*Caryl Phillips, David Dabydeen and Fred D'Aguiar* Abigail Ward, 2013-07-19 Slavery is a recurring subject in works by the contemporary black writers in Britain Caryl Phillips David Dabydeen and Fred D'Aguiar yet their return to this past arises from an urgent need to understand the racial anxieties of twentieth and twenty first century Britain This book examines the ways in which their literary explorations of slavery may shed light on current issues in Britain today or what might be thought of as the continuing legacies of the UK's largely forgotten slave past In this highly original study of contemporary postcolonial literature Abigail Ward explores a range of novels poetry and non fictional works by these authors in order to investigate their creative responses to the slave past This is the first study to focus exclusively on British literary representations of slavery and thoughtfully engages with such notions as the ethics of exploring slavery the memory and trauma of this past and the problems of taking a purely historical approach to Britain's involvement in slavery or Indian indenture Although all three authors are concerned with the problem of how to commence representing slavery their approaches to this problem vary immensely and this book investigates these differences

*The Meanings of Discipleship* Andrew Hayes, Stephen Cherry, 2022-07-22 Discipleship is a foundational concept of Christian life which has become a popular and ubiquitous description of belonging and growth in early 21st century ecclesiastical language Discipleship courses and popular writings abound and the term is used liberally in official church documents and strategies for growth and development particular in a western context But does recent use of the word risk reducing the wide range of meanings of discipleship to something less rich and inclusive than is warranted With contributions from an array of leading thinkers

scholars and theologians including Rachel Mann Kirsteen Kim and Anthony Reddie this book argues that there is need for more clarity precision and depth in defining what meaningfully and constructively is construed as discipleship Beginning with an overview of how the concept of discipleship has been understood in history the volume goes on to consider some of the key figures who have shaped our understanding of the concept and finally to reflect on what discipleship might look like in contemporary society

**Reimagining Israel and Palestine in Contemporary British and German Culture** Isabelle Hesse,2024-03-05 Isabelle Hesse identifies an important relational turn in British and German literature TV drama and film published and produced since the First Palestinian Intifada 1987 1993 This turn manifests itself on two levels one in representing Israeli and Palestinian histories and narratives as connected rather than separate and two by emphasising the links between the current situation in Israel and the Occupied Palestinian Territories and the roles that the United Kingdom and Germany have played historically and continue to play in the region This relational turn constitutes a significant shift in representations of Israel and Palestine in British and German culture as these depictions move beyond an engagement with the Holocaust and Jewish suffering at the expense of Palestinian suffering and indicate a willingness to represent and acknowledge British and German involvement in Israeli and Palestinian politics This book offers new ways of thinking about how Israel and Palestine are imagined and reimagined as topics of cultural and political interest in two countries that have had complicated histories with both Israel and Palestine histories which are marked by each country's memories of the Holocaust and colonialism

**A Theology of Gratitude** Mona Siddiqui,Nathanael Vette,2022-12-22 How from a theological standpoint should we make sense of gratitude This rich interdisciplinary volume is the first concerted to explore theologies of gratitude from both Christian and Muslim perspectives While the available literature has tended to rhapsodize gratitude to God and others as both a virtue and an obligation this book by contrast offers something new by detailing ways in which gratitude is complicated by inequality even to the point of becoming a vice Gratitude now emerges as something more than a virtue and other than merely transactional It can be a burden bringing about indebtedness and an imbalance of power but it may also be a resonant source of reconciliation and belonging Topics discussed cover the personal and political dimensions of gratitude including such issues as justice multiculturalism racism imperialism grief memory and hope The book assembles from different traditions some of the leading theologians of our times

Writing the City in British Asian Diasporas Sean McLoughlin,William Gould,Ananya Jahanara Kabir,Emma Tomalin,2014-07-11 In 1962 the Commonwealth Immigrants Act hastened the process of South Asian migration to postcolonial Britain Half a decade later now is an opportune moment to revisit the accumulated writing about the diasporas formed through subsequent settlement and to probe the ways in which the South Asian diaspora can be re conceptualised Writing the City in British Asian Diasporas takes a fresh look at such matters and will have multi disciplinary resonance worldwide The meaning and importance of local multi local and trans local dynamics is explored through a devolved and regionally accented comparison of five British Asian cities Bradford the East

End of London Manchester Leicester and Birmingham Analysing the writing of these differently configured cities since the 1960s its main focus is the significant discrepancies in representation between differently positioned texts reflecting both dominant institutional discourses and everyday lived experiences of a locality Part I offers a comprehensive yet still highly contested reading of each city s archives Part II examines how the arts and humanities fields of History Religion Gender and Literary Cultural Studies have all written British Asian diasporas and how their perspectives might complement the better established agendas of the social sciences Providing an innovative analysis of South Asian communities and their multi local identities in Britain today this interdisciplinary book will be of interest to scholars of South Asian Studies Migration Ethnic and Diaspora Studies as well as Sociology Anthropology and Geography *Power, Diversity and Public Relations* Lee Edwards,2014-09-25 *Power Diversity and Public Relations* addresses the lack of diversity in PR by revealing the ways in which power operates within the occupation to construct archetypal practitioner identities occupational belonging and exclusion It explores the ways in which the field is normatively constructed through discourse and examines how the experiences of practitioners whose ethnicity and class differ from the typical PR background shape alternative understandings of the occupation and their place within it The book applies theoretical perspectives ranging from Bourdieuvian and occupational sociology to postcolonial and critical race theory to a variety of empirical data from the UK PR industry Diversity emerges as a product of the dialectics between occupational structures norms and practitioners reactions to those constraints it follows that improving diversity is best understood as an exercise in democracy where all practitioner voices are heard valued and encompass the potential for change This insightful text will be essential reading for researchers and students in Public Relations Communications Media Studies Promotional Industries as well as all scholars interested in the sociology of race and work relations *India in Britain* Susheila Nasta,2012-11-16 Moving away from orthodox narratives of the Raj and British presence in India this book examines the significance of the networks and connections that South Asians established on British soil Looking at the period 1858 1950 it presents readings of cultural history and points to the urgent need to open up the parameters of this field of study ***Reimagining the Transatlantic, 1780-1890*** Joselyn M. Almeida,2016-04-08 In her thought provoking study of Britain s relationship with Latin America and the Caribbean during the Romantic and Victorian periods Joselyn M Almeida makes a compelling case for extending the critical boundaries of current transatlantic and circumatlantic scholarship She proposes the pan Atlantic as a critical model that encompasses Britain s relationship to the non Anglophone Americas given their shared history of conquest and the slave trade and underscores the importance of writings by Afro British and Afro Hispanophone authors in formulating Atlantic culture In adopting the term pan Atlantic Almeida argues for the interrelationship of the discourses of discovery conquest enslavement and liberation expressed in literary motifs such as the New World Columbus and Las Casas the representation of Native Americans the enslavement and liberation of Africans and the emancipation of Spanish America Her study draws on the

works of William Robertson Ottobah Cugoano Francisco Clavijero Francisco Miranda Jos Blanco White Richard Robert Madden Juan Manzano Charles Darwin and W H Hudson uncovering the shared cultural grammar of travel narratives abolitionist poems novels and historiographies that crosses national and linguistic boundaries *Pentecostal Theology and Ecumenical Theology*, 2019-09-16 Pentecostal Theology and Ecumenical Theology Interpretations Intersections and Inspirations brings together globally recognized and newer scholars to address the complex relationship between Pentecostalism and the Ecumenical Movement Historical essays address topics such as early Pentecostal responses to and participation in ecumenism explicit convergences between Pentecostal and ecumenical initiatives and the particular contributions of Pentecostals and ecumenists outside North America and Europe Constructive theological essays address intersections between ecumenical theology and systematic loci in Pentecostal perspective in the hope that mutual exchange and criticism will lead to ways to improve both Never before have this many scholars of Pentecostalism combined their efforts in order to focus on the relationship between Pentecostal theology and ecumenical theology past present and future
