Reimagining The Modern American West A Century Of Fiction History And Art:

The American West Michael P. Malone, 2007-11-01 Chronicles the history of the American West during the twentieth century tracing economical political social and cultural developments in the region from 1900 to the turn of the twenty first century in an updated edition that includes new sections that explore the roles of ethnic groups in the new West urban developments western women and events since the mid 1980s Original *Re-imagining the Modern American West* Richard W. Etulain, 1996-09 Describes changes in how the West has been seen from a male dominated frontier to a region with a powerful sense of place to a modern center of both genders ethnic groups and environmental interests The North American West in the Twenty-First Century Brenden W. Rensink, 2022-11 In 1893 Frederick Jackson Turner famously argued that the generational process of meeting and conquering the supposedly uncivilized western frontier is what forged American identity In the late twentieth century new western historians dissected the mythologized western histories that Turner and others had long used to embody American triumph and progress While Turner s frontier is no more the West continues to present America with challenging processes to wrestle navigate and overcome The North American West in the Twenty First Century edited by Brenden W Rensink takes stories of the late twentieth century modern West and carefully pulls them toward the present explicitly tracing continuity with or unexpected divergence from trajectories established in the 1980s and 1990s Considering a broad range of topics including environment Indigenous peoples geography migration and politics these essays straddle multiple modern frontiers not least of which is the temporal frontier between our unsettled past and uncertain future These forays into the twenty first century West will inspire more scholars to pull histories to the present and by doing so reinsert scholarly findings into contemporary public awareness **A Companion to the American West** William Deverell, 2008-04-15 A Companion to the American West is a rigorous illuminating introduction to the history of the American West Twenty five essays by expert scholars synthesize the best and most provocative work in the field and provide a comprehensive overview of themes and historiography Covers the culture politics and environment of the American West through periods of migration settlement and modernization Discusses Native Americans and their conflicts and integration with American settlers **A Texas Cowboy** Charles A. Siringo, 2000-12-01 After a nomadic childhood Charles Siringo signed on as a teenage cowboy for the noted Texas cattle king Shanghai Pierce and began a life that embraced all the hard work excitement and adventure readers today associate with the cowboy era He rid the Chisholm trail driving 2 500 heads of cattle from Austin to Kansas knew Tascosa now a historic monument when it was home to raucous saloons red light districts and a fair share of violence and led a posse of cowboys in pursuit of Billy the Kid and his gang First published in 1885 Siringo s chronicle of his life as a itchy footed boy cowhand range detective and adventurer was one the first classics about the Old West and helped to romanticize the West and its myth of the American cowboy Will Rogers declared That was the Cowboy s Bible when I was growing up For more than seventy years Penguin has been the leading publisher of classic literature in the

English speaking world With more than 1 700 titles Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors as well as up to date translations by award winning translators

Imagined Frontiers Carl Abbott,2015-09-10 We live near the edge whether in a settlement at the core of the Rockies a gated community tucked into the wilds of the Santa Monica Mountains a silicon culture emerging in the suburbs or in the future homesteading on a terraformed Mars In Imagined Frontiers urban historian and popular culture scholar Carl Abbott looks at the work of American artists who have used novels film television maps and occasionally even performance art to explore these frontiers the metropolitan frontier of suburban development the classic continental frontier of American settlement and the yet unrealized frontiers beyond Earth Focusing on writers and artists working during the past half century an era of global economic and social reach Abbott describes the dialogue between historians and social scientists seeking to understand these frontier places and the artists reimagining them in written and visual fictions This book offers perspectives on such well known authors as T C Boyle and John Updike and on such familiar movies and television shows as Falling Down and The Sopranos By putting The Rockford Files and the cult favorite Firefly in conversation with popular fiction writers Robert Heinlein and Stephen King and literary novelists Peter Matthiessen and Leslie Marmon Silko Abbott interweaves the disparate subjects of western history urban planning and science fiction in a single volume Abbott combines all new essays with others previously published but substantially revised to integrate western and urban history literary analysis and American studies scholarship in a uniquely compelling analysis of the frontier in popular culture

Long After Dark Todd Robert Petersen,2007 A man struggles literally with his dead father A housewife suffers from post calling depression The son of a polygamist comes to terms with his upbringing An unwed teen mother faces her father In these award winning stories and a new novella Todd Robert Petersen takes the reader on expeditions to Utah Arizona Brazil Rwanda and into the souls of twenty first century Mormons caught between their humanity faith and church

Translating Southwestern Landscapes Audrey Goodman,2002-09 Examines how the Southwest emerged as a symbolic cultural space for Anglos from 1880 through the early decades of the twentieth century particularly in the works of amateur ethnographer Charles Lummis pulp novelist Zane Grey translator of Indian songs Mary Austin and modernist author Willa Cather

Sunbelt Rising Michelle Nickerson,Darren Dochuk,2013-09-17 Coined by Republican strategist Kevin Phillips in 1969 to describe the new alloy of conservatism that united voters across the southern rim of the country the term Sunbelt has since gained currency in the American lexicon By the early 1970s the region had come to embody economic growth and an ambitious political culture With sprawling suburban landscapes cities like Atlanta Dallas and Los Angeles seemed destined to sap influence from the Northeast Corporate entrepreneurialism and a conservative ethos helped forge the Sunbelt s industrial labor relations military spending education systems and neighborhood development Unprecedented

migration to the region ensured that these developments worked in concert with sojourners personal quests for work family community and leisure In the resplendent Sunbelt the nation seemed to glimpse the American Dream remade The essays in Sunbelt Rising deploy new analytic tools to explain this region s dramatic rise Contributors to the volume study the Sunbelt as both a physical entity and a cultural invention They examine the raised highway the sprawling prison complex and the fast food restaurant as distinctive material contours of a region In this same vein they delineate distinctive Sunbelt models of corporate and government organization which came to shape so many aspects of the nation s political and economic future Contributors also examine literature religion and civic engagement to illustrate how a particular Sunbelt cultural sensibility arose that ordered people s lives in a period of tumultuous change By exploring the interplay between the Sunbelt as a structurally defined space and a culturally imagined place Sunbelt Rising addresses longstanding debates about region as a category of analysis

Violence, the Arts, and Willa Cather Joseph R. Urgo, Merrill Maguire Skaggs, 2007 Willa Cather was devoted to making art in the face of violence Here she emerges as a resource for survival in an age of terror an artist who encourages her readers to feel at home in the nexus of creativity and terror and to seek creative responses to the horror of human life

Salvation Gap and Other Western Classics Owen Wister, 1999-01-01 Owen Wister invented the Western novel with *The Virginian* and that work and this collection of stories prove that although many have gone after him no one has ever topped him in skill and enduring appeal Wister saw the story of the West as a collision of centuries with the Stone Age the Middle Ages and the modern world coming together to form a new place and a new people Wister said of this collection These stories are about Indians and soldiers and events west of the Missouri They belong to the past but you will find some of those ancient surviving centuries in them if you take my view Here are unforgettable characters Specimen Jones the taciturn and capable rider from an unknown past who has no use for fools and even less for bullies General Crook and his men who do the Government s dirty work on the frontier and get no thanks for it and unregenerate Rebels and Union veterans in an uneasy frontier political alliance

A Short Season Donald M. Morehead, Ann E. Morehead, 1998-01-01 The author discusses the time he spent living on a sheep ranch in Montana during the 1940s

The Cold War American West, 1945-1989 Kevin J. Fernlund, 1998 The first comprehensive survey of the Cold War s enormous impact on the environment society politics culture and economy of the American West
