Regulation The Reagan Era Politics

Roger E. Meiners, Bruce Yandle

Regulation The Reagan Era Politics:

Regulation in the Reagan-Bush Era Barry D. Friedman, 2010-06-15 This timely and well researched study describes for the first time the astonishing acquiescence of executive agency officials, members of Congress and federal judges to Ronald Reagan's assertion of extraordinary new presidential power over the federal regulatory process. The controversial Executive Order 12291, from Harry Truman through Jimmy Carter, chief executives complained that federal bureaucrats disregarded their policy preferences; presidential influence over regulatory rule making was limited; congressional committees and interest groups commanded more attention. Then in February 1981 Ronald Reagan abruptly departed from tradition by ordering that regulatory agencies must submit proposed guidelines for Office of Management and Budget approval. Barry D. Friedman describes how the executive agencies and Congress responded warily and with skepticism yet allowed the changes to remain. The judiciary was also willing to retreat from time honored precedents that had preserved agency prerogative and now accorded due respect to the revolutionary Reagan reform initiatives. Institutions that competed for leverage in the system continued to exercise restraint in their mutual relations because they recognized that all benefitted from the others' viability. This book shows that conventional political science theories and models are now obsolete because of the eruption of presidential control into bureaucratic affairs. New review procedures have restructured relations between the president and the agencies and among the government's three branches because of Reagan's radical initiative. President Bill Clinton and his successors will sit at the bargaining table when regulation policy is developed in Washington and political theorists will have to work from a new conception of presidential prerogative.

The War Against Regulation Phillip J. Cooper, 2009 A concise survey and analysis of presidential attempts over the last thirty years by Democrats and Republicans alike to dismantle the regulatory state that first appeared under FDR. Argues that the war against regulation failed and that its excesses remind us of the value and proper role of regulation in American government.

Ronald Reagan and the Politics of Freedom Andrew Busch, 2001 In *Ronald Reagan and the Politics of Freedom* Andrew E. Busch goes beyond economic and foreign policies to examine Reagan's understanding of statesmanship. Busch analyzes Reagan's conscious attempt to strengthen the separation of powers, federalism and traditional rhetoric and his efforts to revive the notion of limited government in a Constitutional Republic. In this important new study Busch concludes that Ronald Reagan's politics of freedom found in his discourse, policy and coalition building achieved significant successes in the 1980s and beyond.

Regulatory Politics in an Age of Polarization and Drift Marc Allen Eisner, 2017-02-24 Regulatory change is typically understood as a response to significant crises like the Great Depression or salient events that focus public attention like Earth Day 1970. Without discounting the importance of these kinds of events, change often assumes more gradual and less visible forms. But how do we see change and what institutions and processes are behind it? In this book, author Marc Eisner brings these questions to bear on the analysis of regulatory change, walking the reader through a clear-eyed and careful examination of the dynamics of

regulatory change since the 1970s social regulation and institutional design forms of gradual change including conversion layering and drift gridlock polarization and the privatization of regulation financial collapse and the anatomy of regulatory failure Demonstrating that transparency and accountability the hallmarks of public regulation are increasingly absent and that deregulation was but one factor in our most recent significant financial collapse the Great Recession this book urges readers to look beyond deregulation and consider the broader political implications for our current system of voluntary participation in regulatory programs and the proliferation of public private partnerships This book provides an accessible introduction to the complex topic of regulatory politics ideal for upper level and graduate courses on regulation government and business bureaucratic politics and public policy

Regulation and the Reagan Era Roger E. Meiners, Bruce Yandle, 1989

A Companion to Ronald Reagan Andrew L. Johns, 2015-02-10 A Companion to Ronald Reagan evaluates in unprecedented detail the events policies politics and people of Reagan's administration It assesses the scope and influence of his various careers within the context of the times providing wide ranging coverage of his administration and his legacy Assesses Reagan and his impact on the development of the United States based on new documentary evidence and engagement with the most recent secondary literature Offers a mix of historiographic chapters devoted to foreign and domestic policy with topics integrated thematically and chronologically Includes a section on key figures associated politically and personally with Reagan

Federal Regulation of State and Local Governments DIANE Publishing Company, 1994-05 Examines the actions and accomplishments of executive branch initiatives to restrain and reform intergovernmental regulation during the 1980s It inventories a number of significant new mandates enacted by Congress during the past decade and develops a rough estimate of their cumulative costs Also traces the Supreme Court's evolving doctrines affecting intergovernmental regulation Presents recommendations for responding to this situation Over 30 charts tables and graphs

Recarving Rushmore Ivan Eland, 2014-10-01 Who were the best and worst U S presidents In the past when historians and scholars have rated the presidents their evaluations often have been based on individual charisma activism and service during periods of crisis Taking a distinctly new approach in Recarving Rushmore Ivan Eland profiles each U S president from Washington to Obama on the merits of his policies and whether those strategies contributed to peace prosperity and liberty This ranking system is based on how effective each president was in fulfilling his oath to uphold the Constitution Contrary to the preferences of modern conservatives and liberals this oath was intended to limit the role of the federal government Readers will be intrigued to discover why of the four men given exalted representations on Mount Rushmore only Washington deserves the honor They will learn why Teddy Roosevelt has been overrated why Jefferson hypocritically violated his lofty rhetoric of liberty and why Lincoln provoked a civil war that achieved far less than believed Readers will uncover why some presidents are rated much higher than the conventional wisdom for example Warren Harding and some rank much lower for example Harry Truman As for more modern U S chief executives Republicans will be

astounded to learn that Nixon was the last liberal president and that Reagan wasn't all that conservative Democrats will be amazed to learn that Clinton was in some respects more conservative than George W. Bush and why both Obama and Bush are ranked as bad Readers will learn why the author goes against the grain and anoints Eisenhower and Carter as the two best modern presidents

Regulatory Reform from Nixon to Biden John D. Graham, 2024-10-03 This book examines the development of regulatory policy since the 1960s focusing on how each president from Nixon to Biden stimulated reform Highlighting the increasingly dominant role of the president in the modern administrative state John D. Graham presents a regulatory reform agenda for Congress the executive branch and the judiciary

The Bureaucrat Kings Paul D. Moreno, 2016-11-14 Provocative in nature this work looks critically at the bureaucratic infrastructure behind the U.S. federal government from its origins as a self-governing republic in the 18th century to its modern presence as a centralized institution This fascinating critique analyzes the inner workings of the American government suggesting that our federal system works not as a byproduct of the U.S. Constitution but rather as the result of liberal and progressive politics Distinguished academic and political analyst Paul D. Moreno asserts that errant political movements have found loopholes in the U.S. Constitution allowing for federal bureaucracy a state he feels is a misinterpretation of America's founding dogma He contends that constitutionalism and bureaucracy are innately incompatible with the former suffering to accommodate the latter According to Moreno the leadership of the United States strayed from the democratic principles of the early founders and grew to what it is today a myriad of bureaucratic red tape couched in unreasonable policies A straightforward chronological narrative explains how non-elected bureaucrats became powerful political mavens in America Each chapter covers several decades and features events spanning from the early history of the United States through coverage of the Affordable Care Act Obamacare of 2010

Exit with Honor William E. Pemberton, 2015-03-04 Few presidents have sparked as much interest in recent years as Ronald Reagan already the subject of a large number of biographies and specialized subjects This biography based on recent research into the Reagan archives and synthesis of the large memoir literature explores the shaping of his values and beliefs during his childhood in the American heartland his leadership of the American conservative movement and his successful political career culminating in the first two-term presidency since Dwight Eisenhower Pemberton finds Reagan's personal career and ability to understand and communicate with the American people admirable but finds many of the long-term effects of his presidency harmful

Executive orders 12353 and 12404 as they regulate the Combined Federal Campaign United States. Congress. House. Committee on Government Operations. Manpower and Housing Subcommittee, 1983

Contemporary Regulatory Policy Marc Allen Eisner, Jeffrey Worsham, Evan J. Ringquist, 2000 This volume examines regulatory trends and political control of the regulatory process in seven major areas antitrust banking and securities telecommunication environmental protection occupational safety and health consumer products and energy

The Development of the American Presidency Richard J. Ellis, 2013-06-17 Our

understanding of the politics of the presidency is greatly enhanced by viewing it through a developmental lens analyzing how historical turns have shaped the modern institution The Development of the American Presidency pays great attention to that historical weight but is organized topically and conceptually with the constitutional origins and political development of the presidency its central focus Through comprehensive and in depth coverage this text looks at how the presidency has evolved in relation to the public to Congress to the Executive branch and to the law showing at every step how different aspects of the presidency have followed distinct trajectories of change All the while Ellis illustrates the institutional relationships and tensions through stories about particular individuals and specific political conflicts Ellis s own classroom pedagogy of promoting active learning and critical thinking is well reflected in these pages Each chapter begins with a narrative account of some illustrative puzzle that brings to life a central concept A wealth of photos figures and tables allow for the visual presentations of concepts A companion website not only acts as a further resources base directing students to primary documents newspapers and data sources but also presents interactive timelines practice quizzes and key terms to help students master the book s lessons

Public Citizens: The Attack on Big Government and the Remaking of American Liberalism Paul Sabin, 2021-08-10 Crisp clear eloquent Kim Phillips Fein New Republic An elegantly argued and meticulously documented Timothy Noah New York Times Book Review account of the postwar struggle over the proper role of citizens and government in American society In the 1960s and 1970s an insurgent attack on traditional liberalism took shape in America It was built on new ideals of citizen advocacy and the public interest Environmentalists social critics and consumer advocates like Rachel Carson Jane Jacobs and Ralph Nader crusaded against what they saw as a misguided and often corrupt government Drawing energy from civil rights protests and opposition to the Vietnam War the new citizens movement drew legions of followers and scored major victories Citizen advocates disrupted government plans for urban highways and new hydroelectric dams and got Congress to pass tough legislation to protect clean air and clean water They helped lead a revolution in safety that forced companies and governments to better protect consumers and workers from dangerous products and hazardous work conditions And yet in the process citizen advocates also helped to undermine big government liberalism the powerful alliance between government business and labor that dominated the United States politically in the decades following the New Deal and World War II Public interest advocates exposed that alliance s secret bargains and unintended consequences They showed how government power often was used to advance private interests rather than restrain them In the process of attacking government for its failings and its dangers the public interest movement struggled to replace traditional liberalism with a new approach to governing The citizen critique of government power instead helped clear the way for their antagonists Reagan era conservatives seeking to slash regulations and enrich corporations Public Citizens traces the history of the public interest movement and explores its tangled legacy showing the ways in which American liberalism has been at war with itself The book forces us to reckon with the challenges of regaining our faith in

government's ability to advance the common good The Politics of the Presidency, Revised 8th Edition Joseph A. Pika, John Anthony Maltese, 2013-07-15 Never losing sight of the historical foundations of the office of President of the United States the authors maintain a delicate balance as they examine the presidency through a modern lens The Political Economy of "excessive" Regulation John E. Chubb, 1981 **Conservatism, Consumer Choice, and the Food and Drug Administration during the Reagan Era** Lucas Richert, 2014-05-16 In the last quarter of the 20th century politicians in Washington as well as interest groups regulatory policy makers and drug industry leaders were forced to confront the hot button issue of pharmaceutical regulation The struggle always centered on product innovation consumer protection and choice in the free market As the American economy stuttered in the late 1970s the stakes were extremely high for the powerful drug industry and the American public At the center of this drama was the Food and Drug Administration which was censured from both the left and right of the political spectrum for being too strict and too lenient in the application of its regulatory powers Lucas Richert explores the FDA drugs and politics in the context of the watershed Reagan era a period when the rhetoric of limited government reduced regulation and enhanced cooperation between businesses and U S regulatory agencies was on the ascent As he investigates the controversies surrounding Laetrile Reye's Syndrome Oraflex patient package inserts diet pills and HIV AIDS drugs Richert argues that the practical application of conservative economic principles to the American drug industry was A Prescription for Scandal **Federalism and the Making of America** David Brian Robertson, 2013-03 Though Americans rarely appreciate it federalism has profoundly shaped their nation's past present and future Federalism the division of government authority between the national government and the states affects the prosperity security and daily life of every American In this nuanced and comprehensive overview David Brian Robertson shows that past choices shape present circumstances and that a deep understanding of American government public policy political processes and society requires an understanding of the key steps in federalism's evolution in American history The most spectacular political conflicts in American history have been fought on the battlefield of federalism including states rights to leave the union government power to regulate business and responses to the problems of race poverty pollution abortion and gay rights Federalism helped fragment American politics encourage innovation foster the American market economy and place hurdles in the way of efforts to mitigate the consequences of economic change Federalism helped construct the path of American political development Federalism and the Making of America is a sorely needed text that treats the politics of federalism systematically and accessibly making it indispensable to all students and scholars of American politics Chosen as one of Choice's Outstanding Academic Titles for 2012 **The Reagan Regulatory Strategy** George C. Eads, Michael Fix, 1984

Regulation The Reagan Era Politics Book Review: Unveiling the Power of Words
