**Reinventing the Family** Elisabeth Beck-Gernsheim, 2002-04-22 The traditional image of the family as a life long unit is fading fast There are fewer marriages more divorces and ever more children born to unmarried or single parents The forms of our private life are changing rapidly and people are embarking on new lifestyles based on cohabitation separation and same sex partnerships In this lively and accessible new book Elisabeth Beck Gernsheim looks at the future of our lives after the family Examining the breakdown of the conventional family unit she explores the new choices that are open to individuals and analyses our anxiety over the ensuing loss of stability In *Reinventing the Family* Beck Gernsheim describes how men and women are being confronted with competing and often incompatible demands Our areas of personal choice have been redrawn but in a space that involves new social regulations and controls The talk of family values sits uneasily with the reality of long working hours business trips weekend seminars and career moves At work we are encouraged to pursue competition speed and change at home we are expected to find community and conciliation Beck Gernsheim examines the impact of these conflicting expectations on the relationships between men women and children and searches for possible solutions *Reinventing the Family* is an important and timely contribution to the growing debate about the family and its future It will be ideal reading for students of sociology and gender studies but will also appeal to a wide general readership

provocation to reclaim our disability lineage in order to profoundly reimagine the possibilities for our relationship to disability kinship and carework Disability is often described as a tragedy a crisis or an aberration though 1 in 5 people worldwide have a disability Why is this common human experience rendered exceptional In *All Our Families* disability studies scholar Jennifer Natalya Fink argues that this originates in our families When we cut a disabled member out of the family story disability remains a trauma as opposed to a shared and ordinary experience This makes disability and its diagnosis traumatic and exceptional Weaving together stories of members of her own family with sociohistorical research Fink illustrates how the eradication of disabled people from family narratives is rooted in racist misogynistic and antisemitic sorting systems inherited from Nazis By examining the rhetoric of genetic testing she shows that a fear of disability begins before a child is even born and that a fear of disability is fundamentally a fear of care Fink analyzes our racist and sexist care systems exposing their inequities as a source of stigmatizing ableism Inspired by queer and critical race theory Fink calls for a lineage of disability a reclamation of disability as a history a culture and an identity Such a lineage offers a means of seeing disability in the context of a collective sense of belonging as cause for celebration and is a call for a radical reimagining of carework and kinship *All Our Families* challenges us to re lineate disability within the family as a means of repair toward a more inclusive and flexible structure of care and community
