Regional Ministers Power And Influence In The Canadian Cabinet:

Cabinets and First Ministers Graham White, 2011-11-01 What place do first ministers and their cabinets have in democratic life in Canada Has cabinet become a prime ministerial focus group Do political staff and central agency bureaucrats enhance or diminish democracy Do private members have any say in the cabinet process Graham White renders a clear account of the development structure and operation of cabinet and the role of first ministers at the federal provincial and territorial levels He discusses how the processes that support cabinet are affected by the considerable power of the first minister and looks at the ways in which they permit the involvement of other elected members and the public Taking the view that characterizing our Westminster style government is an oversimplification White examines first ministers and cabinets in terms of accountability and transparency and proposes realistic improvements to this aspect of Canadian democracy

The Guardian Institute of Public Administration of Canada, 2011-01-01 Finance departments have often been portrayed as guardians of the public purse In The Guardian a multidisciplinary group of contributors examines the Ministry of Finance of Ontario since the Second World War During the last sixty years the Ministry was transformed from a relatively small Treasury to a sophisticated policy machine What started as a modest bookkeeping operation evolved into a key bureaucratic and policy agency as the government of Ontario assumed a leadership position in developing the province These essays reveal Ontario's finance as a dynamic policy issue shaped by the personalities of premiers and ministers the energies of public servants at all levels and a critical dialogue between political and administrative worlds Drawing on different methodologies this collection profiles a ministry as policy entrepreneur spender revenue generator capacity builder budget director program manager and intergovernmental agent The Guardian fills a significant gap in public administration literature and in so doing describes how Ontario's Ministry of Finance defined its role as guardian

Federalism Jennifer Smith, 2004 In a world where federal states seem to exist precariously politicians and academics from around the globe continue to look to Canada as a model of federalism And yet our own system of organization and governance also appears strained Quebec nationalism First Nations claims the regionalization of party politics and the uneven and shifting delivery of essential services have all altered the face of federal politics Federalism explains how Canada came to be a federation what reasons there were for it and against it historically what the challenges to federalism currently are and how we might fortify some areas of weakness in the federal system Jennifer Smith argues that federalism is part of the democratic problem now however reformed it can be part of the solution Since theorists disagree on the democratic credentials of federalism it is essential to look at how a real federal system operates Smith examines the origins of Canadian federalism and its special features then analyzes it in relation to the benchmarks of the Canadian Democratic Audit project responsiveness inclusiveness and participation Finding that Canadian federalism falls short on each benchmark she recommends changes ranging from virtual regionalism to a Council of the Federation that includes Aboriginal representatives Democracy is about more than the House of Commons or elections It is also about federalism This sparkling account of Canadian federalism is a must read for students and scholars of Canadian politics politicians and policymakers and those who care about Canadian democracy

Reforming Fiscal Federalism for Global Competition Paul Boothe, 1996-10 Proceedings of a conference held in Edmonton in October 1995 Canada: The State of the Federation

2015 John R. Allan, David L.A. Gordon, Kyle Hanniman, André Juneau, 2018-05-31 Renewing and expanding national infrastructure is critical to the wellbeing and productivity of Canadians and is one of the foremost challenges confronting our federal provincial and municipal governments Not only are the required investments dauntingly large for all three levels of government but so too is the required level of intergovernmental cooperation if our goals are to be realized The 2015 State of the Federation volume advances our understanding of these infrastructure challenges and identifies how best to resolve them The contributors to the volume provide historical or international comparative perspectives and utilize legal economic or administrative approaches to examine the nature and magnitude of the so called infrastructure deficit and the question of

how best to finance the necessary investments The possible roles played by deficits and debt are considered together with options such as public private partnerships and asset recycling and a possible Aboriginal resource tax to finance the on reserve infrastructure needs of First Nations Considerable attention is also paid to pricing the use of infrastructure both to achieve efficiency in use and to avoid excess demand and an exaggerated perception of the required level of investment Other contributors examine the infrastructure investment decision processes at the federal and provincial levels and consider the optimal allocation of responsibility for infrastructure investments among the different levels of government and the related issue of the role of intergovernmental transfers to underwrite this allocation
