of all learning styles to master public health nursing.

*Monthly Catalog of United States Government Publications* United States. Superintendent of Documents, 1993. Productivity, Efficiency, and Economic Growth in the Asia-Pacific Region Jeong-Dong Lee, Almas Heshmati, 2008-09-20 Productivity growth is a keyword for sustainable economic growth in a knowledge-based society. There has been significant methodological development in the literature on productivity and efficiency analysis, e.g., SFA Stochastic Frontier Analysis and DEA Data Envelopment Analysis. All these methodological developments should be matched with applications in order to provide practical implications for private and public decision makers. This volume provides a collection of up-to-date and new applications of productivity and efficiency analysis. In particular, the case studies cover various economic issues in the Asia-Pacific region. The authors analyze the performance of manufacturing firms, banks, venture capital, broadcasting firms, as well as the issues of efficiency in the education sector, regional development, and defense industry. These case studies will shed light on the potential contribution of productivity and efficiency analysis to the enhancement of economic performance.
