Francois Brocard**

Regulating Football Commodification Commercialisation And The Law:

Regulating Football Steve Greenfield, Guy Osborn, 2001-06 Football in Europe has undergone massive changes over the last decade *Regulating Football* gets behind the headlines to look at the impact of ever increasing commercialisation and the commodification of football The essence of the book is football as it is played refereed managed bought sold and consumed the authors capture the life and action of the game as seen from the perspective of the numerous participants and place these experiences within a sociological economic and legal context which reflects the increasing commodification of the sport Exploring the ways in which the game is regulated the authors question whether we have reached the point where commercial issues have superseded the club and even the game of football itself The role of players agents officials governing bodies and the media are all explored The authors pay attention to levels of violence both on and off the field in both the professional and amateur forms of the game Racism in the game is also surveyed with particular emphasis placed on efforts to combat racism on and off the pitch

Regulating Football Steve Greenfield, Guy Osborn, 2001-05-20 Football in Europe has undergone massive changes over the last decade *Regulating Football* gets behind the headlines to look at the impact of ever increasing commercialisation and the commodification of football The essence of the book is football as it is played refereed managed bought sold and consumed the authors capture the life and action of the game as seen from the perspective of the numerous participants and place these experiences within a sociological economic and legal context which reflects the increasing commodification of the sport Exploring the ways in which the game is regulated the authors question whether we have reached the point where commercial issues have superseded the club and even the game of football itself The role of players agents officials governing bodies and the media are all explored The authors pay attention to levels of violence and racism both on and off the field in both the professional and amateur forms of the game **The Global**

Politics of Sport Lincoln Allison, 2005 Sport presents one of the most advanced cases of globalisation arguably because there are fewer cultural and political obstacles to the development of trade and international power in sport than there are in other fields Thus there has been a change in the nature of the politics of sport since the end of the Cold War the subject must be rewritten to acknowledge a twenty first century world in which international sporting organisations and transnational corporations have become far more important than states The Global Politics of Sport presents a range of essays examining the emerging global political issues in twenty first century sport including The role and power of organisations such as FIFA and the IOC The influence of US exceptionalism The construction of global sports heroes Tensions developing within traditionally alternative sports in a global commercial culture The Global Politics of Sport presents new and fresh exploration of different conceptions of sport as a purely commercial activity and as an activity as embodying higher social and ethical values *Routledge Handbook of Football Studies* John Hughson, Kevin Moore, Ramón Spaaij, Joseph Maguire, 2016-10-04

Football is unquestionably the world's most popular and influential sport There is no corner of the globe in which the game is

not played or followed More countries are affiliated to FIFA football's governing body than to the United Nations The sport has therefore become an important component of our social cultural political and economic life The Routledge Handbook of Football Studies is a landmark work of reference going further than any other book in considering the historical and contemporary significance of football around the world Written by a team of leading sport scholars the book covers a broad range of disciplines from history sociology politics and business to philosophy law and media studies The central section of the book examines key themes and issues in football studies such as the World Cup and international competition governance and ownership fandom and celebrity The concluding section offers in depth surveys of the culture and organisation of football in each of the regional confederations from UEFA to CONCACAF This book will be fascinating reading for any serious football fan and an essential resource for advanced students or scholars undertaking research in football or sport studies and any practitioner or policy maker working in football

Football and Supporter Activism in Europe Borja García, Jinming Zheng, 2017-09-12 This book is the first to explore and compare football governance fandom culture and supporter engagement in Europe With a specific focus on supporter activism and campaigning the collection provides a comparative study of several European countries The authors argue that supporters despite being the pillar or the lifeblood of their club see their role in football governance marginalised The volume is unique in that it challenges the widely accepted assumption that membership football clubs encourage the democratic participation of supporters Covering football fandom in both the traditional big five leagues and non big five countries such as Portugal Turkey Croatia Poland and Czech Republic the volume will be of interest to students and scholars across a range of disciplines including sociology history sport management sport governance and political science

Football Supporters and the Commercialisation of Football Peter Kennedy, David Kennedy, 2014-07-16 As football clubs have become luxury investments their decisions increasingly mirror those of any other business organisation Football supporters have been encouraged to express their club loyalty by thinking business acting as consumers and generating money deemed necessary for their clubs to compete at the highest levels In critical studies supporters have been portrayed as passive or reluctant consumers who imprisoned by enduring club loyalties embody a fatalistic attitude to their own exploitation As this book aims to show however such expressions of loyalty are far from hegemonic and often interface haphazardly with traditional ideas about what constitutes the loyal fan While there is little doubt that professional football is experiencing commodification the reality is that football clubs are not simply businesses nor can they ever aspire to be organisations driven solely by expanding or protecting economic value Rather clubs hover uncertainly between being businesses and community assets Football Supporters and the Commercialisation of Football explores the implications of this uncertainty for understanding supporter resistance to and compromise with commodification Every club and its supporters exist in their own unique national and local contexts In this respect this book offers a Euro wide comparison of supporter reactions to commercialisation and provides unique insight into how football supporters

actively mediate regional local and national contexts as they intersect with the universalistic presumptions of commerce This book was previously published as a special issue of Soccer and Society Forthcoming Books Rose Arny,2000 The Organisation and Governance of Top Football Across Europe Hallgeir Gammelsæter,Benoit Senaux,2011-07-07 This book aims to provide an extensive overview of how football is organized and managed on a European level and in individual European countries and to account for the evolution of the national international and transnational management of football over the last decades **Sports Law in the European Union** Andrea Cattaneo,Richard Parrish,2020-09-22 Derived from the renowned multi volume International Encyclopaedia of Laws this practical analysis of sports law in the European Union deals with the regulation of sports activity by both public authorities and private sports organizations The growing internationalization of sports inevitably increases the weight of global regulation yet each country maintains its own distinct regime of sports law and its own national and local sports organizations Sports law at a national or organizational level thus gains a growing relevance in comparative law The book describes and discusses both state created rules and autonomous self regulation regarding the variety of economic social commercial cultural and political aspects of sports activities Self regulation manifests itself in the form of by laws and encompasses organizational provisions disciplinary rules and rules of play However the trend towards more professionalism in sports and the growing economic social and cultural relevance of sports have prompted an increasing reliance on legal rules adopted by public authorities This form of regulation appears in a variety of legal areas including criminal law labour law commercial law tax law competition law and tort law and may vary following a particular type or sector of sport It is in this dual and overlapping context that such much publicized aspects as doping sponsoring and media and responsibility for injuries are legally measured This monograph fills a gap in the legal literature by giving academics practitioners sports organizations and policy makers access to sports law at this specific level Lawyers representing parties with interests in the European Union will welcome this very useful guide and academics and researchers will appreciate its value in the study of comparative sports law Sports Law Simon Gardiner,Roger Welch,Simon Boyes,Urvashi Naidoo,2012-03-12 Long established as the market leading textbook on sports law this much anticipated new edition offers a comprehensive and authoritative examination of the legal issues surrounding and governing sport internationally Locating the legal regulation of sport within an explicit socio economic context this refocused edition is divided into four core parts Governance Commercial Regulation Sports Workplace and Safety in Sport Recent developments covered in this edition include EU competition law interaction with sport under arts 101 and 102 of the Treaty on the Functioning of the European Union the current World Anti Doping Agency code analysis of the recent Court of Arbitration for Sport Jurisprudence reforms of the transfer system in team sports anti discrimination provisions in sport engagement with match fixing a focus on the legal context of 2012 London Olympics Essential reading for students studying sports law or sports related courses this textbook will also prove useful to sports law practitioners and sports administrators in need of a

clear companion to the field *Sports Law* Mark James, 2017-04-26 This textbook provides a comprehensive overview of the ways in which the law has impacted on how sport is played administered and consumed The author writes in a clear and engaging manner tracing the origins and sources of this rapidly evolving subject and drawing examples from a wide range of professional and amateur sports to illustrate the important current debates and topics of interest The book covers a wide range of topics from participant and non participant liability fighting sports and their legality and liability for stadium safety and disasters The final section of the book takes in the very latest developments in mass event sport and the growing but fundamental area of sports commercialisation New to this Edition Fully updated and includes analyses of the Pechstein and Sharapova decisions Includes details on the state aid rulings on financial support for Spanish and Dutch football clubs The author includes a review of the Rio 2016 Olympics Sports Agents and Labour Markets Giambattista Rossi, Anna Semens, Jean Francois Brocard, 2016-06-10 The sports agent has become a highly significant figure in contemporary sport business The role of the agent is essential to our understanding of labour markets and labour relations in an increasingly globalised sports industry Drawing on extensive empirical research into football around the world this book explains what agents do how their role has changed and why this is important for future sport business Offering analysis from economic legal social and historical perspectives the book explores key topics such as the history of sports agents including the emergence of the modern agent in US sport typologies and demographic profiles of agents in football valuations and organisational analysis of leading European agents and agencies relations between agents and clubs future directions for research into sports agents Focusing on the major European leagues this book goes further than any other in illuminating an important but under researched aspect of contemporary sport business It is a valuable resource for any student researcher or policy maker with an interest in sport business sport management sport policy the economics of sport or labour economics

Governing the Society of Competition Martin Hardie, 2020-10-29 This book considers the manner in which the making and implementation of law and governance is changing in the global context It explores this through a study of the deployment of the global anti doping apparatus including the World Anti Doping Code and its institutions with specific reference to professional cycling a sport that has been at the forefront of some of the most famous doping cases and controversies in recent years Critically it argues that the changes to law and governance are not restricted to sport and anti doping but are actually inherent in broader processes associated with neoliberalism and social and behavioural surveillance and affect all aspects of society and its political institutions The author engages with concepts and arguments in contemporary social theory including Dardot and Laval on neoliberalism Agamben on sovereignty Hardt and Negri on globalisation and others including Foucault Deleuze and Guattari and Louis Dumont The work seeks to answer a question posed by both Foucault and Agamben that is given the growing primacy of the arts of government what is the juridical form and theory of sovereignty that is able to sustain and found this primacy It is argued that this question can be understood by

reference to the shift from a social or public contract that was understood to be the foundation of society to a society that is constituted by consent private agreement and contract In addition the book examines the juridical concepts of the rule of law and sovereignty Commencing with the Festina scandal of 1998 the Spanish case of Operaci n Puerto and concluding with the fall from grace of the American cyclist Lance Armstrong in 2012 the principal processes examined include The increasing crossing of the borders between different legal regimes whether supranational or simply particularised and with it the erosion of what we knew as state sovereignty and constitutionalism The increasing use of judgment achieved through the media and how this arrives at new configurations of moral panic and scapegoating The creation of a need for rapid outcomes at the expense of the modernist value or version of the rule of law The increasing use of new and alternative methods of guilt proof and ultra legal detection **Assembling Consumption** Robin Canniford,Domen Bajde,2015-09-16 Assembling

Consumption marks a definitive step in the institutionalisation of qualitative business research By gathering leading scholars and educators who study markets marketing and consumption through the lenses of philosophy sociology and anthropology this book clarifies and applies the investigative tools offered by assemblage theory actor network theory and non representational theory Clear theoretical explanation and methodological innovation alongside empirical applications of these emerging frameworks will offer readers new and refreshing perspectives on consumer culture and market societies This is an essential reading for both seasoned scholars and advanced students of markets economies and social forms of consumption **Law and Sport in Contemporary Society** Steven Greenfield,Guy Osborn,2013-05-13 As the

commercialization of sport grows the need for proper regulation increases In legal terms sport is part of the entertainment and media industries which are subject to rapid change This work brings together experts in many fields to analyze these changes and to discuss the implications of issues such as the BSkyB Manchester United case civil and criminal actions on the playing field the Bosman ruling drugs in sport the legality of boxing and the validity of decisions made by governing bodies This collection should appeal to students of both sports history and sports sociology **Law for Sale** Johanna

Stark,2019-02-21 Common markets open borders air traffic and the internet have made it faster and less expensive to change places and jurisdictions As a result legal forums are increasingly treated as a good that is subject to the market mechanism Individuals and corporations increasingly have free reign to choose which legal rules to apply to their company their contract their marriage or their insolvency proceedings States in turn grant these opportunities and respond to demand by competing with other suppliers of legal regimes Regulatory competition describes a dynamic in which states as producers of legal rules compete for the favour of mobile consumers of their legal products This book focuses on the philosophical underpinnings problems and consequences of such regulatory competition It argues that there is a mismatch between regulatory competition as a policy approach and the beliefs and commitments that shape our thinking about law and the state It concludes that law markets are potentially at odds with both our conception of the functions of legal rules and of key political

ideals and principles such as democracy state autonomy and political authority **Modern Sports Law** Jack Anderson, 2010-10-26 The aim of this book is to provide an account of how the law influences the operation administration and playing of modern sports Although the book focuses on legal doctrine it has been written bearing in mind sports historical cultural social and economic context including the drama and colour of sports major events and leading personalities And although it is inevitably very much concerned with elite professional sports it is not dominated by them and seeks to cover the widest possible range of sports professional and amateur Initially the book addresses practical issues such as the structures of national and international sport and examines the evolution of the body of law known as sports law Thereafter three main themes are identified regulatory participatory and financial aspects of modern sport The regulatory theme is dealt with in chapters considering the manner in which decisions of sports governing bodies may be challenged in the ordinary courts and the development of alternative dispute resolution mechanisms in sport The participatory theme includes the legal regulation of doping and violence in sport as well as the broader topic of tortious liability for sporting injuries The financial theme reflecting the enhanced commercialisation of sport at all levels is developed in chapters concerning issues in applied contract and employment law for players and legal matters surrounding the organisation of major sports events The conclusion summarises modern sports experience of EU law pointing the way to the future direction of sports law more generally While the book is aimed primarily at students and is designed to cover fundamental and topical areas of sports law sports law in general sports bodies and the courts arbitration in sport corruption doping violence civil liability discrimination the commodification of modern sport and the likely future of sports law it should also prove of wider interest to practitioners sports administrators and governing bodies and though focused primarily on UK law it will also appeal to readers in Australia Canada New Zealand and the USA *The Legacy of Bosman* Antoine Duval, Ben Van Rompuy, 2016-05-25 In December 1995 the Court of Justice of the European Union delivered its judgment in its most famous case to date the Bosman case Twenty years later this book explores in detail how this landmark judgment legally and politically transformed the relationship between the European Union and sport Written by leading academics in the field the ten contributions in this book reflect on how Bosman fundamentally shaped the application of EU law to sport and its transformative effects on sports governance The book's innovative perspectives on the Bosman ruling makes it important reading for scholars practitioners and policy makers concerned with EU law and Sports law With a foreword by Prof Dr Carl Otto Lenz Advocate General at the Court of Justice in the Bosman case Dr Antoine Duval is Senior Researcher for International and European Sports Law at the T M C Asser Instituut in The Hague He holds a Ph D on the interaction between Lex Sportiva and EU Law from the European University Institute in Florence where he was the conveyor of the Transnational Law Working Group Prof dr Ben Van Rompuy is a senior researcher at the T M C Asser Instituut where he heads the ASSER International Sports Law Centre and is Visiting Professor of Competition Policy at the Free University of

Brussels VUB He holds a Ph D in law from the VUB and held visiting scholar positions at Georgetown University and New York University The book appears in the ASSER International Sports Law Series under the editorship of Prof Dr Ben Van Rompuy Dr Antoine Duval and Marco van der Harst LL M **Football Trafficking** Ini-Obong Nkang, 2024-12-31 This book provides a comprehensive analysis of the illicit practice of football trafficking focusing on the exploitation of underage African players being transferred to Europe It delves into the broader context of human trafficking examining relevant international laws and their application to football Through critical analysis of FIFA s regulatory framework the book questions the effectiveness of the organisation s current anti trafficking policies and proposes actionable solutions for reform By integrating theoretical insights with practical recommendations the book outlines strategies such as Sport for Development and Peace SDP programmes and child centred approaches to protect vulnerable young athletes and address some of the core factors that drive the occurrence of the crime This book is an essential resource for scholars policymakers legal professionals and stakeholders in the sports industry It offers valuable insights into the complex interplay between sports law and human rights making it particularly relevant for those interested in sports law international law and human trafficking prevention Readers will benefit from the book s in depth exploration of the regulatory challenges at play and the array of proposed remedies giving readers a deeper understanding of how to create a safer and more ethical environment for the at risk youths involved in football globally Sport In Consumer Culture John Horne, 2017-09-16 This book offers a distinctive introduction to understanding the position of sport in consumer society Drawing on recent developments in sociological theory and research particularly in relation to debates about culture and consumption the book examines how sport as both recreational practice and commercial spectacle has become more central to the capitalist economies of signs and space Containing up to date research findings and identifying key issues in the study and politics of sport in consumer culture this is essential reading for all students seeking to broaden their understanding of sport in society
