Smith,2000-11-09 Mastered by the Clock is the first work to explore the evolution of clock based time consciousness in the American South Challenging traditional assumptions about the plantation economy s reliance on a premodern nature based conception of time Mark M Smith shows how and why southerners particularly masters and their slaves came to view the clock as a legitimate arbiter of time Drawing on an extraordinary range of eighteenth and nineteenth century archival sources Smith demonstrates that white southern slaveholders began to incorporate this new sense of time in the 1830s Influenced by colonial merchants fascination with time thrift by a long held familiarity with urban public time by the transport and market revolution in the South and by their own qualified embrace of modernity slaveowners began to purchase timepieces in growing numbers adopting a clock based conception of time and attempting in turn to instill a similar consciousness in their slaves But forbidden to own watches themselves slaves did not internalize this idea to the same degree as their masters and slaveholders found themselves dependent as much on the whip as on the clock when enforcing slaves obedience to time Ironically Smith shows freedom largely consolidated the dependence of masters as well as freedpeople on the clock

Internal Revenue Service,1992 Between Two Worlds Malcolm Gaskill,2014-11-11 In the 1600s over 350 000 intrepid English men women and children migrated to America leaving behind their homeland for an uncertain future Whether they settled in Jamestown Salem or Barbados these migrants entrepreneurs soldiers and pilgrims alike faced one incontrovertible truth England was a very very long way away In Between Two Worlds celebrated historian Malcolm Gaskill tells the sweeping story of the English experience in America during the first century of colonization Following a large and varied cast of visionaries and heretics merchants and warriors and slaves and rebels Gaskill brilliantly illuminates the often traumatic challenges the settlers faced The first waves sought to

recreate the English way of life even to recover a society that was vanishing at home But they were thwarted at every turn by the perils of a strange continent unaided by monarchs who first ignored then exploited them As these colonists strove to leave their mark on the New World they were forced by hardship and hunger by illness and infighting and by bloody and desperate battles with Indians to innovate and adapt or perish As later generations acclimated to the wilderness they recognized that they had evolved into something distinct no longer just the English in America they were perhaps not even English at all These men and women were among the first white Americans and certainly the most prolific And as Gaskill shows in learning to live in an unforgiving world they had begun a long and fateful journey toward rebellion and finally independence
