Regulating Religion Case Studies From Around The Globe Critical Issues In Social Justice:

Regulating Religion James T. Richardson, 2012-12-06 Regulating Religion Case Studies from Around the Globe presents through the inclusion of contributions by international scholars a global examination of how a number of contemporary societies are regulating religious groups. It focuses on legal efforts to exert social control over such groups especially through court cases but also with selected major legislative attempts to regulate them. As such this analysis falls within the broad area of the sociology of social control and more specifically legal social control a topic of great interest when studying how contemporary societies attempt to maintain social order. The factual details about social and legal developments in societies where religion has been defined as problematic include Western and Eastern Europe Asia Oceania and the Americas. This book will be of interest to researchers and students in the sociology of religion the sociology of law social policy and religious studies as well as policy makers.

Regulating Religion James T. Richardson, 2003 Regulating Religion James T. Richardson, 2003-12-01 Theory, Justice, and Social Change Christopher R. Williams, Bruce A. Arrigo, 2012-09-22

Throughout history social and intellectual crises have given rise to compelling suggestions for reform steeped in various progressive sensibilities. For example within the discipline of criminology particularly during the 1980 s and 1990 s a number of unconventional theoretical perspectives emerged that sought to challenge many of the assumptions embedded within its own mainstream discourse and to propose alternative solutions for meaningful sustainable change. Conceived of as critical in overarching orientation these efforts to rethink the foundations of criminological verstehen can be traced to several specific theoretical and methodological strands of inquiry e.g. anarchism peacemaking chaos theory postmodernism. Though distinct in some respects these emerging models are linked paradigmatically by their shared discontent with conventional criminological thought and by their radicalized posture toward existing and previously unexamined epistemic crises. Collectively this is an agenda for reform that seeks to establish a more humane and just social order particularly as citizens and society confront the institutional and communal problems posed by crime delinquency and deviance.

Theory Justice and Social Change Theoretical Integrations and Critical Applications represents a provocative series of essays that systematically reviews or extends the role of critical social theory in fostering justice and change in several relevant though problematic social contexts. Mindful of the need to address both conceptual exegeses and pragmatic concerns the articles contained in this volume grapple with the ongoing double crisis that confronts theory and practice in the construction of knowledge. By appropriating and integrating various insights from several heterodox and critically animated lines of inquiry each chapter deftly exposes where and how conventional sociological and criminological thought has failed to effectively address such human social issues as homelessness mental illness minority rights juvenile justice global violence and criminal punishment. In doing so Theory Justice and Social Change provides new and much needed direction regarding theory development in the social sciences and indicates why charting such a course of theory action yields more enlightened prospects for justice and

Life Advice from Below Eric C. Hendriks,2017-07-03 In *Life Advice from Below* Eric C Hendriks offers the first systematic comparative study of the globalization of American style self help culture and the cultural conflicts this creates in different national contexts The self help guru is an archetypical American figure associated with individualism materialism and the American Dream Nonetheless the self help industry is spreading globally thriving in China and other seemingly unlikely places Controversy follows in its wake as the self help industry operating outside of formal education and state institutions outflanks philosophical religious and political elites who have their own visions of the Good Life Through a comparison of Germany and China Hendriks analyzes how the competition between self help gurus and institutional authorities unfolds under radically different politico cultural regimes This witty book charms its way through a very serious sociology of the seriously quirky field of self help books Read it for its fascinating pop culture insights and you ll come away with a deep understanding of contemporary sociological theory Highly recommended Salvatore Babones University of Sydney Hendriks finding that Germany rather than China is more resistant to self help gurus offers a powerful corrective to the assumption in much of the globalization literature that the greatest cultural divide is between the Anglo

Western European sphere and the rest of the globe Rodney Benson New York University **Religious Accommodation and its Limits** Farrah Raza, 2023-04-20 On what grounds should religious accommodation claims be limited When do religious claims harm the autonomy of others This book proposes an original model of religious accommodation which can be applied in secular liberal democracies where religious diversity has been a hotly contested issue Addressing the complex question of limitations to the right to Freedom of Religion or Belief and how these limitations might be determined it examines how religious claims can harm the autonomy of others and emphasises the need for an appropriate balancing of competing interests Drawing on a range of case study examples from jurisdictions including the US Canada the European Court of Human Rights the European Union's Court of Justice the UK Germany and France this is a timely contribution to the debate on how a legal duty or policy approach in favour of religious accommodation can be applied in practice Moreover the proposed model offers criteria that may be used to guide the implementation of equality and diversity policies in contexts such as employment and education The book will be of interest to academics legal practitioners and policy makers in the field

American Book Publishing Record, 2005 *Regulating Religion in Asia* Jaclyn L. Neo, Arif A. Jamal, Daniel P. S. Goh, 2019-03-28 Examines how law regulates religion and explores the influence of world religions on the legal systems in Asia including how religion responds to such regulations It looks at underlying norms influencing state regulation of religion and the challenges emerging from such regulation **Religion, Rights and Secular Society** Peter Cumper, Tom Lewis, 2012-01-01 Religion Rights and Secular Society by Peter Cumper and Tom Lewis is a both timely and important publication In a series of highly interesting and well written essays some of which are case studies covering many different European nations whereas others are more theoretical the book looks at a key paradox in contemporary Europe the relatively high levels of secularity in most European countries on the one hand and the marked resurgence of religion in public debates on the other While never pretending that there are ready answers to the problems of reconciling secular and religious values in Europe the contributors make it quite clear that Europeans need to return to questions about religion that they had previously regarded as being settled This is food for thought at a very high level Helle Porsdam University of Copenhagen Denmark This topical collection of chapters examines secular society and the legal protection of religion and belief across Europe both in general and more nation specific terms The expectations of many that religion in modern Europe would be swept away by the powerful current of secularization have not been realised and today few topics generate more controversy than the complex relationship between religious and secular values The religious secular relationship is examined in this book which brings together scholars from different parts of Europe and beyond to provide insights into the methods by which religion and equivalent beliefs have been and continue to be protected in the legal systems and constitutions of European nations The contributors chapters reveal that the oft tumultuous legacy of Europe's relationship with religion still resonates across a continent where legal political and social contours have been powerfully shaped by faith and religious difference

Covering recent controversies such as the Islamic headscarf and the presence of the crucifix in school class rooms this book will appeal to academics and students in law human rights and the social sciences as well as law and policy makers and NGOs in the field of human rights

Proselytizing and the Limits of Religious Pluralism in Contemporary Asia

Juliana Finucane, R. Michael Feener, 2013-10-21 This volume brings together a range of critical studies that explore diverse ways in which processes of globalization pose new challenges and offer new opportunities for religious groups to propagate their beliefs in contemporary Asian contexts Proselytizing tests the limits of religious pluralism as it is a practice that exists on the border of tolerance and intolerance The practice of proselytizing presupposes not only that people are freely choosing agents and that religion itself is an issue of individual preference At the same time however it also raises fraught questions about belonging to particular communities and heightens the moral stakes involved in such choices In many contemporary Asian societies questions about the limits of acceptable proselytic behavior have taken on added urgency in the current era of globalization Recognizing this the studies brought together here serve to develop our understandings of current developments as it critically explores the complex ways in which contemporary contexts of religious pluralism in Asia both enable and are threatened by projects of proselytization
