GATT, WTO and the Regulation of International Trade in Textiles Claudia Jiménez Cortés, 2018-08-20 Published in 1997 in this book an attempt has been made to analyze the legal structure of GATT and the WTO as well as those agreements which control trade in textiles One of the GATT's major failures was its inability to come into line with the new economic reality and the needs of those states who created this system for controlling

international trade Trade in textiles was an excellent example of this Now the WTO aims to overcome this problem thanks to its greater pragmatism and its search for solutions to free trade difficulties The WTO is not however the perfect solution Its highly political character allows room for improvement even though the key to its success still lies with the effective cooperation of member states As for the textile sector this new panorama for trade in goods provides it with a new opportunity to finally return to the general legal framework in the year 2005 *The Regulation of International Trade, Volume 2* Petros C. Mavroidis, 2016-04-22 A detailed examination of WTO agreements regulating trade in goods discussing legal context policy background economic rationale and case law The General Agreement on Tariffs and Trade GATT has extended its institutional arsenal since the Kennedy round in the early 1960s The current institutional design is the outcome of the Uruguay round and agreements reached in the ongoing Doha round begun in 2001 One of the institutional outgrowths of GATT is the World Trade Organization WTO created in 1995 In this book Petros Mavroidis offers a detailed examination of WTO agreements regulating trade in goods discussing legal context policy background economic rationale and case law Each chapter examines a given legal norm and its subsequent practice In particular he discusses agreements dealing with customs clearance contingent protection instruments which allow WTO members unilaterally to add to the negotiated amount of protection when a certain contingency for example dumping has occurred TBT Technical Barriers to Trade and SPS Sanitary and Phyto sanitary Measures agreements both of which deal with such domestic instruments as environmental health policy or consumer information the agreement on Trade Related Investment Measures TRIM sector specific agreements on agriculture and textiles plurilateral agreements binding a subset of WTO membership on government procurement and civil aviation and transparency in trade relations This book's companion volume examines the GATT regime for international trade

International Trade Regulation Thomas Cottier, Matthias Oesch, Thomas M. Fischer, 2005 **The Regulation of International Trade, Volume 3** Petros C. Mavroidis, 2020-11-24 A comprehensive analysis of GATS that considers its historical context the national preferences that shaped it and a path to a GATS 2.0 The previous two volumes in *The Regulation of International Trade* analyzed the General Agreement on Tariffs and Trade GATT the first successful agreement to generate multilateral trade liberalization and the World Trade Organization WTO for which the GATT laid the groundwork In this third volume Petros Mavroidis turns to the General Agreement on Trade in Services GATS a WTO treaty that took effect in 1995 and offers a comprehensive analysis that considers the historical context of the GATS the national preferences that shaped it and a path to a GATS 2.0 Mavroidis examines the GATS through its negotiating record considering whether the GATS as it is can appropriately address the concerns of the world trading community The GATS deals exclusively with non tariff barriers NTBs precisely the instrument that the WTO has not managed to tame and one of some significance in light of the digital revolution which has enlarged the scope of cross border transactions in which neither supplier nor consumer needs to travel for a service to be consumed Mavroidis argues that the GATS has brought about a platform to liberalize

services and has locked in some pre GATS liberalization What is missing he contends is a GATS Think that would generate liberalization from now on

International Trade Regulation Kevin C. Kennedy, 2009 International Trade Regulation Readings Cases Notes and Problems employs a practical problem based approach that reveals how and why the World Trade Organization and U S trade statutes are so integral to the regulation of international trade Designed to help students get the most out of the reading author Kevin Kennedy s problems and questions require students to exercise legal analysis to apply concepts and policy in context No further supplementation is required excerpts of provisions from the relevant WTO agreements and U S trade statutes have been inserted into each chapter where applicable An appendix includes the complete text of the most important WTO agreements

International Trade Boris Rigod, 2015-11-13 Are the limitations imposed on World Trade Organization WTO members right to regulate efficient This is a question that is only scarcely if ever analysed in existing literature Boris Rigod aims to provide an answer to this fundamental concern Using the tools of economic analysis and in particular the concept of economic efficiency as a benchmark the author states that domestic regulatory measures should only be subject to scrutiny by WTO bodies when they cause negative international externalities through terms of trade manipulations He then suggests that WTO law applied by the WTO judiciary can prevent WTO members from attaining optimal levels of regulation By applying a law and economics methodology Rigod provides an innovative solution to the problem of how to reconcile members regulatory autonomy and WTO rules as well as offering a novel analytical framework for assessing domestic regulations in the light of WTO law **The Regulation of International Trade, Volume 2** Petros C. Mavroidis, 2016-04-22 A detailed examination of

WTO agreements regulating trade in goods discussing legal context policy background economic rationale and case law The General Agreement on Tariffs and Trade GATT has extended its institutional arsenal since the Kennedy round in the early 1960s The current institutional design is the outcome of the Uruguay round and agreements reached in the ongoing Doha round begun in 2001 One of the institutional outgrowths of GATT is the World Trade Organization WTO created in 1995 In this book Petros Mavroidis offers a detailed examination of WTO agreements regulating trade in goods discussing legal

context policy background economic rationale and case law Each chapter examines a given legal norm and its subsequent practice In particular he discusses agreements dealing with customs clearance contingent protection instruments which allow WTO members unilaterally to add to the negotiated amount of protection when a certain contingency for example dumping has occurred TBT Technical Barriers to Trade and SPS Sanitary and Phyto sanitary Measures agreements both of which deal with such domestic instruments as environmental health policy or consumer information the agreement on Trade Related Investment Measures TRIM sector specific agreements on agriculture and textiles plurilateral agreements binding a subset of WTO membership on government procurement and civil aviation and transparency in trade relations This book s companion volume examines the GATT regime for international trade

Regional and Global Regulation of

International Trade Francis Snyder,2002-07-05 These essays written by leading scholars in international trade law argue the pros and cons of greater regional and global regulation *International Trade Regulation* Jianfu Chen,Zhiqiong June Wang,2024-10-07 The international trade regulatory system is a dynamic system that has been evolving throughout its history Tension and conflict are part of the system While calls for the abolition of the principal trade regulation authority the WTO have failed to understand this nature of the system proponents for reforms have so far not paid sufficient attention to the evolving nature of tension and conflict This book examines the evolving dynamics in international trade regulation from the conclusion of GATT in 1947 to the current crisis facing the WTO from a perspective of emerging powers of developing countries with a focus of China as the latest force that demands reforms of the international trade regulatory regime There is an extensive body of scholarship on ideological struggles the rise of developing countries geopolitical contest the emerging powers especially China the use misuse or abuse of trading rules and so on There is however a lack of a single concise research book that synthesises these underlying causes and factors into a coherent and precise analytical theme This book attempts to fill this research gap by building upon the existing scholarship and placing the various tensions and conflicts in a perspective that treats them as dynamic factors that have propelled a continuing process of evolution of the international trade regulation The book will interest those researching on international trade regulation as well as development studies
