Under hypnotic regression John's patient Tony reveals a bizarre and horrifying tale of a past life lived on Tyneside in the 1950s involving two schoolboys and a weird creature with paranormal powers lurking in caves beneath Tynemouth Castle. As John regresses Tony through earlier lives as far back as the 14th century it begins to seem that the local legend captured in folksong of a malevolent Lambton Worm may have had a basis in fact that it was in fact the salamander of alchemical belief summoned by an alchemist known as Raymond Lully and possibly still locked below Tynemouth Castle. And while John Cunningham is exploring Tony's multiple personalities he begins to experience personality problems of his own as Jack Cannon begins to assert his own individuality.
