Regional Identity And Behavior

Max Sugar

Regional Identity And Behavior:

Regional Identity and Behavior Max Sugar,2012-09-16 The author proposes that the four earliest British North American colonies in the United States promoted the development of distinct regional identities and that this cultural legacy affected identity development as well as behavioral patterns differently in each region He compares data from the North American colonies to the situation in England and discovers that the findings in the latter s eight standard regions are very similar to those in the United States

Regional Identity and Behavior Max Sugar,2012-12-06 The author proposes that the four earliest British North American colonies in the United States promoted the development of distinct regional identities and that this cultural legacy affected identity development as well as behavioral patterns differently in each region He compares data from the North American colonies to the situation in England and discovers that the findings in the latter s eight standard regions are very similar to those in the United States

The Foundations of Behavioral Economic Analysis Sanjit Dhami,2019-02-14 Taken from the first definitive introduction to behavioral economics The Foundations of Behavioral Economic Analysis Other Regarding Preferences is an authoritative and cutting edge guide to this essential topic for advanced undergraduate and postgraduate students It considers the evidence from experimental games on human sociality and gives models and applications of inequity aversion intention based reciprocity conditional cooperation human virtues and social identity This updated extract from Dhami s leading textbook allows the reader to pursue subsections of this vast and rapidly growing field and to tailor their reading to their specific interests in behavioural economics

Regional Behaviour Dimitrios C. Christopoulos,2018-02-06 This title was first published in 2001 In the framework of the EU a number of policies have been devised for regions in order to facilitate their balanced economic development The author argues that the focus on regional planners and their actions in academic literature has obscured the importance of regional elites in this process The author compares Western Scotland and the west of Crete focusing on the wider regional political and business elites within these regions and attempting a comparison of elite attitudes within regions and between regions

Autonomy, Enactivism, and Mental Disorder Michelle Maiese,2022-06-30 This book brings together insights from the enactivist approach in philosophy of mind and existing work on autonomous agency from both philosophy of action and feminist philosophy It then utilizes this proposed account of autonomous agency to make sense of the impairments in agency that commonly occur in cases of dissociative identity disorder mood disorders and psychopathy While much of the existing philosophical work on autonomy focuses on threats that come from outside the agent this book addresses how inner conflict instability of character or motivational issues can disrupt agency In the first half of the book the author conceptualizes what it means to be self governing and to exercise autonomous agency In the second half she investigates the extent to which agents with various forms of mental disorder are capable of exercising autonomy In her view many forms of mental disorder involve disruptions to self governance so that agents lack sufficient control over their intentional behavior or are unable to

formulate and execute coherent action plans However this does not mean that they are utterly incapable of autonomous agency rather their ability to exercise this capacity is compromised in important respects Understanding these agential impairments can help to deepen our understanding of what it means to exercise autonomy and also devise more effective treatments that restore subjects agency Autonomy Enactivism and Mental Disorder will be of interest to researchers and advanced students working in philosophy of mind philosophy of action philosophy of psychiatry and feminist philosophy

The Delaware Valley in the Early Republic Gabrielle M. Lanier, 2005-01-18 Gabrielle M Lanier challenges prevailing characterizations of the region as culturally monolithic and reassesses its role in the formation of a distinctly American identity through the history geography and architecture of three of the valley s diverse cultural landscapes Through narratives of individual lives aggregate data from tax rolls and censuses archival research and close analysis of the built vernacular environment Lanier examines the unique ethnic class and religious constitution of each subregion as well as its racial diversity political orientation economic organization and cultural imprint on the landscape Jacket

National-regional Impact Evaluation System Kenneth P. Ballard, Richard D. Gustely, Robert M. Wendling, 1980

Culture and Tourism in a Smart, Globalized, and Sustainable World Vicky Katsoni, Ciná van Zyl, 2021-06-21 This book gathers the proceedings of the 7th International Conference with the theme Culture and Tourism in a Smart Globalized and Sustainable World held on Hydra Island Greece on June 17 19 2020 published with the support of the International Association of Cultural and Digital Tourism Highlighting the contributions made by numerous writers to the advancement of tourism research this book presents a critical academic discourse on sustainable practices in the smart tourism context improving readers understanding of and stimulating future debates in this critical area In addition to the knowledge economy and the concept of smart destinations the book addresses new modes of tourism management and development as well as emerging technologies including location based services the Internet of things smart cities mobile services gamification digital collections and the virtual visitor social media social networking and augmented reality

Dimensions of Human Behavior Elizabeth D. Hutchison, Leanne Wood, 2024-02-16 Dimensions of Human Behavior The Changing Life Course

presents a current and comprehensive examination of human behavior across time using a multidimensional framework The Seventh Edition offers fresh insights into concepts like gender and anti racism how intergenerational experiences influence development and recent research and conceptual frameworks

Issues of Regional Identity Edward Royle, 1998 As regionalism assumes new importance in Britain and throughout the EU this work brings together historians and geographers to offer regional perspectives on Britain that avoid both the traditional parochialism of local history and the generalizations of a national approach

Region, Regional Identity and Regionalism in Southeastern Europe Klaus Roth, 2008 Southeastern Europe is often portrayed as an area plagued by endemic nationalisms a view that seems to be confirmed by the break up of Yugoslavia However a closer look shows that the nation is not the only territorial unit of identification Regions play an

important role as well especially those that look back on traditions that differ from those of the national state Thus the end of socialism also brought forward regional movements which articulated opposition to the dominance of the centralized state These developments are furthered by the integration into the European Union whose policy of a Europe of the Regions demands strong regional centres for the administration of structural funds and for the empowerment of the regions The contributions to this volume address the dynamics of regions regionalism and regional identities in present Southeast Europe but also look into the history of individual regions They provide ample material for understanding the complex nature of territorial identification in this rapidly changing part of Europe

Regional Identity and Economic Change

Tom Scott,1997 The current debate about the best methods of European organization central or regional is influenced by an awareness of regional identity which offers an alternative to the rigidities of organization by nation state Yet where does the sense of regionalism come from What are the distinctive factors that transform a geographical area into a particular region Tom Scott addresses these questions in this study of one apparently natural region the Upper Rhine between 1450 and 1600 This region has been divided between three countries and so historically marginalized yet Dr Scott is able to trace the existence of a sense of historical regional identity cutting across national frontiers founded on common economic interests But that identity was always contingent and precarious neither natural nor immutable

Social Networks and Regional Identity in Bronze Age Italy

Emma Blake,2014-08-11 This book takes an innovative approach to detecting regional groupings in peninsular Italy during the Late Bronze Age a notoriously murky period of Italian prehistory Applying social network analysis to the distributions of imports and other distinctive objects Emma Blake reveals previously unrecognized exchange networks that are in some cases the precursors of the named peoples of the first millennium BC the Etruscans the Veneti and others In a series of regional case studies she uses quantitative methods to both reconstruct and analyze the character of these early networks and posits that through path dependence the initial structure of the networks played a role in the success or failure of the groups occupying those same regions in later times This book thus bridges the divide between Italian prehistory and the Classical period and demonstrates that Italy's regionalism began far earlier than previously thought

The Role of Place Identity in the Perception, Understanding, and Design of Built Environments

Hernan Casakin,Fátima Bernardo,2012 In an era of globalization where the progressive deterioration of local values is a dominating characteristic identity is seen as a fundamental need that encompasses all aspects of human life One of these identities relates to place and the physical environment

The United States and Northeast Asia

G. John Ikenberry,Chung-in Moon,2007-12-24 Since World War II the United States has played a crucial role in shaping Northeast Asian politics and economics However as this authoritative book shows the Cold War's demise September 11 and America's major strategic realignments have unleashed seismic changes in the region China's rise Japan's quest for a normal state and the North Korean nuclear quagmire are also potential flashpoints Collective memories of past aggression as well as resurgent

nationalism further complicate regional dynamics But hopeful signs abound as deepening economic interdependence expanding social and cultural exchanges and the proliferation of informal economic social and cultural networks have improved the chances for a peaceful evolution to a liberal and stable region Contributions by Vinod K Aggarwal Paul Bacon Avery Goldstein G John Ikenberry Takashi Inoguchi Ki Jung Kim Myongsob Kim Woosang Kim Yongho Kim Min Gyo Koo Michael Mastanduno Chung in Moon Katharine H S Moon Seung won Suh and William C Wohlforth **Conservation**

Psychology Susan Clayton, Gene Myers, 2011-09-19 This textbook introduces the reader to the new and emerging field of Conservation Psychology which explores connections between the study of human behavior and the achievement of conservation goals People are often cast as villains in the story of environmental degradation seen primarily as a threat to healthy ecosystems and an obstacle to conservation But humans are inseparable from natural ecosystems Understanding how people think about experience and interact with nature is crucial for promoting environmental sustainability as well as human well being The book first summarizes theory and research on human cognitive emotional and behavioral responses to nature and goes on to review research on people s experience of nature in wild managed and urban settings Finally it examines ways to encourage conservation oriented behavior at both individual and societal levels Throughout the authors integrate a wide body of published literature to demonstrate how and why psychology is relevant to promoting a more sustainable relationship between humans and nature **"Conflict-Free" Socio-Economic Systems** Elena G.

Popkova, 2019-07-04 This book analyses the role of crisis or conflicts within socio economic systems and advocates the concept of a conflict free system as the landmark of global economic development **The Taste of Colombia** Antonio Montaña, 1997 It is hard to find a corner of the world where celebrations are not linked to food in one way or another Sharing a meal cooking special dishes and eating symbolic foods are rituals almost inadvertent ones that are present in all cultures and that make up the gamut of what is known as culinary specialties or ethnic food This 224 page book is a complete tour through Colombian cuisine illustrated with 199 exceptional color photographs by Hans Doring that enable us to appreciate the succulent appearance of each dish and of its various ingredients Due to Colombia s geographical and cultural variety this country has a vast culinary repertoire that is deep rooted in its history the native Indian and the Spaniard traditions finely seasoned at times by a pinch of African and by the various influences of immigration This book is a treasure chest of more than 133 recipes from the diverse regions of Colombia described with just the right amount of detail to obtain a perfect meal

Rock Art and Regional Identity Jamie Hampson, 2016-06-16 Why did the ancient artists create paintings and engravings What did the images mean This careful study of rock art motifs in the Trans Pecos area of Texas and a small area in South Africa demonstrates that there are archaeological and anthropological ways of accessing the past in order to investigate and explain the significance of rock art motifs Using two disparate regions shows the possibility of comparative rock art studies and highlights the importance of regional studies and regional variations This is an ideal resource for

students and researchers *Tōhoku Unbounded: Regional Identity and the Mobile Subject in Prewar Japan* Anne Giblyn Gedacht, 2022-11-28 In 1870 a prominent samurai from Tōhoku sells his castle to become an agrarian colonist in Hokkaidō. Decades later a man also from northeast Japan stows away on a boat to Canada and establishes a salmon roe business. By 1930 an investigative journalist travels to Brazil and writes a book that wins the first ever Akutagawa Prize. In the 1940s residents from the same area proclaim that they should lead Imperial Japan in colonizing all of Asia. Across decades and oceans these fractured narratives seem disparate but show how mobility is central to the history of Japan's Tōhoku region, a place often stereotyped as a site of rural stasis and traditional immobility, thereby collapsing boundaries between local, national, and global studies of Japan. This book examines how multiple mobilities converge in Japan's supposed hinterland. Drawing on research from three continents, this monograph demonstrates that Tōhoku's regional identity is inextricably intertwined with Pacific migrations.

Reviewing **Regional Identity And Behavior**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence. Its capacity to evoke emotions, stimulate contemplation, and stimulate metamorphosis is really astonishing. Within the pages of "**Regional Identity And Behavior**," an enthralling opus penned by a highly acclaimed wordsmith, readers attempt an immersive expedition to unravel the intricate significance of language and its indelible imprint on our lives. Throughout this assessment, we shall delve into the book's central motifs, appraise its distinctive narrative style, and gauge its overarching influence on the minds of its readers.
